Be Sure You're Right, Then Go Ahead.

Five Large Veins,  
75,000 Tons, High-grade Ore in Sight.

Favorable reports by Horace V. Winchell, (state geologist); Julius Ropes (president of the "Ropes Gold and Silver Mine"); Wm. Peters, (former superintendent of the "Little American Gold Mine"); men acknowledged to be authority on gold formations, as well as of practical mining experience.

### The Wiegand Mine.

Since the visit of Professor Horace V. Winchell to the property, a shaft has been sunk on No. 5 vein, fourteen feet deep. The vein is a true fissure, six feet wide, with two feet of rose quartz, men assaying from \$20.00 to \$200.00 per ton; the balance of the vein matter being mixed, about 75 per cent of which is quartz, all of which carries free gold.

Miners are now at work under contract to sink this shaft to the depth of a hundred feet, and expect to progress at the rate of about thirty-five feet per month. Shafts on Nos. 1 and 2 veins, will be continued in the near future.

Arrangements will be made to have a ten-stamp mill (capacity thirty tons per day) ready to run by May 15th, by which time we propose to have a stock pile of about 1500 tons of good ore.

To expedite the work of opening up the mine, power drills will be used if necessary. In order to push this work as rapidly as possible, the "Wiegand Gold Mining Co." has been organized under the laws of the State of Minnesota. Capitalization, \$300,000.00; par value of shares, \$1.00. Fifty thousand shares will be placed in the treasury to provide funds for working capital. Ten thousand shares are now offered for sale at fifty cents a share, and will be sent by mail in not less than 100 share lots, on receipt of certified checks.

We are aware that gold stocks, as a rule, are not desirable property. Nor do we propose to encourage anyone to buy the Wiegand stock on our say so. To those who care to invest, we advise them to first thoroughly investigate, or have someone on whose judgment they can rely, do so for them. The property can be seen and a man of experience can readily judge as to its value.

Ore averaging \$7.00 in the mill will pay a large profit. The appearance of the vein matter, together with assays running from \$6.45 to \$20.00 per ton, indicates that the rich quartz will average from \$5.00 to \$25.00 per ton.

Any further information desired can be obtained by calling at our offices, 300 and 310 Burrows Block.

Reports, Prospectus and a good write-up of the Rainy Lake and Seine River Gold Fields, sent by mail on application.

## NOT JUDICIOUS.

Attorney General Childs Reports Against  
Adoption of the Initiative and Referendum in This State.

Mr. Cant's Bill for the Adjustment of Debts of  
Municipalities is Recommended to Pass.

Resolution to Investigate the Late Pine  
Lands Committee's Report Was Laid  
on the Table.

A Commission Proposed to Act With Com-  
missions From Other States Regarding  
the Russian Thistle.

ST. PAUL, Jan. 30.—Speaker Van Sant called the house to order with his usual promptness this morning, and they speedily got down to work. The attorney general sent in a communication in response to the resolution adopted by the last legislature asking for information as to the initiative and referendum, now in vogue in Switzerland, and desiring a statement of the probable effect of applying the same to this country; whether it would give better control over corporations, and many other points. He gave a complete history of the initiative and referendum in Switzerland, showing the origin, successful operation and the character of the people of Switzerland. He considered that the present adoption of the initiative and referendum in this state would be an expensive and injudicious institution. The communication was referred to the judiciary committee.

Governor Nelson transmitted a copy of the North Dakota joint resolution for a commission to confer with a similar body from Minnesota for lower freight rates on grain and coal. It also went to the judiciary committee.

Mr. Staples presented his revised statement of the condition of the internal improvement fund, which was ordered printed.

Mr. Gunn's bill providing for bonds to build court houses was indefinitely postponed.

The committee on military affairs reported Mr. Robillard's medical corps bill favorably.

Mr. Cant introduced the committee on municipal legislation handed in a long report. Mr. Cant's bill for the adjustment of indebtedness of municipalities, amended or partially amended, was recommended to pass. Mr. Downs' bill fixing condemnation notices with the register of deeds was favorably reported.

Mr. Sutton introduced a resolution reciting the facts of the pine land investigation and authorizing a joint committee of three representatives and two senators to analyze the said report and present their conclusions to the legislature.

Mr. Staples considered the resolution as inspired by the lumbermen, but he favored such committee and a most thorough investigation. As a member of the former committee he was not inclined to investigate from start to finish.

Mr. Jacobson said the former committee had not yet fully reported, and the fact that it was being attacked showed that the lumbermen were being hurt, but he favored an investigation.

Mr. Gibbs did not believe in appointing a committee to investigate a previous committee and his motion to lay the resolution on the table was adopted.

Mr. Gibbs introduced a bill granting perpetual privileges for a state museum at the site of old Fort Snelling, and establishing such museum with Gen. E. C. Mason, T. H. Lewis, E. A. Bromley, G. B. Alton, Rev. A. Gillilan, Thomas Lowry and J. V. Brower, as first trustees. Committee on geology and natural history.

Mr. Downs, amending general laws of 1875 and 1881 relating to town insurance companies. Insurance.

Mr. Downs, for the relief of Virtue Smith, widow of David M. Smith, who died from wounds received at the battle of Birch Coulee. Military affairs.

J. D. Jones, providing for official publication of state and county ballots, in papers of opposite politics. Elections.

Mr. Dare, providing for publication of chattel mortgage foreclosure notices. Judiciary.

E. Johnson, relating to publication of insurance statements. Printing.

Mr. Feig, amending general laws of 1873 relating to duty of county school superintendents. Education.

E. E. Smith, amending laws relating to publication of delinquent tax list. Taxes and tax laws.

Mr. Dare, protecting passengers on sleeping cars, making it a misdemeanor for porters to accept compensation from passengers and requiring a safe on each car for valuables. Railroads.

Mr. Grundahl, requiring annual financial statements of towns and villages. Printing.

Mr. Lovejoy, primary election law. Elections.

Mr. Gunn, amending the law for the organization of new counties. Towns and counties.

Mr. Dressel, requiring itemized statements of election expenses from candidates. Elections.

Mr. Ferris, fixing terms of court for the Fifteenth judicial district. Courts.

Mr. Feig, amending general laws of 1876 to the examination and licensing of teachers. Education.

Mr. Mallett, amending law for incorporating villages, exempting village streets from township road provisions. Towns and counties.

Mr. Douglas, amending general laws forming drainage districts. Drainage.

Mr. Littleton, amending laws of 1878 relating to actions by executors or heirs in case of fatal accidents. Accidents.

Mr. Johns, requiring proper fire protection in buildings two stories or more in height. Fire.

## FAVORED NATION

The United States is Again Placed in the  
Most Favored Nation Column by  
Spain.

This Restores the Customs Duties Under  
Which Our Trade With Cuba Was  
Largely Increased.

American Grain Growers and Mill Owners  
Receive Another Severe Blow From  
an European Country.

Sweden Has by a Recent Royal Decree  
Greatly Increased the Import Duties  
on Grains.

WASHINGTON, Jan. 30.—The state department has been informed by United States Minister Taylor at Madrid, that the Spanish senate has passed a modus vivendi placing the United States again in the most favored nation column as to duties on imports into Cuba and Porto Rico. The bill yet remains to be signed by the queen, but it is believed that two days will suffice for completion of all formalities and that the United States will be given the advantage of the old rates immediately.

This restores the customs rates under which the United States has enjoyed a large trade in flour, breadstuffs, lard and other products with Cuba and Porto Rico.

A BLOW FROM SWEDEN.

Import Duties on Grains Are Greatly Increased.

WASHINGTON, Jan. 30.—The American grain growers and mill owners have received another severe blow from the European country, in this case Sweden, a country which is in no wise affected by our sugar differential duty.

The United States consul at Gothenburg, Mr. Boyeson, in a report to the state department, shows that by a royal ordinance the import duties on grains have been greatly increased, in cases more than 100 per cent. The rates are as follows per 100 kilos (220 pounds): Rye, wheat, barley, maize, peas, beans and other kinds not specially provided for, old rate 125 kroners, new rate 315 kroners (\$14.25); malt, old rate 250 kroners, new rate 400 (\$18.25); flour and groats, old rate 250 kroners, new rate 650 kroners (\$14.25).

BISHOP McQUAID DENIES.

Says He Has Not Been Suspended from the  
Episcopate.

ROCHESTER, Jan. 30.—A special telegram from Chicago published here stated that a private communication to a resident of that city from a vatican official contained the statement that Bishop McQuaid had been suspended from the exercise of his pastoral functions for six months, because of his recent sermon at the cathedral on the part that Archbishop Ireland, of St. Paul, had taken in the recent New York state election.

An Associated Press reporter found the bishop of Rochester at St. Bernard's seminary, where he is spending the greater part of his time this winter, being in charge of that institution. As the dispatch was read to the bishop he indignantly exclaimed: "It's a lie. This letter is only another calumny to injure me but I do not wish to enter into any controversy. My statement is sufficient."

A DRAMATIC ENDING.

The Strange Method of a Musician to End His  
Life.

CHICAGO, Jan. 30.—Professor Vago Anderson, one of the finest flutists in the world and a prominent member of the Thomas orchestra, made a dramatic ending of his somewhat eventful life last night. He called together practically all his friends and gave them a grand musical entertainment. Then he shot himself through the head.

The suicide occurred at No. 347 Elm street, where Mr. Anderson was living. One of the invited guests was Miss Francis Greigell. Anderson killed himself virtually at the feet. Many motives are assigned for the suicide. The true one seems to have been a desire to make a dramatic exit after a combination of marital troubles.

The police took charge of his effects, including a notice of Jan. 22 to appear in court to answer a bill of complaint filed by his wife in a divorce proceeding.

AFFAIRS IN NEWFOUNDLAND.

Petitions in Favor of Confederation Are Being  
Circulated.

ST. JOHN'S, N. F., Jan. 30.—Following upon the passage of the bill to whitewash the Whiteway leaders, who were disqualified for bribery and corruption, the government press is urging the passage of an act to repay them the amounts they spent in defending themselves at their trials.

Petitions in favor of confederation are being circulated. It is rumored in some quarters that the Canadian government will decline to consider the question until after the next election.

A Report Denied.

NEW YORK, Jan. 30.—It is denied at the National Bank of Commerce today that a resolution to request the clearing house to permit the bank to accept special gold accounts was adopted yesterday by the board of directors.

The Nicaragua Bill.

WASHINGTON, Jan. 30.—The house committee on interstate and foreign commerce has decided to make the senate Nicaragua canal bill a special order for Friday.

## LABOR ARBITRATION.

Various Bills Discussed by a Committee at  
Washington.

WASHINGTON, Jan. 30.—Prominent representatives of labor organizations and others interested gathered in the room of the house committee on labor today to discuss the labor arbitration bills presented by Attorney General Olney and the Chicago strike commission.

They included Labor Commissioner Barrell D. Wright, Messrs. F. P. Argent and F. W. Arnold, representing the Brotherhood of Locomotive Firemen; D. L. Case and W. G. Egan, representing the railway men; E. E. Clark, the Order of Railway Conductors; Andrew Fursuth, the Seaman's union; H. C. Yetter, a Chicago newspaper man, and Edward A. Mosely, secretary of the interstate commerce commission.

The members of the committee were late in putting in an appearance, so that it was after 11 o'clock when Chairman McGann called the meeting to order. The chairman stated that at the conference last night between the representatives of the railway employees, the commissioner of labor and members of the labor committee, the Olney bill had been amended so as to meet the views of the railway interests. The bill was then read and the amendments discussed and the reason for their adoption pointed out.

Later—The house labor committee has agreed to report favorably to the house the labor arbitration bill prepared by Attorney General Olney, as amended at the instance of the representatives of railroad employees now in the city.

THREE HUNDRED DEAD.

Steamer Elbe Sunk in Collision Off the British  
Coast and Three Hundred People  
Perished.

LONDON, Jan. 30.—The Exchange Telegraph company says that the North German Lloyd steamship Elbe has been run down off Lowestoft and sunk. Two hundred person are reported to have been drowned, and only nineteen are said to have been saved.

Later—Another dispatch says the Elbe foundered, and only nineteen persons out of 350 were saved.

Lloyd's has received the following dispatch from Lowestoft, dated 6:12 p. m.: The Elbe was sunk in the North sea after colliding with another steamer. Twenty people who were on board of her have been landed here by fishing smacks. The persons saved include the second officer and pilot. It is feared that the loss of life is great.

WILLIS CLEVELAND WINS.

Secretary Smith Gave a Decision in His Favor  
Today.

WASHINGTON, Jan. 30.—[Special to The Herald]—The secretary of the interior today rendered decisions in the following land cases from the Duluth district:

John Ostlund versus Lars G. O. Nordstrand; decision affirmed, Nordstrand's claim to be cancelled.

Willis S. Cleveland versus State of Minnesota, St. Paul & Duluth Railway company and George C. Howe et al.; motion for review denied, land awarded to Cleveland.

In re Benjamin Work; decision affirmed; applications to enter certain lands now contiguous with land already entered denied.

SUPREME COURT DECREES.

Orders of the District Courts in Three Cases  
Affirmed.

ST. PAUL, Jan. 30.—The following supreme court decisions were handed down today:

William McMullan, respondent, vs. the Dickinson company, appellant. Order affirmed.

Berlin Machine works, respondent, vs. Security Trust company, appellant. Order affirmed.

In re application of Charles Wade, et al., Charles C. Wade, respondent, vs. Anthony J. Drexel, et al., appellants. Order affirmed.

Appointments Confirmed.

ST. PAUL, Jan. 30.—The senate, in executive session, this morning confirmed all the appointments made by the governor, except those of Bernard Anderson, as state dairy and food commissioner and L. G. Bowers as labor commissioner. These were made a special order for Tuesday next.

Burned to Death.

ST. PAUL, Jan. 30.—A Bismarck, N. D., special to the Dispatch says: Peter Olson, wife and three children, living near Sterling, lost their lives by fire last night. Olson was manager of the farm of Judge Dwyer, of Dayton, Ohio.

Wisconsin Legislature.

ST. PAUL, Jan. 30.—A special to the Dispatch from Madison, Wis., says: All new business will be cut off in the senate and assembly on Feb. 12. A bill creating the office of bureau of general statistics was introduced. This is to legislate on the bill to amend the law relating to labor commissioner out of office.

Capt. Pullen Dead.

FARIBAULT, Minn., Jan. 30.—Capt. H. M. S. Pullen, son of Rev. C. M. Pullen, of Austin, Minn., and captain of Company B, Shattuck cadet corps of this city, died at the military school yesterday of pneumonia, after a short illness.

Dick O'Connor's Ambition.

ST. PAUL, Jan. 30.—It is stated this afternoon that R. T. O'Connor, ex-county clerk, is after the United States marshalship now held by William M. Campbell.

Revision of the Statutes.

ST. PAUL, Jan. 30.—At a meeting of the state bar association it was decided to present a bill to the legislature at the present session to provide for a revision of the statutes. No definite action was taken beyond this.

This is Cold.

CUMBERLAND, Wis., Jan. 30.—The mercury registered 36 degrees below zero yesterday morning.

LARGEST CIRCULATION IN DULUTH  
OFFICIAL PAPER OF CITY OF DULUTH

Entered at the postoffice at Duluth, Minn., as  
second-class mail matter.

HERALD'S CIRCULATION,  
17,148  
HIGH-WATER MARK.

A Great Newspaper.  
Philadelphia Railroad Record and  
Investor's Guide: The Duluth Evening  
Herald, one of our most enter-  
prising and valued exchanges, fairly  
pays itself recently when it issued a  
grand Christmas number, consisting  
of forty pages, with a beautiful cover  
printed in colors. Notwithstanding its  
mammoth proportions it is intensely  
interesting and instructive from the  
first page to the last. It speaks volu-  
mously for the city of Duluth, whose  
industrial resources makes it possible  
to produce a paper so replete with in-  
teresting matter pertaining to its peo-  
ple and its business enterprises, which  
as a piece of journalistic enterprise it  
surpasses anything we have yet seen  
at the head of the lakes. The Herald  
is indeed a great newspaper.

The Weather.  
U. S. WEATHER BUREAU, DULUTH, MINN.,  
Jan. 30.—The barometer is highest in Northern  
Minnesota and a cold, high pressure extends  
thence north to Eastern Manitoba, attended by  
temperatures ranging from zero, at K. K. (city),  
to 10 degrees below zero at Winnipeg.  
The area of low pressure is moving southeast  
from the Gulf of Mexico, and is attended by  
clouds and rain at Duluth and Chicago.  
Duluth temperature at 7 a. m. today, 30 de-  
grees below zero; at 10 a. m., 25 degrees below  
zero; minimum yesterday, 6 degrees below  
zero.

Forecast for Duluth and vicinity till 5 p. m. tomorrow: Fair and  
clear with a few clouds; temperature  
will be in the 20's and 30's; wind, light  
and variable; weather, clear and bright.  
Local Forecast Official.

CHICAGO, Jan. 30.—Forecast till 5 p. m. to-  
morrow: Fair and clear with a few clouds;  
temperature will be in the 20's and 30's;  
wind, light and variable; weather, clear and  
bright.

Non-Partisanship Will Triumph.  
The champions of a non-partisan mu-  
nicipal government in the Republican  
party, who are ready to advocate the  
election of Messrs. TenBroek and Voss,  
are not confined to the prominent busi-  
ness men of Duluth. The revolution  
extends far beyond them, reaching the  
employees of every industrial establish-  
ment. Wherever there is intelligence  
the necessity of non-partisanship in mu-  
nicipal affairs makes a deep impression.  
This sentiment pervades all conditions  
and classes.

The workmen are as much inter-  
ested as the merchants in having the  
city's affairs conducted on sound busi-  
ness principles. It is of as great im-  
portance to the small property owner  
as it is to the man who owns large amounts  
of real estate that the offices of com-  
ptroller and treasurer should be filled by  
honest, capable, thoroughly competent  
and experienced men. Such men are  
Messrs. TenBroek and Voss, who have  
faithfully and efficiently discharged the  
duties of their offices for several years.  
Having demonstrated that they are hon-  
est, faithful and competent officials,  
there is no valid reason why they should  
be removed to make room for politicians  
who want the office for the sake of office.

There is no political principle involved  
in this campaign. There can be none in  
a municipal election. The bosses and  
their satellites who prate about loyalty  
to the Republican party and would read  
out of the party those who refuse to obey  
their behests are dragging the Republi-  
can party in the mire. Their professed  
party loyalty is but a thin disguise to de-  
ceive the other members of the party.  
What do they care about Republican  
principles? Not a fig, so long as they  
obtain what they want, and what they  
want and what they are scheming to ob-  
tain is the offices. They want the  
"loaves and fishes" and are cracking the  
party whip, expecting that enough Republi-  
cans will be deluded into helping  
along their game.

The Herald believes that there are too  
many sincere, honest, self-respecting and  
loyal Republicans in Duluth to permit  
this scheme of the bosses and the ward-  
heelers to succeed. These Republicans  
are above all things loyal to Duluth and  
they will not lend their aid to a move-  
ment which has for its object the creation  
of a municipal political ring of the char-  
acter which has made municipal govern-  
ment in New York, Chicago, Philadelphia  
and other cities a stench in the nostrils  
of all respectable people. These political  
bosses make great professions of political  
purity, but in the most disinterested fashion  
of their pure motives and of their desire  
to advance the excellent principles of the  
party to which they belong, but those  
who have watched them closely and noted  
their course know that their profes-  
sions are honeycombed with deceit and  
that behind the mask of "party loyalty"

stands the bossism that represents the  
worst features of municipal ring rule.  
Duluth has grown and prospered under  
a non-partisan municipal government,  
and this is not the time to hand it over  
to the tender mercies of boss rule. In  
the scheme of government there should  
be no place for the machine and the  
boss. What Duluth needs is a municipal  
government conducted along busi-  
ness lines and free from the corrupting  
touch of political rings. As an earnest  
of their desire to maintain this state of  
affairs, the people, who are greater than  
the two men whom the bosses seek  
to turn out of the offices which they have  
so efficiently filled.

The City Treasurer.  
The News Tribune is not very hopeful  
of Mr. Chapman's election as city treas-  
urer. It expresses the opinion that he is  
"likely to be elected," but it is not cer-  
tain about it. The fact is that it knows  
Mr. Chapman is hardly in the race at all,  
but the political bosses have directed it  
to say something in his favor and it  
meekly, but half-heartedly, complies.  
There is not one reasonable argument  
advanced why Mr. Voss should be de-  
posed to give Mr. Chapman an office.  
Mr. Voss has been a faithful, honest and  
efficient official. The condition of the  
treasurer's office testifies to his ability  
and integrity. The city's accounts are  
in excellent shape, and not one dollar of  
the city's funds has been lost through  
any error committed by Treasurer Voss.  
It is generally conceded that he is a  
model official and that the city has been  
fortunate in having the treasurer's office  
in such capable hands.

This being the case, there is no valid  
cause for setting aside Mr. Voss in order  
that Mr. Chapman may secure a job.  
On the other hand, there are scores of  
excellent reasons why Mr. Voss should  
be retained. A private corporation does  
not remove its treasurer because he has  
held the office for a long time; if he has  
been an honest and thoroughly compe-  
tent officer, it retains his service. This  
sound business policy should be followed  
in the case of city officials. That it will  
be followed in the case of Treasurer  
Voss, The Herald is confident. The sen-  
timent in favor of his re-election is very  
strong, and he will be an easy winner,  
despite the efforts of the political bosses  
to defeat him.

A Meritorious Measure.  
Senator Ozmun of Ramsey county has  
introduced a bill providing for the nom-  
ination of city and county officers by a  
primary ballot without the customary  
nominating conventions. Nominations  
are to be made by certificate of nomina-  
tion as follows: The certificate of nomina-  
tion shall be signed by electors resid-  
ing within the district from which the  
candidate is presented to a number  
equal to ten per cent of the entire vote  
cast at the last preceding election in the  
county, city, or other political division  
from which the nomination is made, pro-  
vided, however, that in any case the  
number of the signatures required shall  
not exceed 500.

The certificate of nomination shall con-  
tain: First, the name of the person  
nominated; second, the office for which  
he was nominated; third, the party or  
political principle which he represents  
(expressed in not more than three words);  
fourth, his place of residence, with street  
and number if any; fifth, an oath which  
each signer is made to take that he is a  
qualified elector under the laws and has  
affiliated with the party two years; sixth,  
the name of each signer with his resi-  
dence; seventh, the formal acceptance  
of the nomination by the nominee.

The bill also provides for the expres-  
sion by the voter of a first and a second  
choice, so that in case any nominee does  
not receive a majority of votes cast as

16 Boils at Once  
Hood's Sarsaparilla Purifies the  
Blood and Restores Health.

Mr. F. W. Stowell  
Wilmet, S. Dak.  
"About four years ago my wife was trouble  
d with skin eruptions. Although she tried  
everything it got worse instead of better  
and spread over both of her hands so that she  
could hardly handle them. Finally she com-  
menced using Hood's Sarsaparilla and when she  
had used four bottles her hands were entirely  
restored and she has since been free from  
trouble. In December, 1902, my neck was  
covered with boils and it was  
Scrofulous Nature.  
There were sixteen of them at once and as soon  
as they healed others would break out. My  
neck finally became covered with ridges and  
Hood's Sarsaparilla Cures  
years. I then commenced taking Hood's Sarsa-  
parilla, and after taking four bottles the boils  
had all healed and the neck was restored.  
I recommend Hood's Sarsaparilla to all suf-  
fering from any disorder of the blood." F. W.  
Stowell, Wilmet, South Dakota.  
Hood's Pills act easily, yet promptly and  
efficiently, on the liver and bowels. 25c.

the other day, was the last of the

And so the paranoia plea is to be  
made in defense of Harry Hayward.

No Cause For Alarm.  
Le Figaro: Lady (to her husband)—  
"I am growing so fat that I am beginning  
to feel quite alarmed about it. I have  
just discovered that I weigh 240 pounds."  
"Two hundred and forty pounds? And  
where did you get weighed?"  
"On the butcher's scales."

A Non-Partisan Judiciary.  
Appleton Post (Rep.): We take it  
that the state will have ample reward  
for the large Republican plurality that it  
gave last November. In the services of  
the officials then chosen, whose function  
it will be to administer the political af-  
fairs of the commonwealth. Should the  
Republican party now endeavor to make  
this plurality available for the election  
of an undisputed partisan to our high-  
est court, we think it would find that this  
plurality would speedily melt away, at  
least as to that proposition. The people  
of Wisconsin have become habituated to  
different methods in the selection of  
their judiciary. Experience has amply  
vindicated their wisdom, and they will  
not depart from this course at the behest  
of any party.

Burdens of a Candidate.  
Louisville Courier-Journal: Mr. Reed's  
prominence as a possible candidate for  
the presidency has stimulated his re-  
spondence to a point where it has be-  
come a burden. He receives hundreds  
of letters every day, most of them assur-  
ing him of success, and it takes the  
greater part of his time to attend to  
them. It robs him all leisure and pre-  
vents him from giving much attention to  
his congressional duties.

Mr. Cleveland's Exercise.  
Chicago Record: The only exercise  
President Cleveland gets is an hour's  
rubbing by a masseur, who comes to the  
White House at 7:30 o'clock every morn-  
ing. He received similar treatment last  
summer before he went to Gray Gables,  
but it was not resumed this winter until  
he came down with the gout. Then by  
the advice of Dr. O'Reilly the "professor"  
was sent for again and reduced the presi-  
dent's weight forty-two pounds within  
three weeks.

The Old Time Chimney Corner.  
Talk about your building's  
That's hot up by chimney.  
Give me the old time  
The old folks used to dream.  
That was roasting their me.  
The dog on one side drawin'.  
Or barkin' his door.  
The kitchen cap'n cap'n.  
With the knittin' on the floor.  
An' me, a little too head.  
By mummy's side at night.  
With my eye on 'a' burnin'.  
From the red lamp lightin' bright.  
Those steam hat holdin' make me  
Just weary for the moon.  
That was heap more comfortable  
In my childhood's nights and days.  
An' I'd give the finest heater  
In the buildin' for my steam.  
For the old time chimney corner.  
Where the old folks used to dream.  
—Frank L. Stanton in the Atlanta Constitution.

The Man of Destiny.  
Chicago Tribune: "But sure," urged  
Marshall Murat, "if you take this step  
and it turns out disastrously for France  
it can be your way in vindication of your  
self?"  
"My vindication," said Napoleon  
sternly, "can safely be left with the  
American newspapers of 1894-95."

NOTICE OF MORTGAGE SALE.  
Default has been made in the conditions of  
a certain mortgage containing a power of sale,  
duly executed and delivered by Spudgate In-  
vestment Company, mortgagee, to American  
Loan and Trust Company, mortgagee, dated  
May 15th, 1894, and duly recorded in the  
office of said mortgagee in and for St. Louis  
County, Minnesota, on July 15th, 1894, at 10  
o'clock a. m., in Book 8 of mortgages, to-  
wit: American Loan and Trust Company to  
William E. Lucas, by deed of George E. Long,  
dated July 15th, 1894, at 10 o'clock a. m., in  
Book 8 of mortgages, on page 164.

And whereas, said default consists in the non-  
payment of two hundred and forty dollars  
interest due in three installments of \$80 dollars,  
each on November 15th, 1893, and May 15th and  
November 15th, 1894, respectively, the holder of said mort-  
gage has exercised the option to declare the  
entire debt secured by said mortgage to be now  
due and payable as provided by the terms of  
said mortgage, and has been duly notified by  
said mortgagee to do so on the date of this  
notice.

And whereas, no action or proceeding at law  
or otherwise has been instituted to recover the  
debt secured by said mortgage or any part  
thereof.

Now, therefore, notice is hereby given that by  
virtue of said power of sale and pursuant to the  
statute in such case made and provided, the  
said mortgage will be foreclosed by a sale of  
the premises therein described and situate in  
St. Louis County, Minnesota, to-wit: Lots  
number one hundred sixty-one and one hundred  
sixty-two in the third number one hundred in  
Duluth Proper, Third Division, according to the  
recorded plat thereof, which premises will be  
sold by the sheriff of said St. Louis County,  
Minnesota, at the front door of the court house  
in said county, in the city of Duluth, in said  
county and state, on Thursday, the 25th day  
of February, 1895, at 10 o'clock in the forenoon  
at public auction, to the highest bidder for cash,  
to pay said debt and interest, together with  
seventy-five dollars attorney's fee, stipulated in  
said mortgage to be paid in case of foreclosure,  
and the disbursements allowed by law, subject  
to redemption at any time within one year from  
date of sale as by law provided.

Dated January 30th, 1895.

## NEW GOVERNOR.

Governor Nelson Resigned Today, and Lieutenant Governor Clough Was Sworn In by Judge Start.

Both Houses of the Legislature Took a Recess to Extend Congratulations to Governor Clough.

Senate Bill for an Interstate Commission on the Russian Thistle Passed by the House.

A Favorable Report Was Made by the House Committee on the Capitol Amendment Bill.

ST. PAUL, Jan. 31.—When the state senate met today two important executive communications were read immediately after the reading of the journal. The first was Governor Knute Nelson's formal resignation, addressed to Lieutenant Governor David M. Clough, and the second, addressed to the senate, notified that body that in view of his election to be United States senator he had sent his resignation as governor to the lieutenant governor. Lieutenant Governor Clough then arose and said: "Gentlemen: Before retiring as lieutenant governor I want to thank every senator and every member of the house of representatives and every man in the state of Minnesota, for all their favors in the past. Gentlemen, when I say 'my friends' I look on you all as my friends. I am a friend to you all, notwithstanding any statements that have been made in some of the papers of late. I am not going to the governor's office with a view of punishing my enemies—not at all. I intend to do what is right by all and what is for the best interests of the state, regardless of friends or foes, and I think I ought to know what is right. "Unfortunately I never graduated from the state university. I graduated from the farm and from the forest. Gentlemen, there are many laboring men there today who are perfectly capable of being governor of this state. I want never to know if I have been one and always expect to be. Thank God, I was blessed with two hands that have been willing to do their part. Gentlemen, before leaving you I want to say, in my judgment, you have elected a first class presiding officer, capable of presiding over this body which is a very honorable position. It is a greater honor in my opinion than to take the governor's chair. "If there is anything in my power that I can do for you I shall be happy to do it at any and all times. Gentlemen, I thank you."

President Day was then called to the chair and Senator Yale, of Winona, said he thought the senate ought to take some action. The governor had just said farewell and the lieutenant governor had become governor and they ought at this time to take proper notice of the event. He therefore moved that thirty minutes be taken to extend congratulations to the retiring and incoming governors. After Chief Justice Charles M. Clark had formally sworn in David M. Clough as governor, a recess was taken and a reception was held in the governor's office. The representatives also taking a recess and joining in the congratulations to ex-Governor Nelson and Governor Clough.

After the recess Senator Hodge offered and the senate adopted a resolution tendering an expression of appreciation to Lieutenant Governor Clough, moving to take the senate into session. The resolution was adopted by a vote of 18 to 1. The senate then passed under suspension of the rules, the senate bill amending the union label law, making it more stringent, was also passed under suspension of the rules. The following bills were introduced:

Mr. Lloyd, to authorize the construction of a free pontoon wagon bridge across the Minnesota river in the county of Le Sueur. Roads and bridges.

Mr. Wyman, to amend general laws of 1893, providing for protection of employees. Public health.

Mr. Keller, in relation to the manufacture and sale of baking powder to prevent fraud and preserve the public health. Public health.

Mr. Howard, to amend the penal code, relating to the employment of minors around saloons, etc. Judiciary.

Mr. Keller, requiring registers of deeds to report on lands acquired, held or sold by certain corporations. Senators Keller, Roverud and Collier.

Mr. Young, to amend section 105, chapter 66, general statutes of 1878. Judiciary.

Mr. Spencer, relating to the soldiers' relief fund. Soldiers' home.

Mr. Patterson, to amend general laws of 1893, relating to the hospitals for the insane. Hospitals for the insane.

Mr. Roverud, to legalize laid-out highways. Roads and bridges.

Mr. Hanson, to establish a state normal school at Litchfield. Normal schools.

Mr. Culkin, to amend penal code, relating to sale of intoxicating personal property. Judiciary.

Mr. Wing, to regulate the whistling of traction engines. Roads and bridges.

Mr. Miller, to authorize the use of waters of meandered streams for protection of cranberry marshes. Agriculture.

Mr. Young, to amend general statutes of 1878 relating to attorneys. Judiciary.

Mr. Thorpe, a joint resolution calling on congress to pass a bankruptcy bill. Passed under suspension of rules by a vote of 47 to 1.

Mr. Ozman, to provide for organization of cities. Municipal corporations.

## ELBE DISASTER.

The Horrible Details of the Loss of the North German Lloyd Steamship Elbe Related.

As Far as Can Be Ascertained, 374 of the Passengers and Crew Are Missing.

It is Now Positively Known that the Crathie Was the Vessel That Struck the Elbe.

After the Collision the Crathie Returned to the Spot But Could Not See Anything.

LOWESTOFT, Eng., Jan. 31.—The horrible details of the loss of the North German Lloyd steamship, Elbe, and her human freight are being discussed here by crowds of people gathered at different places where the survivors remain, although a regular blizzard is blowing and the bitterly cold weather prevailing and the lack of news from any point along the coast shows that there is little if any hope of any other survivors of the disaster reaching land.

A lifeboat supposed to have belonged to the Elbe has been washed ashore near Yarmouth. In the boat were a number of life belts and oars and it is believed to be the boat from which the fishing smack Wildflower rescued the few persons who escaped from the steamer after the collision of yesterday morning.

Everybody here is asking his neighbor the same question—"How did it occur?" and nobody seems able to give a satisfactory answer.

A handful of the survivors who were clustered around a hotel fire this morning expressed their surprise at the details of the still unknown ship which rammed and sank the Elbe. They all claim that she should have stood by the Elbe and that if she had done so a great many lives would have been saved. This, of course, is a matter which cannot be decided until all the facts in the case are brought to light by the court of inquiry which will enquire into the matter.

The agents of the North German Lloyd company have been in constant communication with the German vice consul, who has been upon the spot ever since a short time after the disaster occurred. It is not yet definitely established that the Crathie was the offending steamer. There are several interesting points in this distressing story which will be explained before all the facts in the case will become generally known.

For instance, there are people who believe that the second steamer may have foundered. They base their opinions on the fact that the Ramsgate lifeboat put to sea yesterday evening in answer to signals of distress supposed to have come from a steamer. But the lifeboat has not returned, and as she got away in a blinding snow storm it is believed that she is lost and that the steamer she attempted to assist also went down.

Then, again, the word "Azonia" is branded on the oars of the boat stranded near Lowestoft, so people say that it could not be the boat from which the Wildflower rescued the survivors of the Elbe. The name of "Azonia" is not known in shipping circles here.

The German vice consul and the agent of the North German Lloyd company have caused all the details of the loss of the Elbe to be furnished to anybody until they appear before the court of inquiry, and as the men are strictly obeying these directions, very little can be gathered except from the passengers who, of course, are not posted on maritime rules and regulations and are therefore unable to furnish the facts which might enable the mystery of the sinking of the Elbe to be cleared up as promptly as most people wish.

It seems, however, that neither of the two pilots was on the bridge of the Elbe at the time of the collision. The Weser in German pilot ceased his duty when the Elbe cleared from the Weser, and the turn of duty of the Trinity or English pilot did not commence until the steamship entered the waters of the life of Wight, and the surviving officers of the Elbe refuse to say who was in charge of that steamer when the collision occurred but it is supposed to have been Third Officer Stollberg, who was one of the survivors.

Stollberg is understood to have asserted that the steamship which sank the Elbe was out of her course, and he is said to have admitted that he saw a green light on the port bow of the Elbe shortly before the collision occurred. He described the third lifeboat lowered and which it is still thought may have escaped, to be about twenty feet long. She cleared the Elbe all right and a number of people inside of her. Stollberg, however, does not believe it possible for her to have lived for any length of time in the heavy sea which was running at the time of the accident.

Chief Engineer Neussel says that the stem of the unknown ship struck the Elbe about 150 feet forward of the rudder or just abaft the engine room. The engines were not damaged by the collision but the water soon poured in, and although the steam pumps were put to work in about three minutes time it became useless and the engine room was soon deserted for the upper deck.

Later in the day at the request of the North German Lloyd company, Greenham the Trinity pilot, made the following statement:

"When I came on deck with some of the passengers, Capt. von Gossel was in charge. The first order given was to swing the boats out but not to lower them until further orders. The next

U. S. WEATHER BUREAU, DULUTH, MINN.,  
Jan. 31.—A depression of low pressure has  
moved east from the Canadian North-west,  
and from Montana, and is now over the  
Great Lakes. There has been a decided rise in tempera-  
ture during the last twenty-four hours in the  
western part of the lake region and the lower  
Missouri. Upper Missouri and Red River val-  
leys, but the thermometer is below normal this  
morning in all reporting districts.  
A cold wave has advanced over the region  
north of Montana, and the temperature ranges  
from 10 to 20 degrees below zero throughout the  
Canadian Northwest.  
Duluth temperature at 7 a. m. today, 2 de-  
grees below zero; maximum yesterday, 4 degrees  
above zero; minimum yesterday, 20 degrees be-  
low zero; snowfall, melted, 0.1 inch.

Duluth, Jan. 31.—Forecast for Duluth and  
vicinity till 8 p. m. tomorrow: Fair; much  
colder tonight and Friday; brisk to high north-  
west winds.

JAMES KREIDL,  
Local Forecast Official.

Chicago, Jan. 31.—Forecast till 8 p. m. to-  
morrow, for Wisconsin: Local snows today;  
fair and decidedly colder tonight and Friday;  
with cold waves in west half; northwest winds.  
For Minnesota: Decidedly colder with cold  
waves in southeast portion tonight; Friday fair  
with colder in extreme southeast portion;  
northwest winds.

Incumbent Not Wanted.

The state weighmaster's department  
has been induced to declare that Mr.  
Hopkins is a perfect mathematical won-  
der and that he is fully competent to fill  
the position of city comptroller. This  
does not agree with the stories which  
men in this department told before the  
party whip was snapped. Wonderful  
stories are now related of Mr. Hopkins  
weighing cargoes, going from one scale  
to another along the full length of the  
house, recording each draft and making  
footings, while at the same time he was  
receiving calls and taking their weight  
and reducing it to bushels.

The Herald has information about Mr.  
Hopkins' work at the elevators which  
leads to the conclusion that the above  
stories are fairy tales concocted to bol-  
ster him up in his present campaign for  
an office for which he is totally unfitted.  
It is stated on excellent authority that  
when Mr. Hopkins came here from  
Crookston and began work as a weigh-  
man he could not perform a simple sum  
in division with any certainty of accu-  
racy, and that he was compelled then and  
for a long time subsequently to get other  
men in the department to prepare his  
returns to the chief weighmaster. Time  
and again the loading of vessels with  
grain from the elevators where Mr.  
Hopkins was stationed has been delayed  
by his inability to perform the work of  
weighing with sufficient celerity, his  
slowness in calculating the weight and  
making footings being very noticeable.

There is good authority for saying  
that Mr. Hopkins has not the slightest  
idea of bookkeeping; that he could not  
take personal charge of the books in the  
comptroller's office without getting them  
into a hopelessly involved condition.  
Indeed his friends have never heretofore  
made any claims that he could handle  
the comptroller's work personally. He  
will get a good deputy, they say, and the  
work will be performed by him. They  
evidently forget that the work in the  
comptroller's office now requires the  
services of two good accountants in  
addition to Mr. Ten Brook, who takes  
personal charge of the whole work and  
performs much of it. Mr. Hopkins,  
being incompetent, would require an-  
other first-class man, and this would  
mean another salary to be paid by the  
city.

The city cannot afford to place an in-  
competent man in the position of com-  
ptroller. The duties of the office are so  
important, and the danger of serious loss  
to the city by the commission of errors is  
so great, that it would be the height of  
folly to elect such a man as Mr. Hop-  
kins. Let him stick to his grain-weigh-  
ing work. He has still much to learn  
about it if reports are correct. Mr. Ten  
Brook has proven a thoroughly com-  
petent comptroller. His natural qualifica-  
tions for the office and the valuable ex-  
perience he has gained since he took charge  
of the office make it advisable that he  
should be re-elected, and unless the usual  
indications are such as may, Mr. Ten  
Brook will be returned by an overwhelm-  
ing majority on Tuesday next.

William C. Cornwell, president of the  
New York State Bar association, has  
written an article for the February  
Forum entitled "Should the Government  
Retire from Banking?" in which he de-  
clares that the currency troubles in the  
United States are due to the govern-  
ment's assumption of the prerogative,  
rightly belonging to banks, of issuing  
notes for circulation; and he explains why  
this function should naturally be left to  
the banks. In the same number Alfred  
S. Heidelberg explains "Why Gold is

Exported." The principal reasons he  
gives for the constant drain of gold from  
this country are: Disgrace of foreign in-  
vestors because of recent developments  
in our railroad management; dismay at  
the condition of the treasury and our cur-  
rency, and the fear that if they invest  
money here, they may not be able to get  
back as good money as they gave. He  
says that no change in this state of af-  
fairs may be expected until the govern-  
ment goes out of the banking business  
and we have a more elastic currency.

Produce the Proofs.  
Replying to a statement by The Her-  
ald that Senator Washburn was defeated  
before Governor Nelson entered the field,  
the Minneapolis Tribune says: "Wash-  
burn's defeat is of no consequence, but  
Nelson's election by bribery and corrup-  
tion, and as the reward of tergiversation,  
is a very serious matter. The endorse-  
ment of Nelson's conduct and methods  
by the press and people of the state  
would be a sad indication of moral pa-  
ralysis in the commonwealth."

The Tribune has several times since  
the senatorial election talked of Gov-  
ernor Nelson securing the senatorial pri-  
ority by the aid of bribery and corruption.  
It is time to call upon this Minneapolis  
head for his proofs. It is a serious  
charge to make, and having made it the  
Tribune should be prepared to prove it  
or retract the charge. Let us have  
names, dates, amounts and all the other  
details. The Tribune says there  
was bribery and corruption, but it  
does not credit the production of  
proofs. Bring on your proofs, Mr. Tri-  
bune, or confess that you lied.

It was claimed at one time that the  
governor was using the state patronage  
to aid his senatorial aspirations and that  
members were being induced to vote for  
him by the promise of offices for friends.  
When the appointments were announced  
it was seen that this charge was un-  
founded. Nearly all the old officials  
have been reappointed. This fact has  
swept away the foundation of the patronage  
charge. And the bribery and corrup-  
tion charge made by the Minneapolis  
paper is equally false and malicious.

In the last edition of "The American  
Commonwealth," by James Bryce, who  
enjoys the distinction of having written  
the best work on government in the  
United States yet written, the following  
appears: "Party spirit is still permitted  
to dominate and pervert municipal poli-  
tics. Yet the mischief it does is more  
clearly discerned and the number of  
those who resist it is daily increasing.  
In the increase of that number and the  
growth of the stronger sense of civic duty  
rather than in any changes of mechanism  
lies the ultimate hope for the reform of  
city governments."

The New York board of education is  
doing a good work in prosecuting those  
who sell cigarettes to scholars. It  
should be well for our rising youth if  
something were done to check the pre-  
sent very general school-boy cigarette  
habit. There is room for improvement  
in Duluth in this respect. Too many  
young boys are seen with deadly cigar-  
ettes in their mouths.

A curious law suit for \$5000 is about  
to be brought in New Jersey. An old  
sufferer from asthma, John R. Havens,  
could not stand his sufferings while on a  
train of the Northern railroad, and going  
to the retiring closet lighted a cigarette  
for relief. The conductor, declaring he  
was smoking, dragged him out and left  
him alone to his terrible cough in the  
car.

The political bosses are shouting with  
glee that some of the "old Republican  
warhorses" have called at their head-  
quarters and promised their aid. Yet  
only a few months ago the bosses that  
are now running things were denouncing  
the same "old warhorses" with all the  
wealth of virulent language at their com-  
mand.

The city officers must be kept out of  
the hands of the political bosses. The  
manner in which party spirit has per-  
verted municipal politics in other cities  
is a strong reason why Duluth should  
steer clear of the same evil. Vote for  
Ten Brook, Voss, Dibell and Hunt and  
crush the ringsters.

Every man who desires to have the  
judiciary kept out of politics should vote  
for Messrs. Dibell and Hunt, who are  
the non-partisan candidates. They were  
selected by the Bar association because  
of their fitness and not because of their  
politics.

A Denver woman has gone crazy "be-  
cause Grover Cleveland is worshipping  
her." Is it any wonder that the rest of  
the people are tending in the same  
direction?

The New York legislature has adopted  
a law that no foreign flag shall ever be  
floated on a public building in the state.  
A similar law should be passed in every  
state.

The fact that it costs less to land a ton  
of beef in London from America than  
from Scotland is a great tribute to the  
fairness of ocean freight charges.

There is a faint hope now that con-  
gress may agree upon a financial meas-  
ure that will relieve the present tension.

for the round trip from Duluth to Win-  
nipeg, leaving Duluth Feb. 9, for the  
Winnipeg hospital, commencing Feb. 11.  
Special sleepers will be run to ac-  
commodate Duluth curiers and their  
friends.

Yes, 'tis true:  
Foley's Honey and Tar  
Is the best cough medicine  
Max Wirth.

Friends in Time of Need.  
St. Paul Pioneer Press: Corporations  
have no soul, it is said, but they are  
frequently generous. The Milwaukee  
and Northwestern Railroad companies  
are now paying their annual taxes to  
South Dakota, although they are not due  
until March, in order to replenish the  
treasury cleaned out by Taylor.

Good Thing, Push It Along.  
Kansas City Star: Investigations of  
municipal government have been becom-  
ing things all over the country, but, un-  
like most facts, they will unquestionably  
do a great amount of good. There can-  
not be too much light thrown upon the  
dark places in the cities of this country.

More Scared Than Hurt.  
Philadelphia Record: Latter-day  
medicine has been responsible for two  
prevalent public scares—the germ fright  
and the appendicitis apprehension. It is  
consoling to remember at times in this  
bacteriological age that the vast major-  
ity of bacilli are not harmful; and it is  
with a new sense of solace that one at last  
learns from the physicians that appendi-  
citis is not such a dread curse of man-  
kind. The fact is that appendicitis oc-  
curs very rarely, and that the percentage  
of people who eat grapes, berries and  
fruit with seeds in them and are caught  
is insignificantly small. Nor, when  
caught, is it necessary—it now seems—  
to resort to a serious operation. Salva-  
tion appears to be contained in such a  
simple remedy as sweet oil—one to two  
ounces, administered internally every  
three hours. The doctors are evidently  
not going to succeed in killing us all  
after all.

Two Lives Saved.  
Mrs. Phoebe Thomas, of Junction City,  
Ill., was told by her doctors she had con-  
sumption and that there was no hope for  
her, but two bottles Dr. King's New  
Discovery completely cured her, and she  
says it saved her life. Thomas Eggers,  
139 Florida street, San Francisco, suf-  
fered from a dreadful cold, approaching  
consumption, tried without result every  
thing else, then bought one bottle of Dr.  
King's New Discovery and in two weeks  
was cured. He is naturally thankful. It  
is such results, of which there are  
samples, that prove the wonderful effi-  
cacy of this medicine in coughs and  
colds. Free trial bottle at Max Wirth's  
drug store. Regular size, 50 cent and \$1.

Sooper.  
The Northern Pacific advertise one  
fare for the round trip from Duluth to  
Winnipeg on account of the Winnipeg  
hospital, leaving Duluth Feb. 9. Large  
party of curiers and their friends will  
avail themselves of this opportunity.

**MORTGAGE FORECLOSURE SALE.**  
Default having been made in the payment of  
the sum of three hundred and fifty-two dol-  
lars and ninety-three cents (\$352.93), which is  
claimed to be due and is due at the date of this  
notice upon a certain mortgage duly executed  
and delivered by Robert E. Macfarlane, of St.  
Louis County, Minn., mortgagee, to M. S.  
Phibbs, of Duluth, Minn., mortgagor, on the 1st  
day of March, 1894, and a power of sale there-  
in contained, and recorded in the office of the  
register of deeds and for the county of St. Louis  
and state of Minnesota, on the 14th day of March,  
1894, at 10 o'clock a. m., in Book 125 of mor-  
gages, on page 32, and wherein said default con-  
sists in the non-payment of the sum of one hundred and  
twenty-nine cents and accrued interest to  
date, now due and unpaid.  
And whereas, said default is a default in one  
of the conditions of said mortgage whereby it  
has become optional with the holder of said  
mortgage and the note secured thereby by the  
terms thereof, to declare the whole debt secured  
by said mortgage to be immediately due and  
payable, in the exercise of which option the  
holder of said mortgage has elected to do so, and  
wherein said mortgage has been and is hereby  
declared to be due thereon, and is due, owing and  
unpaid, amounting to the aforesaid sum of one hundred and  
twenty-nine cents and accrued interest to date,  
at the date of this notice.  
Now, therefore, notice is hereby given, that  
by virtue of the power of sale contained in  
said mortgage, and pursuant to the  
statute in such case made and provided,  
the said mortgage will be foreclosed, by the  
sale of the premises described in and con-  
veyed by said mortgage, viz: The lot numbered  
10 (1) to sixteen (16) inclusive of Macfarlane's  
rearrangement of block twenty-four (24), of  
Hunters' Grassy Field. Addition to Duluth  
City and state of Minnesota, which sale will be  
made by the sheriff of said St. Louis County,  
in and for the county of St. Louis, in the  
city of Duluth, in said county and state, on  
the 14th day of February, 1895, at 10 o'clock  
a. m., at public vendue to the highest  
bidder, for cash, to pay said debt and  
interest, and the taxes (if any), on said premises,  
and five (5) per cent. attorney's fees, as ad-  
vanced in and by said mortgage in case of  
foreclosure, and the balance of the moneys  
allowed by law; subject to redemption at any time  
within one year from the day of sale, as pro-  
vided by law.  
Dated December 19th, A. D. 1894.  
M. S. PHIBBS,  
Mortgagee.

### FORMALLY ORGANIZED.

Duluth Civic Association Now in Existence and Officers Elected.

At a meeting in the parlors of the Congregational church last night the Duluth Civic Association, the object of which is the discussion of municipal government with special reference to local matters, was organized with the following officers: P. D. Ensign, president; Mrs. Susan Flans, secretary; W. S. Woodbridge, treasurer; L. D. Hopkins, S. D. Allen, L. D. Scott, E. R. Cobb and Mrs. Ida Thompson. The next meeting will be held Feb. 13 in the Congregational church parlors.

It is in no sense intended to be an association which will attempt to reform any evils supposed to be existing in local municipal affairs, but will simply discuss questions concerning the municipal government of cities.

### TO PLAY FOR A SUPPER.

Big Curling Contest on Saturday at the Glen Avon Rink.

Saturday afternoon and evening at Glen Avon the largest curling contest of the season will be played between two sides chosen by the president, E. P. Towne, and the vice president, W. P. Lardner. There will be five rinks on a side, and the losing side must pay for a supper which will be served between the play of the afternoon and evening. Following are the skip: President's side, R. J. MacLeod, Ron Smith, L. P. Hall, C. B. Woodruff and J. C. Hunter; vice president's side, Harry Hurdon, S. F. Fullerton, R. E. MacFarlane, E. S. Palmer and John MacLeod.

## Money

To those who believe the bids for the city's 4 percent bonds indicate great faith in Duluth's future, I would say, that the present is an extremely good time to get in line to make some money. If you own no property, buy some—if your judgment is good it will pay you to borrow the money to buy with. There never were so many bargains available as there are today.

### KEEP YOUR PROPERTY INSURED.

I write fire insurance in good, reliable companies; I have some property for sale at much less than its present value and my correspondents write me that they will honor my drafts for any good mortgage loan. If you want to save what you now have, or get more, find out what I can do for you.

Chamber of Commerce Passed a Resolution Approving of the Financial Course Recommended By the President.

Discussion Was Very Warm and C. E. Lovett Hotly Opposed the Adoption of the Resolution.

Motion to Postpone Consideration For Another Week Was Voted Down—Little Else Was Done.

At the chamber of commerce yesterday G. A. Leland introduced the following resolution: "Resolved, that it is the sense of this chamber that the proposition of the president of the United States, as embodied in his recent message to congress, authorizing the secretary of the treasury to sell sufficient long time gold bonds to protect the credit of the nation, meets our hearty approval, and we earnestly urge upon our senators and representatives in congress to unite in the immediate passage of a bill in conformity with said message."

Then began a discussion which continued for a long time and was rather less heated. M. O. Hall seconded the motion to adopt the resolution. Col. Harris came in a few moments later and presented a resolution providing for the same action.

Mr. Leland supported the resolution. He referred to the manner in which the gold is being drawn out of the country and thought the action recommended by the president would remedy this. He thought a sale of bonds would result in bringing the gold back and force the foreign powers to bring about an international monetary conference.

J. H. Baker introduced an amendment postponing discussion for one week. C. E. Lovett seconded this.

M. O. Hall said twenty-six bank presidents in Chicago had endorsed the president's ideas and he thought this sufficient to show that the plan would result in much good.

Mr. Wheeler favored moderate action and A. J. Higgins thought the chamber should go a little slow and not act for a week.

Col. Harris said this was a matter in which people must rise above partisanship. He had never admired Grover Cleveland and condemned his political methods, but would nevertheless support him in the credit of trying to save the nation and prosperity of the country. "The government should go out of the banking business and in this crisis immediate action should be taken," he said.

C. E. Lovett was hotly opposed to the president's idea and made a speech which was at times rather partisan. He opposed any increase of the national debt in times of profound peace. "President Cleveland proposes to allow the debt to grow and we must ask why, it is a proposition nothing short of monstrous," he said.

Henry C. Spalding answered this and made the clearest and most intelligent speech of the evening. "The president's idea is desirable to pay it," he said. "The chamber will satisfy itself if it adopts that resolution," he said. "Let the thing alone. Congress can deal with the question and ought to."

The president's idea and made a speech which was at times rather partisan. He opposed any increase of the national debt in times of profound peace. "President Cleveland proposes to allow the debt to grow and we must ask why, it is a proposition nothing short of monstrous," he said.

### A COMPLETE SUCCESS.

The Memorial Concert at the Temple for Miss Mackey Last Evening.

The memorial concert for the late Miss Helen Mackey was attended by a large audience at the Temple last evening. The concert was arranged by Miss Mackey, who was so closely associated with the musical work during the past two years. Nearly all who took part were friends of Miss Mackey. The entire program was excellent and artistic.

A trio in C minor from Beethoven was played by Mrs. Emil Schmidt, pianist, Claude Madden, violinist, and Fritz Schlachter, cellist. It was a classical number and was rendered with an artistic finish and correctness of execution only possible with the most skilled performers. Later on the same trio gave a number from Schubert. It also was a classical number and was rendered with the same excellence.

The Arion quartet sang "The Long Day Closes," by Sullivan, and received an encore. They also sang a closing number, Dudley Buck's "Good Night." With each appearance the Arion quartet grows more popular. Their singing has been a source of pleasure to the many who are often employed by quartets. They show a thorough appreciation of true music and never depart from their high standard. Their voices are in complete harmony, and the manner in which they sing shows careful training and study.

Fritz Schuchowicz of Minneapolis gave a cello solo of two numbers, Gounod's "Canticle" and Moszkowski's "Guitarre." He is an accomplished performer and his playing was very good. Claude Madden, of Minneapolis, gave a violin solo, "Adagio Patetique," from Gounod. Mr. Madden has played here once or twice before and has been well received by the audience. He has excellent ability and exhibits a thorough mastery of his instrument.

Nicholas Murphy sang the "Toreador" song from "Carmen," an operatic selection. Mr. Murphy's voice is developing wonderfully and is fast acquiring a high degree of artistic finish. He was given great applause and an encore number was wanted but was not given. In connection with Mr. Murphy's solo, Miss La Burtie Shepard, a German selection, was complimented. She played with a dash and enthusiasm which added everything to the singing for fire and spirit.

Miss Mackey was given generous applause for her appearance. She sang "Fragaria," a German selection admirably adapted to her voice. She was given a fine encore and in response to the applause she sang "The Ave Marie" from "Cavalleria Rusticana," with an obligato by Claude Madden and Fritz Schlachter.

The "Credo" from Gounod's Italian mass was sung by a chorus under the direction of George Tyler. It was a grand number and was received with great favor. The solos were taken by Miss Mackey, Mrs. Aspinwall, Miss Kelly, George Tyler, Arthur Leiby and N. S. Murphy.

## STRAIGHT TO THE POINT.

Words That Cut Like Blades of Steel.

A Power Which Nothing Living Can Resist.

Men and Women Bow Before It in Silent Awe and Admiration.

Many persons ordinarily of strong judgment will feel their conscience smite them when they think what they might have been, had they but taken the advice of those who know from experience.

Mrs. Florence Taylor, of 4 Courtland place, Bridgeport, Conn., speaks straight to the point when she tells of the frightful sufferings she has endured and how she was saved by the wonderful action of Dr. Greene's Nervura blood and nerve remedy. Read the following letter written with an overflowing heart and a pen that can honestly proclaim miracles.

"For four years I had been troubled with nervous debility and hysteria in a most aggravated form, causing sleeplessness and mental depression. At one time I feared blood poisoning. For months was confined to my bed. My constitution was so weak that I totally lost my appetite. Doctors, of whom I had many, failed to give me any relief. Last September I was advised by Dr. Greene's Nervura blood and nerve remedy.

"After taking six bottles of Dr. Greene's Nervura blood and nerve remedy, I feel like a new man. I did so, and the almost immediate change it wrought was wonderful. I regained my appetite, the dizziness in my head had departed, my nerves were made perfectly strong, it renewed my interest in life and made me feel, in fact, like another woman."

"I proclaimed myself well and strong. Those six bottles of Dr. Greene's Nervura blood and nerve remedy, which cost me but a few dollars, have done more for me than hundreds of dollars and numerous physicians failed to do. I cannot do credit to its merits. Truly it should be lauded to the skies. I advise everybody to take it."

"Think that letter over, sufferers. If you have weak nerves, tired bodies, bad blood or indigestion, have worked too hard and are run down, try the best medicine in the world for these conditions. Dr. Greene's Nervura blood and nerve remedy. It will cure you. It gives health and strength to everybody."

"It is the great discovery of Dr. Greene, of 35 West Fourteenth street, New York city, is the most successful specialist in curing nervous and chronic diseases. He can be consulted free, personally or by letter. He will give you his great remedy above all other medicines."

### ENTERED A DEMURRER.

Merritt Will Attack the Complaint of the Chattanooga Bank.  
Some time ago the First National bank, of Chattanooga, filed a suit against Alfred Merritt et al., to recover on an unpaid judgment for \$3030.70, which had been rendered on a note for \$3000. In the complaint it was alleged that Merritt had by a succession of transfers conveyed all his property to his wife, so that the execution which was issued, on the above judgment, was returned unsatisfied. The bank alleged that the transfers were fraudulent and without consideration and asked to have them set aside.  
This morning a demurrer was filed on the ground that several causes of action were improperly joined in the complaint and that sufficient facts are not stated to constitute a cause of action.  
Judge Lewis has filed findings in the case of Marcus F. Bates against the Standard Ore company, to recover for money loaned and services performed. It is found that Bates performed services to the amount of \$2138.32, loaned \$833.28 and that but \$2579.24 had been paid. Judgment is entered for \$387.77.  
The Ontonagon River Lumber company is made defendant in a suit brought by the Armour Packing company to recover \$674.11 for goods.

## THE POLITICAL FIELD

All Hands Are Out Hustling and Are Pulling Every Wire for Their Respective Candidates.

Challengers Working in the Interest of Non-Partisan Candidates Are Warned Against Stuffed Registration Lists.

Attempt Made in the Second Ward to Copy Names of Men Who Voted Last Year.

About the only thing that can be said about the situation in city politics today is that all hands are out hustling. Both sides feel confident, although a good many of the disciples of rotation in municipal affairs, are badly rattled and are gnashing their teeth in fine frenzy. Their inability to build a case for the non-partisan movement and candidates, has been a bitter pill to swallow and many ill-natured and ridiculous remarks are the result.

Tonight the partisan wing, or as many of it as can be brought out, will hold a meeting in the headquarters in the basement of the Kitchi Gami club building. Messrs. Getty, Myers, Tom Dinkham, A. P. Cook and the candidates are expected and C. A. Towne has been secured to jolly up the drooping spirits of the ringers with some of his choicest foaming phrases.

It has been suggested that the challengers working in the interests of the non-partisan candidates in election day watch the corner pretty closely and take great pains to see that no stuffed registration lists are run in on election day. And the list and it may have been successfully done elsewhere, through scheming on one side and inadvertence on the other.

In the Fourth precinct of the Second ward the clerks copied the names of all who voted at the last election, and the clerks who were to register the law requires. They then started to copy the names of those who voted a year ago, but who did not vote at the last election.

Mr. Getty was much displeased and among other remarks that it did not make any difference about the law and that the names should have been copied.

Mr. Ten Brook is out doing the thing canvassing and the words of coming more and more his way every day. He is sure of the solid Democratic and Populist vote. All Republicans believe in non-partisan municipal elections are supporting him. Quite a number of dissatisfied Republicans are doing the same, and there is a small army of personal friends and hangers-on.

The words are in the present state of city affairs, tried and tested competence is to be preferred to untried and inexperienced incompetency. For some reason or another, Alderman Evans, in the Second, is running against considerable opposition. His opponent, Mr. Krumschmidt, is a Republican, and that gives him additional strength. Evans has a good hold in his ward, however, and it will take giant blows to lay him low.

The attorneys, almost to a man, are standing shoulder to shoulder and fighting like heroes for Dibell and Hunt.

### A NON-PARTISAN JUDICIARY.

List of the Members of the Bar Supporting Dibell and Hunt.  
The Herald publishes again today the names of the lawyers who signed the petitions of Mr. Dibell and Mr. Hunt as independent candidates for judge and special judge of the municipal court. There are about 125 practicing attorneys at the Duluth bar. One hundred and seven of about 61 are Republicans, about 30 Democrats and 7 Populists. To those citizens who are acquainted with these lawyers in our community, no further comment is necessary. Here is the list:

Howard T. Abbott, Alfred Jaques, A. L. Agatini, John Jenschold, Jr., E. F. Alford, L. E. Judson, Jr., Walter Ayers, George L. Kelley, John A. Keyes, Stan Kierstead, Albert Baldwin, Henry Lardner, Jr., R. N. Marble, R. K. Briggs, J. M. Martin, E. P. McCaffrey, John M. McClintock, A. E. McCordie, W. H. Carey, John R. McGiffert, George F. ### CHIEF BLACK DENIES.

Says Mr. Chapman's Introduction Story Was Not True.  
Chief Black made the following statement to a Herald representative this morning: "I saw in your paper last night that one of the candidates for a city office was represented as saying to the men in one of the fire halls that I introduced him to the men in one of the engine houses and that I assured him my support. Now, to many, that will make it appear that I am taking a part in politics, when it has been understood all along that I was here in a non-partisan capacity. I want to deny that I have introduced any candidates to any of the firemen. Furthermore, there are strict rules against any of the men in the department taking part in a political campaign. I will not allow the boys to mix politics or religion into the fire department matters and if anyone will prove to me that any fireman breaks that rule, he shall be promptly and summarily discharged."

### THE IRON TRADE REVIEW.

Projects Involving Large Iron and Steel Tonnage Held Back.  
CLEVELAND, Jan. 31.—The Iron Trade Review this week says: "There are evidences that the prolonged uncertainty in regard to the financial legislation, poor railroad earnings and the further outflow of gold are holding back a number of projects that involve a large tonnage in iron and steel. The financial problem is in fact, the largest element of uncertainty in the outlook for every industry."

It is evident that the heavy buyers of Lake Superior iron ores are going to be in no hurry to make their arrangements for the next year's supply, preferring to wait until there is a definite indication as to the future basis of all values. While work on such contracts have been let, a certain amount of iron ore has been ordered, and the promise of goodly tonnage a few months hence, there is a sharp struggle for orders that can be put in hand at once.

"Business in nearly all lines has been below anticipations. Pig iron sales to mills and foundries have been small. As the year opened there was a call for iron for foundry work, but enlarged consumption, but it appears to have been only a replenishment following the close reduction of all stocks at the closing of the year for foundry iron are quite as weak as at holiday time and some furnaces have gone below that level. Desamper pig and billets hold the better prices noted last week, but neither buyer nor seller is forcing the situation."

### SUFFRAGISTS IN SESSION.

Convention of National Woman's Suffrage Association.  
ATLANTA, Ga., Jan. 31.—The twenty-seventh annual convention of the National American Woman's Suffrage association was called to order today by Miss Susan B. Anthony, its president. Rev. Anna Howard Shaw opened proceedings with a fervent prayer.

The roll of delegates was called by Miss Alice Stone Blackwell, recording secretary, and a majority of the states were found to be represented. A telegram of congratulation was sent to the Hon. Mrs. Hilley, of the Colorado legislature, as the author of the first bill drawn by a woman, ever passed by the legislature of any state. The delegates were named and the convention took a recess until afternoon.

### A Japanese Victory.

LONDON, Jan. 31.—A dispatch to the Pall Mall Gazette from Chefoo says that the Japanese fleet yesterday bombarded the fort of Wei Hai Wei, landed a large body of troops, captured three of the forts and silenced another by heavy fire of the fort.

### All Want Free Silver.

Fred B. Spelman is back from a two-weeks' trip to Salt Lake City, Denver and other Western points. He says that every one out there is for free silver. Business is flat but there is a great deal of confidence that sooner or later something must be done by the government favorable to silver.

### Spring Tonnage Rate.

There is absolutely nothing doing in the marine situation. No charters or contracts of any nature are being made at any price. Tonnage for wheat to load in the spring is quoted at about 2 1/2 cents.

### ANOTHER LOAN CERTAIN.

Proposal to Place Big Block of Four Per Cents in London.

NEW YORK, Jan. 31.—It is believed in financial circles here that a government loan is certain to be issued and this view is reflected in the activity of the market for time loans. Two of the leading foreign banking firms have in the last two days borrowed large amounts on long time, one of the firms taking as much as \$10,000,000.  
It is said, too, that the foreign bankers have communicated to the secretary of the treasury their preference for a 4 per cent loan. It is stated on undoubted authority that the Rothschilds and Seligman & Co. are arranging to make a proposition to the United States to place a big block of a per cent bonds in London, or make a gold loan to the government for from six to nine months against the deposit of bonds in the New York sub-treasury.

### THE DOINGS OF CONGRESS.

Bill Adopting Special Rules for Lake Navigation Passed the House.

WASHINGTON, Jan. 31.—Speaker Crisp called the house to order today. Bills were passed as follows: To adopt special rules for the navigation of harbors, rivers and inland waters of the United States, supplementary to the act to adopt the regulations to prevent collisions at sea; to fix the time for holding district court in North Dakota.  
The house went into committee and resumed consideration of the Pacific railway bill.

### The Senate.

WASHINGTON, Jan. 31.—Mr. Hill presented to the senate the petition of the leather and hide trade of New York, urging the issue of \$500,000,000 of gold bonds.

Mr. Peffer introduced a financial resolution "to provide for a special election to take the sense of the people concerning several questions as to the financial policy of the government."  
The resolution of Mr. Allen (Pop.), Nebraska, was taken up, requiring the secretary of the treasury to redeem government securities in silver as soon as he is convinced that a systematic effort is being made to deplete the gold reserve and force a new issue of bonds.

An effective step was taken at this point to bring the entire financial question before the senate instead of leaving it any longer with the finance committee. Mr. McPherson, a member of that committee, moved to discharge the committee from further consideration of the bill of Mr. Sherman to provide a temporary means of meeting deficiencies. The vice president said he would rule on the resolution when it came up later, and the senate then took up the district of Columbia appropriation bill.

### Train Robbed.

DENVER, Jan. 31.—A special dispatch to the Associated Press says a Southern Pacific train was held up, and robbed last night near Wilcox, Ariz., by masked men. Putting shots of dynamite on the through safe, they blew it wide open. The trail of the robbers is marked this morning by a profuse scattering in the Sulphur Springs valley of the Mexican dollars.

### Will Go to the Jury.

ST. PAUL, Jan. 31.—The case of Tyndale Palmer against the Dispatch is still on in the district court. This afternoon the attorney for the Dispatch moved to dismiss, claiming an insufficient case, but the motion was overruled and the case will go to the jury later.

### Violated Postal Laws.

BROOKLYN, Jan. 31.—M. L. Towns, counsel for the strikers, presented affidavits of two employees to the effect that cars on the Atlantic Avenue Railroad company which do not carry mail, bore signs "U. S. mail" in violation of postal laws. United States District Attorney Bennett decided to entertain the complaint.

### The Whole Board Resigned.

INDIANAPOLIS, Jan. 31.—The board of public works of this city, consisting of James Wildman, Andrew Kramer, Republicans, and F. J. Meyer, Democrat, today signified to the mayor that they would withdraw from office. This is understood to be a result of the recent investigation by the city council committee.

### The Whisky Trust Row.

CHICAGO, Jan. 31.—The restraining order preventing the whisky trust receivers from taking any action in the proceeding under which they were appointed will remain in force until Saturday morning.

### Burned to Death.

PHILADELPHIA, Jan. 31.—Mrs. Christina Zindinger and her 1-year-old twin daughters were burned to death this morning in their home in Kansas street. A cat, an oil lamp and a fire alarm box that would not ring are responsible for the terrible calamity.

### Rebels Defeated.

COLON, Colombia, Jan. 31.—A severe engagement has been fought at Bogota, between the government forces and rebels. Two hundred of the latter were killed. The victorious troops have been sent by train from Cartagena to Machina, in order to engage the rebels. Six Liberals have been arrested at Cartagena.

### Decidedly Progressive.

GREEN BAY, Wis., Jan. 31.—Dr. H. A. McChesney, a young society man, gave a stag and progressive cinch party last night on a lavish scale. Henry Raper, a wealthy brewer, winner of the first prize, received a deed of 120 acres of land valued at \$5000.

## Gold! Gold!

BUY THE BEST!

Be Sure You're Right, Then Go Ahead.

**Five Large Veins,  
75,000 Tons, High-grade Ore in Sight.**

Favorable reports by Horace V. Winchell, (state geologist); Julius Ropes (president of the "Ropes Gold and Silver Mine"); Wm. Peters, (former superintendent of the "Little American Gold Mine"); men acknowledged to be authority on gold formations, as well as of practical mining experience.

### The Wiegand Mine.

Since the visit of Professor Horace V. Winchell to the property, a shaft has been sunk on No. 5 vein, fourteen feet deep. The vein is a true fissure, six feet wide between walls, with two feet of rose quartz assaying from \$28.00 to \$200.00 per ton; the balance of the vein matter being mixed, about 75 per cent of which is quartz, all of which carries free gold.

Miners are now at work under contract to sink this shaft to the depth of a hundred feet, and expect to progress at the rate of about thirty-five feet per month. Shafts on Nos. 1 and 2 veins, will be continued in the near future.

Arrangements will be made to have a ten-stamp mill (capacity thirty tons per day) ready to run by May 15th, by which time we propose to have a stock pile of about 1500 tons of good ore.

To expedite the work of opening up the mine, power drills will be used if necessary. In order to push this work as rapidly as possible, the "Wiegand Gold Mining Co." has been organized under the laws of the State of Minnesota. Capitalization, \$200,000.00; par value of shares, \$100. Fifty thousand shares will be placed in the treasury to provide funds for working capital. Ten thousand shares are now offered for sale at fifty cents a share, and will be sent by mail in not less than 100 share lots, on receipt of certified checks.

We are aware that gold stocks, as a rule, are not desirable property. Nor do we propose to encourage anyone to buy the Wiegand stock on our say so. To those who care to invest, we advise them to first thoroughly investigate, or have someone on whose judgment they can rely, do so for them. The property can be seen and a man of experience can readily judge as to its value.

Ore averaging \$2.00 in the mill will pay a large profit. The appearance of the vein matter, together with assays running from \$6.45 to \$200.00 per ton, indicates that the rich quartz will average from \$1.50 to \$25.00 per ton.

Any further information desired can be obtained by calling at our offices, 320 and 310 Burrows Block.

Reports, prospectus and a good write-up of the Rainy Lake and Seine River Gold Fields, sent by mail on application.

## FURLONG'S SEAT

The Elections Committee Found That Allen Was Elected But Notice of Contest Was Insufficient.

On This Account They Reported a Resolution Seating Furlong, Who Is the Sitting Member.

Mr. Cant's Bill In Regard to Assessments By Park Commissioners Passed By the House.

The Senate Committee on Legislative Expenses Caused a Lively Debate By Including In Extravagance.

ST. PAUL, Feb. 1.—After prayer, roll call and reading the journal Mr. Staples' substitute for his own roads and cars was bill was placed on the calendar in place of the original bill. Mr. Mansfield introduced a long resolution in regard to the cost of railroad building, amount of "watered stock" and various other points going to show that, in his opinion, the legislature has full power to control or regulate the railroads, and he therefore wants proper legislation to keep the profits of all railroads within a reasonable limit on the actual cost of the same. A communication from the St. Paul presbytery was read protesting against any reduction of the liquor license fee and urging the doubling of such fees instead.

Chairman J. D. Jones, from the elections committee, reported that the committee examined all testimony, which was conflicting but seemed to elect John D. Allen, by a plurality of two votes. However, the committee reported a resolution seating John J. Furlong (Dem), the sitting member. Mr. Jones thereupon moved to make the consideration of the contest a special order for Wednesday morning and the motion was adopted.

Chairman Robbins, from the committee on appropriations, reported several bills back. A substitute for the bill covering the deficiency in the state auditor's office was reported and made a special order for this afternoon, an action that was reconsidered just before adjournment, when the bill passed.

Chairman Underhill, of the judiciary committee, amended several minor bills in reports submitted.

Chairman Douglas, from the committee on drainage districts, with a recommendation that it pass; also the bill appropriating \$50,000 for drainage which was favored and the request made that it go to the appropriations committee.

Chairman Tallman, of the labor committee, asked that the Grondahl mechanics' lien bill be referred to the judiciary committee. The bill for protecting laboring men was favorably reported.

Mr. Kenny's bill prohibiting sale of liquor within a mile of the state fair was favorably reported, as also was the Rogers bill forbidding the transferring of liquor license.

Among the bills introduced were the following:

Mr. Robbins, providing for treatment of nebruties by counties. Temperance.

Mr. Knutson, for a normal school at Crookston. Normal schools.

Mr. Rice, Indian war claim of E. M. Lambert. Claims.

Mr. Sutton, probate code amendment. Judiciary.

Mr. Robbins, providing for deposit in court of money or property for which there are adverse claims. Judiciary.

Mr. Mansfield, providing for collection of taxes on real estate by installments. Taxes and tax laws.

Mr. Douglas, amend laws recording chattel mortgages and seed grain notes. Judiciary.

Mr. Johns, prohibiting posting chattel mortgages in public places. Judiciary.

Mr. Robbins, legalizing sale of realty by executors of administrators under license of probate courts after the time set by such license. Judiciary.

The house then took up the calendar and passed the following bills:

Staples' bill to amend chapter 14, general laws 1889, relating the sale of tobacco, forbidding sale of cigarettes to minors.

Johns' bill to amend section 30, chapter 34, of general laws of 1878.

Cant's bill to regulate and define the powers of park commissioners of cities, allowing assessments on abutting property for minor improvements.

Boston's bill to prohibit the establishment of pest houses in certain cases.

The committee of the whole, J. D. Jones presiding, recommended to pass Senator Rogers' bill to legalize certain acts of village councils relating to highways.

The substitute bill appropriating \$9000 for pine land investigation expense and state auditor's office deficiency was passed under suspension of the rules—yeas 80, nays 18, and the house adjourned until Tuesday morning.

### DOINGS OF THE SENATE.

An Extravagant Committee Was the Cause of a Lively Debate.

ST. PAUL, Feb. 1.—The most interesting thing in the senate this morning was the fight on the committee on legislative expenses. When this committee was appointed no one suspected that it would ever be changed with extravagance, and there was general surprise when the committee yesterday decided to favor clerks for committees, that in the past hardly knew what a clerk was. After rather a lively debate on the subject, the whole matter was sent back to the same committee for further consideration.

The following bills were introduced in the senate today:

Mr. Sheehan, amending the constitu-

tion so as to allow cities to frame their own charters. Municipal corporations.

Mr. Knutson, relating to the transportation of certain freight by common carriers, forbidding freight rates in excess of 50 cents per ton on ore for the first 100 miles, and 1/4 cent per ton for each additional mile. Penalty from \$1000 to \$5000 fine for first offense and \$5000 to \$10,000 for later offenses. Mines and minerals.

Mr. French, amending the penal code relating to adultery. Judiciary.

Mr. Keller, appropriating \$5000 for the relief of sufferers by the cyclone in Sicarno county in 1894. Finance.

Mr. Wyman, to amend the general statutes relating to university, University and university lands.

Mr. Thorpe, amending the law relating to the duties of county school superintendents. Education.

Mr. Fuller, amending the general statutes relating to logs and lumber, providing fines for unlawful seizure of logs or mutilation of marks. Logs and lumber.

Mr. Sheehan, for the promotion of forestry and to prevent forest fires. Forestry.

Mr. Henneman, joint resolution calling on Minnesota congressmen to favor some financial legislation regardless of party affiliations. Judiciary.

The senate then passed the following bills:

Jones' bill fixing the time for holding the general terms of the district court of Traverse county.

Young's bill relating to the compilation of the general laws of Minnesota by Henry B. Wenzell, etc.

Roverud's bill to amend sections 1 and 4 of chapter 76 of the general laws of 1889, concerning mutilated, lost and destroyed bonds, orders and warrants.

Sheehan's bill to amend chapter 21, of the general statutes of 1878, relating to weights and measures.

The senate then adjourned until Monday evening at 8 o'clock.

### POLICE AID ASSOCIATION.

Senators and Representatives Listen to the Bill's Provision.

ST. PAUL, Feb. 1.—A large number of representatives and senators attended the meeting of the Minnesota Police Aid association, which was held at the Windsor hotel yesterday afternoon. President Kerr stated that the legislators were invited to hear the bill read which, if passed, will provide for the appropriation of one-half of the 2 per cent tax levied on the foreign insurance companies. The import of the bill has been explained.

## CAME TO BLOWS

A Most Exciting Scene Occurred in the House of Representatives at Washington This Afternoon.

Congressman Breckinridge, of Kentucky and Madeline Pollard Notoriety, Struck a Blow at Congressman Heard.

They Were Seized by Other Members But Struggled Fiercely to Get at Each Other.

Both Were Arrested by the Speaker's Order and Forced to Apologize to the House.

WASHINGTON, Feb. 1.—There was a most exciting scene in the house of representatives this afternoon when Representative Breckinridge, of Kentucky and Representative Heard, of Missouri, came to blows in the center aisle in the middle of the hall. Representative Heard, who is chairman of the committee on the District of Columbia, became angered because the Hawaiian question was being brought forward in time devoted to his committee and attempted to seize the floor.

The beginning of the controversy was not plain, but suddenly both members sprang toward each other. Mr. Breckinridge shouted: "You scoundrel and liar," striking at the member from Missouri a fierce blow, which missed him.

Instantly they were seized by other members, but struggled fiercely to get at each other, shouting "Liar."

Mr. Pence, of Colorado, had Mr. Breckinridge by the throat and Mr. McCrory, of Kentucky, climbed over several seats and held him by the shoulder.

For three or four minutes there was a wild scrambling resembling a football rush while all the members in the house poured into the aisle and the greatest confusion reigned. The pounding of the speaker's gavel could not be heard but Mr. Crisp's voice rang above the tumult shouting: "The sergeant-at-arms will arrest the members." And then, "The sergeant-at-arms will bring them before the bar of the house."

Deputy Sergeant-at-Arms Isaac Hill rushed down the aisle bearing the great mace, followed by his assistant.

Two members were then brought up before the speaker's desk, two men on each side holding their arms, and Representative D. C. Hoagland standing behind them. Mr. Breckinridge was exceedingly red in the face, while Mr. Heard, who is a slender man, was ashen pale and looked like a lost soul.

In the course of an explanation to the house Mr. Breckinridge practically challenged Mr. Heard and demanded personal assistance. Both Heard and Breckinridge were forced to apologize to the house. Expulsion proceedings are unlikely.

The speaker ordered the members to take their seats. Many of the members did so reluctantly.

"Take it back," shouted Mr. Breckinridge, as he glared at Mr. Heard, who stood like a man in custody before the bar.

"You called me an impertinent puppy," answered Mr. Heard.

Meantime the speaker in stentorian tones was driving the excited and frantic members back with heavy blows of the gavel. Mr. Breckinridge was appealing for recognition, but the speaker would not hear him.

After all the members were seated, he ordered both Heard and Breckinridge back to their seats and then recognized the Kentuckian. With his frame trembling with excitement, his silver hair tumbling back from his forehead, Mr. Breckinridge rose, attempting to contain himself. Mr. Breckinridge began his apology in humble tones.

"No one," he began, "can regret more than I that any personal difficulty should occur on this floor, but when I thought I had been taken off the floor with great rudeness, I went to Mr. Heard and said to him that he could not do business in that way. He replied that that was an insolent statement, and that I was an impertinent scoundrel."

"He called me a scoundrel," interposed Mr. Heard.

"He called me a liar," went on Mr. Breckinridge, ignoring the interruption. "I ought not to have resented it, Mr. Speaker, but as a Mississippi judge once said, the lie was the first assault, and in spite of my white hairs, I could not restrain myself. I apologize to the speaker, and to the house. To the gentleman, I will say," he said as he turned and looked squarely at Mr. Heard, his voice raising, "I will say that that cannot remain between me and I."

A rattling burst of applause greeted this. Mr. Breckinridge took his seat. The house gasped at this last statement and sat breathlessly waiting for the reply.

Mr. Heard explained the situation. Today, he said, had been set apart for District of Columbia business and he had felt it his duty when the opposing leaders on the Hawaiian resolution had finished their statements to demand the previous question. The gentleman from Kentucky had then hurried over to him and had stated in a tone which he regarded as an insult that the house would do business today.

He had thereupon demanded the yeas and nays, as he deemed it his duty to do, whereupon the gentleman from Kentucky, in what he regarded as most offensive language, had called him an insolent and impertinent something.

"He followed," said Mr. Heard, his temper rising, "that statement with a practical assault upon me. He called me a scoundrel."

Maxwell's Successor.

WASHINGTON, Feb. 1.—Holmes Conrad, of Iowa, has been appointed solicitor general of the United States by the

president, vice Maxwell, resigned; also J. M. Dickinson, of Tennessee, to be assistant attorney general.

### FOUR BURNED TO DEATH.

Lives Lost by Fire in a Hospital at Cleveland.

CLEVELAND, Feb. 1.—The Deaconesses' home, located on Jennings avenue, burned today and four persons have been burned to death. The dead are: Albert Almeyer, Minnie Baumer, an 8-months-old baby and Jacob Krause.

The fire started in the basement, presumably from the furnace, and before it could be extinguished four of the fifteen patients in the house and hospital were dead and the building almost destroyed. Brave work on the part of the firemen and police alone prevented a further loss. The fire started about 11 o'clock.

The hospital has been in existence but a short time. It is a branch of a large hospital in Chicago and of no special denomination.

Before the flames had reached the outside of the building, Minnie Baumer, one of the nurses, appeared at the top stairs window and implored those below to assist her in getting out her patient, who was William Almeyer, one of the men burned. All saw that it would be folly to attempt to enter the building, which was now burning fiercely.

"Jump to the porch and save yourself," they cried to her, as she was but fifteen or sixteen feet above the broad veranda roof.

"I can't leave my patient," was the reply of the brave woman, as she turned to look back into the room, evidently to quiet the fears of Almeyer, who thought she was going to leave him. For a moment the brave woman stood looking down into the crowd below her, and then duty triumphed over her desire to be saved.

The smoke was pouring from the windows above her and her white, startled face appeared as a picture in the frame of darkness above. Then she turned into the room and she was seen no more, until her blackened form was carried tenderly from the building shortly after.

### A BOND ISSUE CERTAIN.

But When It Will Be Issued Is Not Decided.

WASHINGTON, Feb. 1.—Assistant Secretary Curtis was at the treasury department today but said he could add nothing to what was already known on the subject.

A bond issue is thought likely very soon, and negotiations preliminary to one have been entered into but so far as known a definite conclusion has not been reached, except that the administration is fully determined to make whatever bond issues circumstances render necessary in order to preserve confidence in the integrity of the national finances.

The cabinet will meet tomorrow and some announcement may follow its adjournment, or may be given out tomorrow.

### PRESIDENT CLEVELAND'S VETO.

Applies to Rights-of-Way Through Indian Reservations.

WASHINGTON, Feb. 1.—The president today sent a veto message which is of general application to all grants of rights-of-way through Indian reservations.

The reason given for the veto is that these tribes have heretofore caused trouble and to put a road their lands without their consent may occasion new outbreaks.

### MAY USE DYNAMITE.

The Vaults of the Whisky Trust Likely to Be Blown Up.

CHICAGO, Feb. 1.—Developments in the whisky trust case today were of a sensational nature. The books which Judge Grosscup had ordered examined at Peoria was found to be locked up.

An attempt was made to have two of the complainants in the receivership proceedings removed on the grounds that they were mere clerks, and grave charges of manipulation of stock were made against prominent officials of the trust.

The unexpected developments at Peoria cause considerable consternation in the ranks of the Hartshorn stockholders committee. Last night Nathan Bijur, of New York, left for Peoria, accompanied by two expert accountants and armed with an order from Judge Grosscup for an examination of the books of the company. Early today word was received that access to the books was denied.

Mr. Bijur wired that the books were behind the bolts and bars of the company's vault, and that the only man having the combination to the safe was out of town.

His request for instructions was answered immediately by a telegram ordering him to secure the books at any cost, and to use dynamite if necessary.

### Stock Brokers Fail.

NEW YORK, Feb. 1.—Brouer & Magou have announced their suspension on the stock exchange. The liabilities amount to about \$400,000.

### JOHN P. GORDON RESIGNS.

Eastern Minnesota Road Will Handle the Steamship Business.

As a result of the new policy of the Northern lake and rail system, John P. Gordon's resignation as general agent of the Northern Steamship company went into effect today. Hereafter he will act as agent of the Union Transit company and he has opened an office in the Chamber of Commerce building.

The new arrangement in the Northern system places the entire freight and passenger traffic of the Northern Steamship company under the management of the freight and passenger department of the Eastern Minnesota, and all business will be transacted by the railroad officials instead of having separate lake and rail departments as heretofore. Hereafter the Duluth business of the Northern Steamship company will be conducted under the direction of W. C. Farrington, general manager of the Eastern Minnesota.

## Gold! Gold!

BUY THE BEST!

Be Sure You're Right, Then Go Ahead.

Five Large Veins,  
75,000 Tons, High-grade Ore in Sight.

Favorable reports by Horace V. Winchell, (state geologist); Julius Ropes (president of the "Ropes Gold and Silver Mine"); Wm. Peters, (former superintendent of the "Little American Gold Mine"); men acknowledged to be authority on gold formations, as well as of practical mining experience.

### The Wiegand Mine.

Since the visit of Professor Horace V. Winchell to the property, a shaft has been sunk on No. 5 vein, fourteen feet deep. The vein is a true fissure, six feet wide between walls, with two feet of rose quartz assaying from \$28.00 to \$210.00 per ton; the balance of the vein matter being mixed, about 75 per cent of which is quartz, all of which carries free gold.

Miners are now at work under contract to sink this shaft to the depth of a hundred feet, and expect to progress at the rate of about thirty-five feet per month. Shafts on Nos. 1 and 2 veins, will be continued in the near future.

Arrangements will be made to have a ten-stamp mill (capacity thirty tons per day) ready to run by May 15th, by which time we propose to have a stock pile of about 1500 tons of good ore.

To expedite the work of opening up the mine, power drills will be used if necessary. In order to push this work as rapidly as possible, the "Wiegand Gold Mining Co." has been organized under the laws of the State of Minnesota. Capitalization, \$200,000.00; par value of shares, \$1.00. Fifty thousand shares will be placed in the treasury to provide funds for working capital. Ten thousand shares are not offered for sale at fifty cents a share, and will be sent by mail in not less than two share lots, on receipt of certified checks.

The association is a body of the association of police officers of the city of St. Paul, which is a body of the association of police officers of the city of St. Paul, which is a body of the association of police officers of the city of St. Paul.

The speaker ordered the members to take their seats. Many of the members did so reluctantly.

"I called me a scoundrel," interposed Mr. Heard.

Meantime the speaker in stentorian tones was driving the excited and frantic members back with heavy blows of the gavel. Mr. Breckinridge was appealing for recognition, but the speaker would not hear him.

After all the members were seated, he ordered both Heard and Breckinridge back to their seats and then recognized the Kentuckian. With his frame trembling with excitement, his silver hair tumbling back from his forehead, Mr. Breckinridge rose, attempting to contain himself. Mr. Breckinridge began his apology in humble tones.

"No one," he began, "can regret more than I that any personal difficulty should occur on this floor, but I thought I had been taken off the floor with great rudeness, I went to Mr. Heard and said to him that he could not do business in that way. He replied that that was an insolent statement, and that I was an impudent scoundrel."

"He called me a liar," interposed Mr. Heard.

"He called me a liar," went on Mr. Breckinridge, ignoring the interruption, "ought not to have resented it. Mr. Speaker, but as a Mississippi judge once said, the lie was the first assault, and in spite of my white hairs, I could not restrain myself. I apologize to the speaker, and to the house. To the gentleman, I will say," he said as he turned and looked squarely at Mr. Heard, his voice raising, "I will say that that cannot restrain me, and I."

A scattering burst of applause greeted this. Mr. Breckinridge took his seat. The house gasped at this last statement and sat breathlessly waiting for the reply.

Mr. Heard explained the situation. Today, he said, had been set apart for the District of Columbia business and he had felt it his duty when the opposing leaders on the Hawaiian resolution had finished their statements to demand the previous question. The gentleman from Kentucky had then hurried over to him and had stated in a tone in which he regarded as an insult that the house would do no business today.

He had thereupon demanded the yeas and nays, as he deemed it his duty to do whenever the gentleman from Kentucky, in what he regarded as most offensive language, had called him an insolent and impudent scoundrel.

"He followed," said Mr. Heard, his temper rising, "that statement with a practical assault upon me. He called me a scoundrel."

## CAME TO BLOWS

A Most Exciting Scene Occurred in the House of Representatives at Washington This Afternoon.

Congressman Breckinridge, of Kentucky and Madeline Pollard Notoriety, Struck a Blow at Congressman Heard.

They Were Seized by Other Members But Struggled Fiercely to Get at Each Other.

Both Were Arrested by the Speaker's Order and Forced to Apologize to the House.

WASHINGTON, Feb. 1.—There was a most exciting scene in the house of representatives this afternoon when Representative Breckinridge, of Kentucky and Representative Heard, of Missouri, came to blows in the center aisle in the middle of the hall. Representative Heard, who is chairman of the committee on the District of Columbia, became angered because the Hawaiian question was being brought forward in time devoted to his committee and attempted to secure the floor.

The beginning of the controversy was not plain, but suddenly both members sprang toward each other, Mr. Breckinridge shouting: "You cur, scoundrel and liar," striking at the member from Missouri a fierce blow, which missed him.

Instantly they were seized by other members, but struggled fiercely to get at each other, shouting "Liar."

Mr. Pence, of Colorado, had Mr. Breckinridge by the throat and Mr. McGree, of Kentucky, climbed over several seats and held him by the shoulder. For three or four minutes there was a wild scrambling resembling a football rush, while all the members in the house poured into the aisle and the greatest confusion reigned. The pounding of the speaker's gavel could not be heard but Mr. Crisp's voice rang above the tumult shouting: "The sergeant-at-arms will arrest the members." And then, "The sergeant-at-arms will bring them before the bar of the house."

Deputy Sergeant-at-Arms Isaac Hill rushed down the aisle bearing the great mace, followed by his assistant. The two members were then brought up before the speaker's desk, two men on each side holding their wrists.

The speaker ordered the members to take their seats. Many of the members did so reluctantly.

"I called me a scoundrel," interposed Mr. Heard.

Meantime the speaker in stentorian tones was driving the excited and frantic members back with heavy blows of the gavel. Mr. Breckinridge was appealing for recognition, but the speaker would not hear him.

### FOUR BURNED TO DEATH.

Lives Lost by Fire in a Hospital at Cleveland.

CLEVELAND, Feb. 1.—The Deaconesses' home, located on Jennings avenue, burned today and four persons have been burned to death. The dead are: Albert Almeyer, Minnie Baumer, an 8-months-old baby and Jacob Krause.

The fire started in the basement, presumably from the furnace, and before it could be extinguished four of the fifteen patients in the house and hospital were dead and the building almost destroyed. Brave work on the part of the firemen and police alone prevented a further loss. The fire started about 11 o'clock.

The hospital has been in existence but a short time. It is a branch of a large hospital in Chicago and of no special denomination.

Before the flames had reached the outside of the building, Minnie Baumer, one of the nurses, appeared at the top stairs window and implored those below to assist her in getting out her patient, who was William Almeyer, one of the men burned. All saw that it would be folly to attempt to enter the building, which was now burning fiercely.

"Jump to the porch and save yourself," they cried to her, as she was but fifteen or sixteen feet above the broad veranda roof.

"I can't leave my patient," was the reply of the brave woman, as she turned to look back into the room, evidently to quiet the fears of Almeyer, who thought she was going to leave him. For a moment the brave woman stood looking down into the crowd below her, and then duty triumphed over her desire to be saved.

The smoke was pouring from the windows above her, and her white, startled face appeared as a picture in the frame of darkness above. Then she turned into the room and she was seen no more, until her blackened form was carried tenderly from the building shortly after.

### A BOND ISSUE CERTAIN.

But When It Will Be Issued Is Not Decided.

WASHINGTON, Feb. 1.—Assistant Secretary Curtis was at the treasury department today but said he could add nothing to what was already known on the subject.

A bond issue is thought likely very soon, and negotiations preliminary to one have been entered into but so far as known a definite conclusion has not been reached, except that the administration is fully determined to make whatever bond issues circumstances render necessary in order to preserve confidence in the integrity of the national finances.

The cabinet will meet today as usual and some announcement may follow its adjournment, or may be given out tomorrow.

### PRESIDENT CLEVELAND'S VETO.

Applies to Rights-of-Way Through Indian Reservations.

WASHINGTON, Feb. 1.—The president today sent a veto message which is of general application to all grants of rights-of-way through Indian reservations.

The reason given for the veto is that these tribes have heretofore caused trouble and to put a road their lands without their consent may occasion new outbreaks.

### MAY USE DYNAMITE.

The Vaults of the Whiskey Trust Likely to Be Blown Up.

CHICAGO, Feb. 1.—Developments in the whiskey trust case today were of a sensational nature. The books which Judge Grosscup had ordered examined at Peoria was found to be locked up.

An attempt was made to have two of the complainants in the receivership proceedings removed on the grounds that they were mere clerks, and grave charges of manipulation of stock were made against prominent officials of the trust.

The unexpected developments at Peoria cause considerable consternation in the ranks of the Hartshorn stockholders committee. Last night Nathan Bijar, of New York, left for Peoria, accompanied by two expert accountants and armed with an order from Judge Grosscup for an examination of the books of the company. Early today word was received that access to the books was denied.

Mr. Bijar wired that the books were behind the bolts and bars of the company's vault, and that the only man having the combination to the safe was out of town.

His request for instructions was answered immediately by a telegram ordering him to secure the books at any cost, and to use dynamite if necessary.

### Stock Brokers Fall.

NEW YORK, Feb. 1.—Bour & Morgan have announced their suspension on the stock exchange. The liabilities amount to about \$400,000.

### JOHN P. GORDON RESIGNS.

Eastern Minnesota Road Will Handle the Steamship Business.

As a result of the new policy of the Northern lake and rail system, John P. Gordon's resignation as general agent of the Northern Steamship company went into effect today. Hereafter he will act as agent of the Union Transit company and he has opened an office in the Chamber of Commerce building.

The new arrangement in the Northern system places the entire freight and passenger traffic of the Northern Steamship company under the management of the freight and passenger department of the Eastern Minnesota, and all business will be transacted by the railroad officials instead of having separate lake and rail departments as heretofore. Hereafter the Duluth business of the Northern Steamship company will be conducted under the direction of W. C. Farrington, general manager of the Eastern Minnesota.

European Economists Fear the United States Will Soon Produce All of Its Own Sugar.

Report Showing Cost of a Complete Equipment for Beet Sugar Mills of Different Capacities.

Practice of Paying Fees by Wood and Coal Dealers to Government Inspectors To Be Abolished.

WASHINGTON, Feb. 1.—The European economists are alarmed at the prospect that the United States, the greatest sugar country in the world, and always relied upon to absorb the surplus European product, will at no distant date produce all of its own sugar. Frank Mason, United States consul general at Frankfurt, Germany, has submitted to the state department a special report on American competition in sugar production which is full of interesting statistics on the subject. Among other things he shows that the crop of beetroot sugar last year exceeded by 75,000 tons the product of the preceding year.

The production of cane sugar has doubled in the past twenty years, while that of beet sugar has trebled. Careful examinations of the possibilities of beet sugar production in the United States have been made by European correspondents who show certain localities, notably California and some of the more southerly and westerly states, will enjoy decided natural advantages over all the best producing countries of Europe. Four elements enter into the competition, climate, cost, and fertility of land, cost of labor and the effective economy of the machinery and methods of cultivation and sugar manufacture. In all but one, cost of labor, the United States has the advantage.

An English correspondent shows that whereas beet growing in Germany, notwithstanding the cheapness of labor, costs on an average of \$50.30 per acre, in California, in spite of high wages, the net cost does not exceed \$17.50 per acre, a difference of \$32.80 per acre in favor of the Pacific coast. Land is also cheaper and the California farmer works a rich virgin soil while his German rival is restricted to old worn out lands which must be sustained by the constant use of fertilizers. These facts have, as Mr. Mason shows, awakened the apprehension among European economists and sugar producers and have greatly depressed the movement in England to plant beets instead of wheat.

The legislative appropriation bill, soon to be reported to the house by the committee on appropriations, will contain a provision abolishing the practice of paying fees by wood and coal dealers to persons designated by law to inspect purchases of supplies of such character. The fee now paid to such inspectors is \$1.00 per ton of coal and \$1.00 per cord of wood and is to be paid by the purchaser of the coal or wood. The bill provides that the fee shall be paid by the government.

A report has been received by Secretary Morton from United States Consul Morris in Paris, showing the cost of a complete equipment for beet sugar mills of different capacities. The cost of a mill of a capacity of sixteen and one-half tons is shown to be \$186,791; of eleven tons \$138,116, and of five and one-half tons \$84,600. The machinery upon which these estimates are made, says Consul Morris, is of the latest and most improved patterns and the installation contemplated are first-class in every respect. The figures represent the cost of the material free on board cars in the station at Havre and do not include the

## THE LOSS OF THE ELBE.

No Trace Found of this Missing Lifeboat Supposed to Contain People from the Steamer.

LOWESTOWN, Feb. 1.—The terrible weather of the past forty-eight hours continues along the east coast of England. Visits made this morning to all the various life-saving and coastguard stations show that no additional news has been received in regard to the loss of the North German Lloyd's steamship Elbe, and no trace has been found of the missing lifeboat supposed to contain people from that steamer.

However, the sea is so rough that many of the fishing smacks are unable to make port and are beating up and down the coast waiting for a place to run into some harbor.

In reply to a message of sympathy from Queen Victoria, the agent here of the North German Lloyd's Steamship company has telegraphed to her majesty saying that no hopes whatever are entertained of any more of the passengers or crew of the steamship Elbe having been saved.

It became known today that the Elbe had on board the body of M. C. Conners, of Dakota, who died recently in a sanitarium at Berlin.

CAPT. GERDON'S STORY.

He Tells about the Collision With the Elbe.

ROTTERDAM, Feb. 1.—Capt. Gerdon, of the British steamship Crabtree, which is generally admitted to have been the vessel which ran into and sank the Elbe, has made a statement to Lloyd's agent here in which he says that he was knocked down by the force of the collision, and that when he regained his feet the two ships were some distance apart and the Crabtree was so damaged that she was liable to sink at any moment.

In spite of this, Capt. Gerdon added, he followed the other steamer, but found it at the water faster than the Crabtree, and he thought the vessel she had collided with was safe.

The Elbe Foundered.

ST. MICHAELS, AZORES, Feb. 1.—The British steamer Lupton Captain Smith, grounded and foundered off this point, Dec. 16, arriving at London Nov. 29, for Demerara and put in to St. Michaels in distress. Repairs were made and she proceeded on her voyage Dec. 16, arriving at Barbados on Dec. 28. She was probably on her return trip to London when the disaster occurred.

The Fulda aground.

BREMEN, Feb. 1.—The North German Lloyd's steamer Fulda, which was aground here at the next high tide, was towed off by tugboats and sailed for Southampton and Bremen.

Had a Rough Trip.

QUEENSTOWN, Feb. 1.—The Cunard steamer Lucania, Capt. McKay, arrived this morning from New York and reports that light to strong gales and rough seas were encountered throughout the entire voyage. Pilot Lyon, of New York, who could not be transferred from the Lucania to the pilot boat after the steamship cleared Sandy Hook bar, on account of the dense fog which prevailed on the day the Lucania left New York, will return on the Umbria from this port on Sunday.

MURDERER RAN AWAY.

Three People Were Killed and Ten Others Were Injured.

CONSTANTINOPLE, Feb. 1.—The American who was killed in the Pandocli quarter of this city on Wednesday morning by a man, armed with a knife, ran amuck through the street stabbing and slashing right and left, was Mr. Stupe, director of the Metropolitan railway at Constantinople. A Turkish official and a railroad employee were also killed and ten other persons were more or less seriously injured. The murderer succeeded in escaping.

Solicitor General Maxwell Quits.

WASHINGTON, Feb. 1.—Lawrence Maxwell, solicitor general of the United States, has tendered his resignation to the president and it has been accepted. Nothing will be said at the White House regarding the matter, but it is known that the relations between Attorney General Olney and Mr. Maxwell, whose position naturally bore almost confidential relations to that of the attorney general, have been strained for some time.

# UNITED LABOR LOYAL

The Various Industrial Unions in Mexico Are Enthusiastic for the Government as Against Guatemala.

Members Asked to Enlist to Fight for the Republic in the Event of War.

President Diaz Addressed a Delegation on the Feelings of Patriotism Among the Working Classes.

CITY OF MEXICO, Feb. 1.—The various industrial organizations in the republic and of border points in the United States are making elaborate preparations for an immense demonstration in favor of the Mexican government in its dealings with Guatemala. The fifty or more unions which will take part will be called to order as a congress in this city on Feb. 4 and their members asked to enlist as volunteers to fight for the republic in the event of war. Enthusiasm is running high among labor organizations of the country, and the gathering is expected to be a large one.

Gen. Diaz replied that it was very gratifying for him to see that now, as in all past times of war in Mexico, justice and right had found their defenders in the feelings of patriotism which inspire the working class at this time of pending danger to the republic and its institutions.

Gen. Diaz replied that it was very gratifying for him to see that now, as in all past times of war in Mexico, justice and right had found their defenders in the feelings of patriotism which inspire the working class at this time of pending danger to the republic and its institutions.

IT IS VERY VALUABLE.

The Strip in Dispute Between Mexico and New York.

NEW YORK, Feb. 1.—P. H. Morgan, who was United States minister to Mexico when James G. Blaine was secretary of state, was seen at his home by a reporter and asked about the boundary dispute between Guatemala and Mexico.

The disputed strip, said Mr. Morgan, is a narrow strip of land, about one mile wide, and is situated in the state of Chiapas, Mexico.

The two provinces or states that both nations claim, are just crowded with woods that would command good money, and the strip is probably the most fertile in that section of the hemisphere.

"Do I think there will be a fight for it?" Well, I don't know, but I think there will be a fight for it.

"If war would be the result of a war?" Guatemala has not as great a population as has the Brooklyn bridge during the rush hours. It has no army worth mentioning. I am in a position to go to war and to establish its claims unless it gets some big nation to back it.

"If war should be declared, Mexico, I believe could put in a very short time 25,000 men into Guatemala, and drive the whole population into the sea."

ROMANTIC BUT BAD STORY.

The Life of One of the Victims of the Elbe Disaster.

OAKLAND, Cal., Feb. 1.—There is no doubt that B. M. Brunson and Ida Brunson, whose names appear in the Elbe's stowage passenger list are the young military captain and wife who started for Berlin in December last to present their claim to a \$250,000 share in the estate of the late General Brunson.

The circumstances of the young couple's intention in the event of failure, prove their identity.

The story of Mrs. Brunson's short life is a romantic one. Twenty years ago Baron von Barnekow, the husband of the late General Brunson, was a young man in the army of the emperor of Germany.

## PAYMENT POSTPONED.

Usual Monthly Fines Not Collected from the Madams Yesterday.

Today, the madams of the tenderloin district are all swearing by the number 13 and the following is the why of the wherefore: Some days ago thirteen of the madams placed in the hands of Alderman Trevillion a petition asking the mayor and aldermen to abate or reduce their monthly fines to \$2.50 each.

The accommodating alderman from the Fourth ward did not formally file the petition but the little movement on the part of the madams, backed up by their personal appeals and tears seems to have knocked the persimmons into their capacious laps.

This morning when The Herald city hall reporter called in at the police court and looked at the record, he found, under date of Jan. 31, that charges of running houses had been entered against fifteen madams.

Through each entry, however, were drawn black pencil marks.

"Why are these entries erased?" asked the reporter of Deputy Clerk Tischart.

"I don't know," he replied, "I was told to cancel them."

Inquiry was then made of Clerk Grady. "You had better see the mayor about that," was all the answer he would make.

Mayor Lewis was interrogated. He seemed a trifle confused at being questioned upon so delicate a subject, but finally said that the women had begged off on account of hard times. They declared that they had no money and if arranged as usual would be compelled to go to jail.

The postponement of the regular monthly "matinee" made considerable excitement. A report commenced to circulate that the fines had been remitted on condition that the madams contribute to the municipal campaign fund, but the mayor's explanation answers that.

As usual, the chief of police swore out complaints and warrants for the women were issued and served. They came up to the court room yesterday afternoon thinking that their tears and pleadings had been in vain but when they arrived, they were received by Chief Armstrong, with hat in hand and supported by the court officer and his deputies.

"Madam," said the chief with his blandest smile to each one, "you may go home. The matinee has been postponed until Feb. 15."

One woman, however, Irene Sterrett,

missed the chief and entered the court room unseen. She made right for Judge Powell's private office and commenced to pour out a tale of woe.

"I owed an alderman a bill for goods," said she, "and asked him to postpone my day of payment as I had to pay my fine soon. He said pay him his bill and he would guarantee that I would have no fine to pay this month and I did so. Now they have brought me in here and I have no money. Won't you let me off?"

Judge Powell told her that he could do nothing for her if she came formally before him. She was in despair but just then the chief found her and broke the good news.

Mercy and fairness seems to be at the bottom of this new departure, but some of the more straight-laced citizens say that it is a shame and that if the women do not pay as usual, complaint will be made against them before the grand jury next week.

**Deafness Cannot Be Cured**  
By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running, sore, or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; and cases out of ten are caused by catarrh, which is not lost an inflamed condition of the mucous surfaces.

We will give \$100 reward for any case of deafness (caused by catarrh) that cannot be cured by Hall's catarrh cure. Send for circulars, free.

## A JAP VICTORY.

Capture of Forts at Wei Hai Wei Due to the Japanese Skillful Combined Movements.

Late Yesterday the Battle Was Still Raging, the Chinese Furiously Replying to the Japs.

One Account Says Defense Was Weak and Another Tells of Good Resistance by Chinese.

Authorities of Chefoo Are Seizing and Beheading Runaway Chinese Soldiers From Wei Hai Wei.

HIROSHIMA, Feb. 2.—The official dispatches received here show that the capture of the forts at Wei Hai Wei was due to the skillful combined movements of the Japanese. It is added that the defense of Wei Hai Wei, in view of the strength of that place, is feeble. The chief forts at Pai Chi Hyaiso were taken after a few hours' fighting, but some of the others were stubbornly defended.

The Japanese Sixth division was under arms at 2 o'clock in the morning and the advance was immediately ordered. The assault on the Chinese defenses began at daylight and by 9 o'clock the outlying batteries and trenches were almost taken.

In the meanwhile the Second army

Akitushima and Katsura. The Japanese fire was well directed and dismounted several guns; but neither the eastern forts nor the city of Wei Hai Wei were captured.

The authorities of Chefoo are seizing and beheading runaway Chinese soldiers who ran away from Wei Hai Wei.

Further operations are impossible for the moment owing to the severity of the weather.

## FOUR PER CENT BONDS.

Another Issue to be Paid for With Foreign Gold.

WASHINGTON, Feb. 2.—There is no longer any doubt that negotiations are in progress and about completed for the sale in New York of \$100,000,000 4 per cent thirty-year bonds.

While the prospective purchasers are New York parties, it is known that the bonds are expected to be disposed of to London bankers and that they will be paid for entirely with foreign gold.

A Sugar Planter Falls.

NEW ORLEANS, Feb. 2.—H. Kernochan, one of the largest sugar planters in the state and prominent politically, on account of financial troubles due to a failure to receive the sugar bounty, has surrendered to his merchants his fine sugar plantation, Scarsdale, a few miles below New Orleans. Bounty to the amount of \$40,000 is due.

## WAS INCENDIARY

Startling Story Told in Connection with the Fire at the Deaconess Home in Cleveland.

An Explosion Occurred Preceding the Fire and the House Was Instantly Wrapped in Flames.

Three Men Who Had Been Loitering Around for Several Days Were in the Yard.

They Paid No Attention to Appeals for Aid, and Police Looking for Them.

CLEVELAND, Feb. 2.—Testimony of a most startling nature was given today at the coroner's investigation of Deaconess home holocaust in which four persons lost their lives yesterday. The police have taken charge of the burned building and a search is being made for three men who are supposed to know something about the origin of the fire.

Miss Anna Sommers, acting matron of the home, testified that an explosion took place preceding the fire and the entire house was wrapped in flames and smoke almost instantly. She said three men had been loitering around the house for several days. When the fire broke out, she rushed to the front door and found these same men were in the yard. They

## MEXICO'S DEMANDS GRANTED.

Report That Guatemala Has Agreed to Pay Full Indemnity.

CITY OF MEXICO, Feb. 2.—Minister Mariscal and President Diaz have held another consultation on the Guatemalan matter, in which the subject of indemnities for Mexico was further discussed.

Mr. Mariscal intimated to the newspaper correspondents that the amount and general nature of the indemnity due from Guatemala is practically the only question being considered at the present time.

El Tiempo says that Guatemala has sent a cablegram to Mexico in which it accedes to the demands of this republic in every particular, agreeing to pay to Mexico full indemnity for all losses incurred in the invasion giving rise to the present unhappy state of affairs, but this is denied.

## TRAGEDY AT HOLYOKE.

Capt. Fenton Shot in the Police Station by a Patrolman.

HOLYOKE, Mass., Feb. 2.—A tragedy which cannot be explained occurred this morning in the police station in this city. Officer Patrick J. Devereaux shot and mortally wounded ex-Police Capt. Maurice D. Fenton. He then turned the weapon on himself and drove a bullet through his own brain, which killed him instantly.

Fenton died in a very few minutes. It is thought that Officer Devereaux became suddenly insane.

## Rochefort Returns to Paris.

LONDON, Feb. 2.—Henri Rochefort, proprietor of the intransigent of Paris, who has been exiled from France since he left that country for England with the late Gen. Boulanger in 1889, has left London for Paris, the amnesty bill having been passed by both the senate and the chamber of deputies. M. Rochefort has arranged to arrive at the French capital tomorrow. He will accord a most enthusiastic reception by his friends.

## HAYWARD TRIAL

The Delay Caused By the Illness of Juror Dyer Is Not Likely to Be Lengthy.

Thought That the Defense Has a Theory of a Third Man in the Crime.

Testimony Already Given Which Goes to Discredit Part of the Story Told By Blixt.

The Insanity Testimony Will Probably Be Used to Attack the Story of Adry Hayward.

MINNEAPOLIS, Feb. 2.—The delay in the Hayward murder trial caused by the illness of Juror Dyer, is not likely to last longer than the time set, and the county physicians say that the sick juror will be in good condition by the time the court opens Monday. Meanwhile the time is being improved by the equipment of the courtroom with a new system of ventilation, which is expected to prevent the recurrence of any such difficulty.

It seems to be agreed that under the laws the death or prolonged illness of a juror would mean a mistrial and the selection of an entirely new jury, though some legal authorities contend that there is a precedent for a trial by eleven jurors, provided both sides consent.

The effort of the defense to draw from the witnesses already examined evidence as to the finding of tracks of pointed toe shoes at the scene of the murder has served to confirm the impression that the defense has the theory that there was a third man concerned in the crime firmly in mind.

In this same connection the testimony of Witness Goosman as to the bloody condition of the buggy is important as showing that Blixt's story of how the murder was done cannot be wholly true, as it would have been impossible for the murderer to do the deed without being splashed with blood.

The defense will also attempt to show by expert testimony that the wounds on Miss Gings' face could not have been produced as Blixt says they were, after death when the body was pushed out of the buggy. By such testimony as this, the defense hopes to discredit Blixt's story. The story of Adry Hayward will be attacked by the insanity testimony, the effort to show that possibly he was himself the instigator of the crime, or at any rate that his story of his brother Harry's connection with it is a hallucination.

The defense permitted the Journal to print yesterday two letters written by Miss Gings to Harry Hayward. These speak of the loans he has made her in such a way as to prove that there were bona fide financial transactions between them. The battle will rage hotly around these letters, which are claimed by the state to be simply part of Harry's deep plot to protect himself.

There is much amusement among those connected with the case over the claim made by a morning paper this morning that the pointed footprints were made by one of its reporters who visited the scene of the murder. The claim is recognized as an attempt to get advertising out of the quest for the third man.

No other baking powder equals Dr. Price's, because it alone is absolutely pure.

## SWIFT TRANSPORT OF MAILS.

An Electrical Conveyor From Chicago Post-office to a Depot.

CHICAGO, Feb. 2.—If the city council will permit, a novel experiment will be tried in the swift transport of mails from the postoffice to the Illinois Central station at Twelfth street and Park Row, one mile distant.

Richard B. Sherman, the inventor of the system, proposes to erect an overhead, or rather overhouse roof, electrical conveyor that will carry a 75-pound mail pouch from the roof from the postoffice to the station in five minutes. It now takes twenty-two minutes to transport mail to the station by wagon.

The conveyor is similar to the one outside the transportation building on the World's fair grounds, except that it is to be operated by electricity, a wire answering to the trolley wire on a street car system furnishing the power to the carriage in which is enclosed the mail pouch.

Mr. Sherman has secured the consent of the property owners to the erection of a temporary overhead road, which consists of four or five wires.

A Tough Lot of Kids.

KANSAS CITY, Feb. 2.—Six boys ranging in age from 9 to 12 years have been arrested here for stealing gloves from the front of the Union Mercantile company's store. Every one of the boys has served several years in the county jail, and Arthur Odell, the leader, is 12 years old and has been in jail twenty times.

## A Bank Closed.

NEW YORK, Feb. 2.—The East Side bank on Grand street has been closed by Superintendent of Banks Preston in order that an examination into its condition may be made.

corps was assaulting the Pai Chi Hyaiso to the southwest. These defenses were of great strength and had precipitous sides, too steep for the Japanese.

The assault on the Chinese defenses began at daylight and by 9 o'clock the outlying batteries and trenches were almost taken.

In the meanwhile the Second army

Robinson, a brakeman, was instantly killed and Frank Kelley, another brakeman, was badly hurt.

## WILL STAY OUTSIDE.

ST. PAUL, Feb. 2.—The St. Paul & Duluth has decided not to be a member of the new passenger association, with which it will, however, work in harmony in rate matters, as it did with the late Western Passenger association.

When asked yesterday why his road would remain outside, General Manager Plough said:

"We have a small territory and do not desire to become involved in a large association. We will still continue to agree with our neighbors, with whom we always have a tacit understanding regarding rates, etc."

## A Sad Case.

DENVER, Feb. 2.—Frank Wiscomb, while attempting to steal a sack of coal from a Union Pacific freight car, was shot and fatally wounded by Special Policeman Peter Daly. Wiscomb had no work and determined to steal rather than see his wife and baby starve and freeze.

## Plums to be Plucked.

WASHINGTON, Feb. 2.—The terms of eighty-seven postmasters at presidential offices will expire during this month. The most important office in the list is Cincinnati. There were 135 expiring commissions last month and in March the number will hardly reach half a dozen.

## Destroyed by Fire.

FARFALL, Minn., Feb. 2.—The house belonging to Hudson Wilson and occupied by two families, was totally destroyed by fire yesterday. Loss, \$1200; all insured.

paid no attention to her frantic appeals for assistance in getting out the patients. The explosion was evidently in the basement or in near the furnace, as the registers were blown from their places.

The police are very reticent, but it is evident they are working on the theory that the fire had an incendiary origin. It was shown at the investigation that the burned building was without fire escapes of any kind, in direct violation of the state law.

William Allmeyer, one of the patients who was burned to death, it was stated was strapped to his bed when the fire broke out, being under treatment for a broken hip. Minnie Baumer, the nurse, was endeavoring to loosen the straps which bound Allmeyer when she was overcome by the smoke and lost her life rather than desert her patient.

Everywhere and always analyses prove Dr. Price's baking powder absolutely pure.

## Indian School Institutes.

WASHINGTON, Feb. 2.—The benefits derived from the summer institutes for Indian school employes held last summer, has led the Indian bureau to continue these meetings during the next season.

## Judge C. C. Baldwin Dead.

CLEVELAND, Feb. 2.—Judge Charles C. Baldwin, one of the presiding judges of the Eighth circuit, died at his residence on Euclid avenue this morning after a brief illness.

## Unworthy of Improvement.

PORTLAND, Ore., Feb. 2.—Capt. Thomas W. Simmons, United States corps of engineers, has made an official report in which he declared Yaquina bay, Oregon, unworthy of further improvement by the government. His opinion is endorsed by Col. George Mendell, division engineer, and Gen. Casey, chief of engineers.

Economy is practiced by using Dr. Price's baking powder because its absolutely pure.

## Too Late for Him.

SAN FRANCISCO, Feb. 2.—Frederick Andrews, aged 30 years, died at the county hospital last night. He was addicted to the use of opium and the habit combined with Bright's disease caused his death. Just before he died his sister arrived from Boston, and announced to him that he had been left an estate valued at \$250,000 last November by his aunt.

## Letter Carriers' Overtime.

WASHINGTON, Feb. 2.—The investigation of the overtime claims of letter carriers in Boston has been completed and Commissioner Hill has returned to the city to make his report. There were 472 claimants whose claims aggregated \$276,443, of this amount the report recommends the allowance of \$172,440, making a saving by the investigation of \$104,003.

## The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,  
Feb. 2.—The barometer has fallen about four  
tenths of an inch in the last 24 hours. A  
low pressure extends from the Gulf of Mexico  
across the middle of the continent to the  
Rocky Mountains. A high pressure is over  
the Pacific coast. A cold front is moving  
eastward from the Gulf of Mexico. The  
temperature is falling. The wind is from  
the west. The sky is cloudy. The weather  
is cold and disagreeable.

Forecast for Duluth and vicinity till 7 p. m. tomorrow: Generally fair;  
slightly cooler; light breeze from the west;  
slightly cooler Sunday; southerly winds  
becoming brisker.

## Down With Bossism.

While the battle against partisanship  
in municipal affairs is being hotly waged  
in Duluth, it is interesting to watch the  
great struggle for honest government  
now proceeding in Philadelphia against  
those who wield political power wholly  
for personal profit by corrupt manipula-  
tion of municipal affairs. The situation  
in Philadelphia today is the direct result  
of partisanship in municipal elections.  
It has placed the government of the city  
in the hands of a political ring, with the  
result that incompetence, extravagance  
and corruption have obtained complete  
control of all branches of the municipal  
service. It is a Republican ring that  
exists in Philadelphia, and it is not  
in the slightest degree better than the  
Democratic ring that has had complete  
control in New York until recently the  
respectable citizens rose en masse and  
wiped it out of existence.

All other cities where partisanship has  
prevailed in municipal affairs, and men  
have been chosen to office because of  
political "pulls" and not because of fitness,  
have experienced the same state of af-  
fairs. It is to prevent Duluth falling in-  
to the clutches of a similar political ring  
that The Herald calls upon the people  
to vote on Tuesday next for the inde-  
pendent candidates. The election of  
Messrs. Voss, Ten Brook, Dibell and  
Hunt will put an effective quietus upon  
the attempt of the political bosses to ob-  
tain control of the city offices.

The partisans claim that there is no  
corrupt political ring. This may be true.  
This may be true. The political ring  
that is back of Messrs. Hopkins, Chap-  
man, Edson and Boyle may not be cor-  
rupt, but the history of every city shows  
that such a political ring invariably be-  
comes corrupt as soon as it obtains com-  
plete control of the municipal govern-  
ment. It is as much the duty of every  
true citizen to prevent such a state of af-  
fairs as it is to apply the remedy after  
such things have occurred. The Re-  
publican Reform club of Philadelphia  
has issued a declaration of its reasons  
for opposing the political ring there.  
One reason is stated thus: "Because  
men of all parties are rapidly learning  
that the subjection of municipal to  
national politics is a constant source of  
corruption and weakness in both, and  
we feel that there is no valid excuse for  
allowing our preferences on national ques-  
tions to prevent us from embracing the  
present opportunity for dealing an effec-  
tive or fatal blow to the Tammany of  
our own city." This is a complete  
answer to those who are cracking the  
party whip in Duluth.

## A Premium on Incapacity.

In the current number of the Century  
there appears in the department of  
"Topics of the Time" an excellent ar-  
ticle on the spoils system and civil ser-  
vice reform. The closing paragraph  
applies so well to the main issues of the  
present campaign in Duluth that it is  
here reproduced:  
"It is the charge of the spoilsman that  
civil service reform, and the permanent  
tenure it demands, are un-American in-  
ventions, which have no place in this  
free country. As a matter of fact, it is  
the spoils system that is un-American.  
That puts a premium on incapacity by  
giving the preference to an unfit man  
with a political 'pull' behind him, rather  
than to the man who has simply fitness.  
The lazy, the shiftless, the incompetent,  
these are the men who want political

influence to help them get a living. The  
true American, the man who is willing  
to work and to rest his claim for em-  
ployment on his ability to do his work  
as well as any other man, does not want  
any political aid. He outnumbers ten  
thousand to one of the other kind of  
American, and the merit system is in his  
interests especially, as it is in the inter-  
est of the whole people."

How true it is that the spoils system  
puts a premium upon incapacity is  
shown at present in the case of the  
partisan candidate for comptroller of  
Duluth.

The City Treasurer.  
It is hardly necessary for The Herald  
to say anything to the people of Duluth  
in behalf of the re-election of Treasurer  
Fred J. Voss. There is no absolutely no  
question about his success, if his thou-  
sands of friends turn out and vote, and  
they will no doubt attend to that duty.  
Mr. Voss has a record that is without re-  
proach. For honesty and efficiency in  
one of the most important municipal  
offices he stands unchallenged. His op-  
ponents cannot find any flaw in his re-  
cord, and the only thing that they say is  
that he is not their political faith.

The Municipal Bench.  
The New Tribune has successfully  
adopted and abandoned half a dozen  
different and inconsistent positions in a  
vain effort to find some good reason for  
supporting the convention nominees for  
the municipal bench rather than Mr.  
Dibell and Mr. Hunt, the bar nominees.  
At first the New Tribune said the law-  
yers were not unanimous in recommend-  
ing these gentlemen. Then it said the  
meeting of the Bar association was not a  
representative gathering of the lawyers.  
After that, it said the bar meeting was  
partisan in its inception and was only a  
Democratic scheme.

All of these statements were so notori-  
ously untrue and unfair that the editor of  
that paper now admits that the bar meet-  
ing was a representative gathering; that  
almost all of the lawyers were there; that  
it was non-partisan and was held in the  
best of faith. It admits that a non-parti-  
san judiciary is a good thing for the dis-  
trict bench but says the municipal bench  
has never been non-partisan. Even if  
this were true, it would furnish no argu-  
ment against making it non-partisan.  
But the statement is not entirely true.  
The judge whom litigants and lawyers  
remember as one of the best we have  
had on the municipal bench was selected  
by the lawyers and elected by the people  
without opposition.

The Question of Competency.  
Mr. Towne has precipitated himself  
into the municipal campaign, regardless  
of the fate which has overtaken other  
congressmen who have mixed themselves  
up with municipal contests in a partisan  
way, and has attacked The Herald for  
asserting that Mr. Hopkins, the partisan  
candidate, is incompetent to perform the  
duties of city comptroller. Mr. Towne  
says he has been told by men he trusts  
that Mr. Hopkins is competent, and  
therefore he believes it.

Mr. Towne's information does not  
agree with that obtained by The Herald  
regarding Mr. Hopkins, and it has not  
relied upon information brought to it,  
nor upon statements made by political  
opponents of Mr. Hopkins. Its knowl-  
edge of Mr. Hopkins' incapacity is  
based upon a thorough investigation of  
his record both in Duluth and in Crook-  
ston and of the work that he has per-  
formed. Mr. Hopkins is not competent  
in the slightest degree for the comptrol-  
ership, and the men who have persuaded  
Mr. Towne that he is have grossly de-  
ceived him.

When Mr. Hopkins was a deputy  
sheriff at Crookston he could not even  
make out the returns to the sheriff which  
his duties required. Other people pre-  
pared the returns for him and he merely  
signed them.

When Mr. Hopkins entered the weigh-  
master's department here he was unable  
to make correct returns to the chief  
weighmaster and was obliged to call  
upon his associates to aid him in this  
work.

Mr. Hopkins has never shown that he  
possesses any ability as an accountant.  
On the contrary, he is a very ordinary  
man and devoid of any knowledge of the  
work of an accountant.

If Mr. Hopkins is competent, as Mr.  
Towne asserts on the authority of men  
he trusts, let him answer these questions:  
Is Mr. Hopkins competent to take  
charge of a set of double entry books?  
Has he ever had charge of an office  
where the services of a first-class ac-  
countant were required?

If Mr. Hopkins cannot answer these  
questions in the affirmative, and The  
Herald is confident that he cannot  
truthfully answer them in that way, then  
he is utterly incompetent to fill the po-  
sition of city comptroller. And we do

not want an incompetent man in that  
important office.

Let Them Win.  
The bosses object to being called  
"bosses", and they object to those who  
sit in the shadow of their greatness being  
called "satellites". They also object to  
any reference to "hotel loafers" or "ward  
heelers," which are not infrequently syn-  
onymous, being applied to some of their  
followers. Well, their objection is over-  
ruled. The Herald cannot revise its voca-  
bulary to please the bosses and their  
followers, and it will continue to carry on  
the fight against bossism and ring rule in  
municipal politics, no matter how pain-  
ful it may be to the feelings of these  
people of such suddenly acquired sensi-  
bilities.

The Herald's denunciation of bossism  
and political ring rule must be having  
the desired effect, or the bosses and their  
followers would not wince and squirm  
beneath the assault. Let them wince and  
squirm. They will squirm still more  
next Tuesday night, when they find that  
they have been buried beneath the bal-  
lots of an indignant people. Down with  
political bossism and municipal ring  
rule!

The Organ's Misrepresentations.  
The morning paper is driven to de-  
perate straits to bolster up the defeated  
partisan ticket. On a par with its many  
other false statements and misrepresen-  
tations is its story about Mr. Kinney's  
attitude in this campaign. It has an-  
nounced several times that Mr. Kinney  
was to speak at the partisan meetings,  
but up to this writing Mr. Kinney has  
not taken the stump to defend the parti-  
san ticket. Indeed The Herald is in-  
formed that Mr. Kinney has absolutely  
refused to be dragged into the cam-  
paign, and has declined the solicitation  
of the bosses to speak in behalf of their  
candidates.

The friends of Mr. Kinney should  
therefore not be misled by the false  
statements of the organ of the bosses.  
The partisans are desperate and pre-  
pared to say anything that might tend to  
avert their impending defeat.

The chairman of the partisan cam-  
paign committee, who is posing as a  
great politician, is angry because The  
Herald would not publish one of his  
long-winded screeds attacking the  
course of this paper and extolling the  
merits of his partisan ticket. He affects  
to be indignant because The Herald has  
denounced the leaders of the partisan  
campaign as bosses and political ring-  
sters. He should cool his indignation.  
No one ever thought of accusing him  
of being either a boss or a politician.

The attempt to swing the vote of the  
colored people into line for the partisan  
ticket has not succeeded very well, judg-  
ing from the attendance at the city hall  
meeting last night. According to the  
morning paper "there were quite as many  
white as colored people present."

Non partisanship in municipal politics  
must be the rule or municipal govern-  
ment will become corrupt. This has  
been the experience of every city in the  
land.

Why turn out an excellent city treas-  
urer and a first-class city comptroller to  
make places for two office seekers? Is  
it business policy to do this?

Texas has a boy who "hears through  
his mouth," but Duluth has several em-  
bryo statesmen who "talk through their  
backs."

A boy has been arrested in Chicago for  
stealing a morning paper. A plea of in-  
sanity will probably be entered.

Voss, Ten Brook, Dibell and Hunt are  
a winning quartet. Vote for the winners  
and rebuke the partisans.

The political bosses private ac-  
knowledge the election of Voss and Ten  
Brook.

poor spirits.

That Tired Feeling—Loss of Appetite—Weak and Faint.  
"C. I. Hood & Co., Lowell, Mass.:  
"Gentlemen:—About three months ago I was  
overcome by that tired feeling. Felt dull and  
dread all the time. I thought a very bad cold  
in my head, which caused me much pain, and  
especially about my right eye. I seemed to lose  
the sense of smell and taste for three weeks,  
and my appetite was entirely gone. I became  
so weak and faint I was not able to be up. My  
husband bought me three bottles of Hood's Sar-  
saparilla and two boxes of Hood's Pills. I took  
these medicines, and am now strong. Do my  
own housework, have a good appetite and sleep  
with sound content. I recommend Hood's Sar-  
saparilla to all my friends for it gave me health."  
Mrs. R. Barnard, Rice Lake, Wisconsin.

Hood's Pills cure liver ills, constipation,  
biliousness, jaundice, sick headache, indigestion,  
and all ailments of the bowels.

Faithful to His Trust.  
Duluth Press: City Treasurer Voss  
has shown himself to be a competent,  
obliging, faithful public servant. When  
the city incurred a large floating indebted-  
ness, owing to hard times coming on,  
aldermen and bankers are familiar with  
the way business was handled by Treas-  
urer Voss, so that now we can point with  
pride to the fact that the city which was  
going at a discount now commands a premium.

An Excellent Official.  
West Duluth Sun: William G. Ten  
Brook, the present city comptroller who,  
though a good Republican, was nomi-  
nated for re-election by the Democratic  
convention is out as an independent can-  
didate. He has made an excellent  
official, and by reason of his long ex-  
perience is better fitted for that important  
position than any other man in the  
city. He has been a most efficient  
comptroller, and the fact that he was  
put upon their ticket was only in ac-  
cordance with their purpose to select as  
candidates men who commanded the con-  
fidence of all the people regardless  
of politics and whose election will be a  
guarantee of a purely business adminis-  
tration of our public affairs.

It's the strongest and best, Dr. Price's  
baking powder, and it's absolutely pure.  
MISS ELEANOR CALHOUN.

A Young American Woman Who Has Made  
a Reputation in Europe.

Among American actresses who have  
distinguished themselves abroad, Miss  
Eleanor Calhoun has achieved a prominent  
position. As her name indicates, she  
comes of a distinguished southern family,  
and she has been a member of the  
great South Carolina statesman and or-  
ator, John C. Calhoun, though she was  
born and educated in California. When  
she visited Georgia some years back, the  
governor gave a review as a compliment  
to her. He presented the famous Gate  
City guard as a regimental escort of  
honor and granted her the badge of the  
regiment on her bosom.

When she decided to make a reputation  
for herself behind the footlights, her fan-  
tasy suggested to her in every way. She  
played a few times in America, but soon  
left for England, where her beauty and  
acting soon made a name for her. She  
was at the Haymarket theater, London,  
for two years under the management of  
the Bancrofts, appearing in many parts.

MISS ELEANOR CALHOUN IN "ANDROMAQUE."  
Among others in "Diplomacy." She also  
enacted the role of Hester Prynne in "The  
Scarlet Letter," as dramatized by Stephen  
Coleridge and Norman Forbes. From Lon-  
don she went to Paris to study French  
acting, appearing with the great French ac-  
tor, M. Coquelin. She had the honor of  
being the first English speaking actress to  
play in French at the Odéon, the national  
theater. During her four years' stay in  
Paris she appeared in many characters,  
two being Katherine in "The Taming of  
the Shrew," and Hermione in Racine's  
"Andromaque." She filled a short en-  
gagement in London with Mr. Willard,  
appearing as Vashti in "Judah." Her lat-  
est essay was as Ruth in a new play called  
"Slaves of the Ring."

Full and graceful, with starry eyes full  
of fire and intelligence and dark hair curl-  
ing round her forehead in boyish fashion,  
Miss Calhoun is a striking and pictur-  
esque figure both on and off the stage.

## A FAITHFUL SERVANT.

Something of the Manner in Which City Treasures Voss Has Worked For the City's Interests.

Some of the Ways in Which He Has Schemed and Contrived to Sustain Duluth's Credit.

Ald. Getty Thinks Voss and Ten Brook Are to Be Elected—A Judicial Campaign Episode.

In the abstract, there has been much said on the street and through the press during this short municipal campaign concerning the strong points and superior abilities of Fred Voss as a city treasurer. There is much that might be told specifically and in detail concerning his special fitness for that office, all of which, to a fair, honest, non-partisan lover of an able administration of city affairs, is an unanswerable argument for this matchless official's re-election.

The invariable and uniform manner in which Mr. Voss meets all who transact business in his office is one of his strong points. He is polite, pleasant, accommodating to an extreme, treats all men alike and is the same every day in the year.

His faithfulness to duty is remarkable. With a minimum of clerical assistance and no deputies, he has given the city his personal attention every office day in the year from early morning until dewy eve. To keep his records and books in shape he has spent more or less of many Sundays at his desk in the city hall.

The writer of these lines also cannot remember a single holiday for nearly three years that Dr. Price's baking powder absolutely pure.

Expert analyses at the California Midwinter fair showed Dr. Price's baking powder absolutely pure.

Republicans Will Hold Meetings Tonight—Voss and Ten Brook Serene.

Things in the political field, to the naked eye, anyway, are quiet today. The Republicans hold several meetings tonight but they will not cut any great figure unless better attended than the one they held last night.

Mr. Ten Brook was at his desk all the morning. He is as cool as a cucumber and feels not the least doubt of a re-election. Speaking of "broken promises," he has one made by Mr. Hopkins that would make a novel cartoon for the columns of the News Tribune.

It is said that a word of money has been left at Jake Zein's wine house, the Manhattan, to bet on Ten Brook's re-election, but as yet no one has picked up nerve enough to cover any of it.

Mr. Ten Brook will carry the Sixth ward and has plenty more to place in the same way. The attorneys report that things are looking rosy for Dibel and Hunt. Some strong links are being put in and some extremely radical Republicans are supporting them.

A FOREGONE CONCLUSION.  
Mr. Getty Feels That Voss and Ten Brook Are to Be Elected.

Mr. Getty, it seems, has even lost hope. It is reported from a most creditable source that Mr. Getty was talking over the situation with an acquaintance.

Mr. Voss stands very close to a large number of investors and when orders are presented he finds a new purchaser. A short time ago a Pennsylvania bank presented \$50,000 worth of orders and wanted them paid at once. There was not a cent in the treasury for that particular purpose, but Mr. Voss that day turned over to the bank's local agents a draft for the full \$50,000. He simply found a new purchaser and to him issued renewed orders.

That is a simple thing, some sportsman says. Yes, it's simple but it takes brains and personal interest in the city's affairs to make it effective, just the same.

And now what has been the result? Nothing but that last summer city orders that two or three years ago, before hard times were really here and before securities had depreciated more or less all over the country, sold for 3 per cent below par, were renewed and resold at 10 per cent above par.

That is what Fred Voss has done for Duluth. Every tax payer and holder of city securities regardless of political belief and paper has been a financial gainer. Here is dollars to doughnuts that the city treasurer is to good an officer for a man who is a Democrat on national issues, have never done one thousandth part as much for Duluth. Those same petty sportsmen also say that there are hundreds of men in Duluth just as well fitted for city treasurer as Fred Voss. They know better, however, as does the general public, as the result next Tuesday will show.

Fred Voss will be re-elected because he is tried, competent, faithful, successful, brainy and is demanded by the general public regardless of the spots system and national politics.

There is considerable betting on the result of the aldermanic fight in the Second ward. Frank Burke, Jr. is confident that Alderman Evans will be re-elected and has made an even bet on this result.

Mr. Voss has shown the greatest ability and the most valuable to the city and entitled himself to the greatest credit.

Just as the present hard times began to appear, the city was extensively engaged in public improvements. Not possessing cash in the treasury to meet contractors' estimates city orders were issued at 7 per cent interest. This shortage in ready cash in the treasury was caused solely by the failure of hundreds of citizens, Republicans, Democrats, Populists, Prohibitionists, rich and poor, to pay their improvement assessments.

As stated, the contractors were compelled to take city orders or nothing. The contractors then sold them to banks and brokers wherever and whenever possible. The order, once amounted to \$50,000 and people who had been purchasing them freely, began to hesitate. For a time, as a result, this paper became somewhat of a drug, and the contractors discounted orders as high as 3 per cent. Large quantities of them were sold at 2 per cent below par.

The past two years the city has had all it could do to pay expenses and assessment collections have been so slow and small that there has been no money available to retire these city orders (drawing 3 per cent, too, Mr. Voss called them all in and renewed them at 7 per cent).

Now Mr. Voss has taken both an official and a personal interest in these matters. He has planned and schemed and worried to preserve and increase the credit and good business reputation of the city. His friends at times have mildly censured him for worrying over matters that he was not required to pay the least attention to. But more about the way in which these city orders have been cared for.

What Fred Voss Has Done.  
When these orders were presented for payment, large amounts of them by prominent Eastern banks and brokers, Mr. Voss has been compelled to hand out the cash or else refuse payment, injure materially the credit of the city, depreciate the orders and cause financial loss to the holders. In no case has he permitted an order to be presented without meeting exceedingly prompt payment, and he has done all that without a cent of city money in the treasury.

How in the world has he done it? That is a secret that perhaps for the good of the city's credit ought not to be told.

Money.  
There is a great deal more trading, buying and selling, going on in Duluth today than the calamity howler would believe—shot a day passed, hardly, without some sale of property being made at fair and often liberal figures. A few have faith that all our tariff and currency and revenue troubles will be adjusted; after a while we will all begin to entertain the same opinion. Property will bring more money than then it can be bought for now.

Fire insurance written in good, reliable companies. Money to loan at rates suitable to the security. Good properties, business and residence, for sale—still cheap, but not at so low a figure as I would have sold a month ago.

## BUILDING PROSPECTS

Talk With the Architects Indicates That the Coming Season Is to Be an Active One.

Nearly All Have Several Projects Under Way But Are Not Ready to Make Them Public.

Several Large Buildings Are Expected to Go Up During the Summer—Some Other Buildings.

This is not the proper season for any actual developments in building, as whatever plans there may be in conception are not yet of sufficient growth for publication. A call on some of the prominent architects, however, presents a very encouraging view of the situation and still further strengthens the belief that confidence in general and confidence in Duluth in particular is returning.

It is left, with additional force, that the architects are ready to take plans in consideration with every likelihood that they will pull through, which bears out this view of the situation. Few have plans in such shape that they may be made public, as the building season does not commence until the opening of spring. But each one speaks very encouragingly of the prospects for building during the summer.

One prominent architect said yesterday: "This is a little early for building news, but the opening of the season will show a better prospect than ever before in Duluth. Outside owners of property are figuring on building during the coming summer, and when the proper time comes, in my opinion, the results of the figuring which is going on now will be surprising to even those who are sanguine views of the immediate future in Duluth. I can say for myself that I am figuring now on several large and important buildings that will probably be erected next summer. We have a number of plans in the stocks with every prospect that they will materialize."

"We have quite a little work that we were planning a year ago which was discontinued on account of the slowness of the return of financial feeling. Now these plans are being taken up again with every likelihood and indeed almost a certainty that the coming summer will see their fruition. In this vein all the architects speak."

Palmer, Hall & Hunt's most important matter at present is the building to be erected on the site of the old Board of Trade. Plans are being sufficiently matured to admit of their publication, but the building is an assured fact, and a few general facts have been learned from the architects. The building will be five stories on Superior street and six on Michigan street and will be constructed entirely of steel, the frame of the building being built by the same firm that is building the addition to the Jackson school, which will be presented to the school board at the end of the winter. The addition will be of eight rooms and will be the completion of the building as started by the city.

The same firm has plans completed for the addition to the Jackson school, which will be presented to the school board at the end of the winter. The addition will be of eight rooms and will be the completion of the building as started by the city.

Palmer, Hall & Hunt also have ready for figures a 1-story brick store building for the site of the old Board of Trade, which will be erected on the site of the old Board of Trade, which will be erected on the site of the old Board of Trade.

German & De Waard have plans ready for figures for a dwelling house for A. C. Weiss, on Superior street between Second and Seventh streets, west of the city. They have many other plans in consideration not yet sufficiently developed for publication, and speak well for the coming season in building.

One feature of the building season will be the number of flat buildings which will be erected. Several have been built this winter, and a number of others are in process which will develop later. One of the needs of the city is neat, comfortable flats for the working class, and families who are unable to pay the rents of the larger flats.

Mr. Winchell Denies a Report.  
To the Editor of The Herald:  
In a recent issue of your paper you stated that "Geologist Winchell" had reported unfavorably on the establishment of a government assay office in Duluth. Will you please say for me that neither Mr. Winchell nor I have ever made such a report whatever on the establishment of such an office anywhere in Minnesota, nor has either of us ever been asked to make such a report.

Take the Great Remedy That Makes People Well.

A perfectly healthy body has its parts completely nourished and its nerves constantly refreshed and stored with energy from the vigorous blood that all the time bathes it.

But to do this important work of conveying sufficient nutrition to the tissues, the blood must be kept rich and full of red corpuscles.

The only trouble with two-thirds of the men and women whom the coming spring will claim for its victims is a pitiful lack of proper nerve food. What these weak, nervous people need is a more general feeding and storing of their blood and tissues with fresh, highly vitalized material. There is undoubtedly nothing that can compare with Professor Phelps' remarkable discovery, Paine's celery compound, for restoring health and strength.

The great body of physicians throughout the United States, England and Canada believe profoundly in it, and prescribe it in all cases of nervous weakness and debility. In preparing this greatest of all nerve tonics and blood-renewers, the eminent Dr. J. C. Phelps, M.D., L.D., had in mind the countless men and women with brains overworked and nerves unstrung by worry and lack of proper nutrition.

Clerks, their employers, lawyers, doctors, mothers of families, hard working men in every state and country, and hosts of brain-workers—the most intellectual part of the community—are today taking Paine's celery compound with the happiest results, to relieve themselves of rheumatism, neuralgia, nervous exhaustion, dyspepsia, sleeplessness and low spirits. Paine's celery compound cures diseases of the most important organs of digestion, circulation and excretion, by purifying the blood, by regulating the entire nervous system and supplying the body with strength to combat disease.

Paine's celery compound makes people well. It takes away all the tremor and irritability from the nerves, and gives that calm, strong feeling of assured health that invariably accompanies a perfectly well-nourished body.

Get rid of languor, clear the muddy, unhealthy skin, plump out the body and get back to a normal vigorous condition with Paine's celery compound, and begin now.

A Chance to Make Money.  
I have had my first streak of luck and I want to tell you about it. A little over four weeks ago I began selling Dish Washers, and have cleared in that time \$400. Isn't that pretty good for the first month? I am sure I can do better every month right along, as every Washer I sell helps to sell others. I can wash and dry the dishes for an ordinary family in two minutes, and as soon as people see such a machine, they will buy it quick.

## IN THE SOCIAL WORLD

Another Assembly Party to be Given by the Young People at Masonic Hall on Friday Evening.

"Neighborhood" Literary Society Organized at Woodland for the Entertainment of Residents.

Cecilian Society to Give an Open Musicales—Mr. and Mrs. B. F. Myers Give a Musicales.

Duluth society circles are rather quiet just now and there is little change to be hoped for, at least there is nothing to indicate that there is much activity ahead. This week has been a rather dull one. The Winter club night, Tuesday, provided some little diversion, these being a tea and informal musical. The attendance was quite large.

Next Tuesday evening the second assembly party will be given at Masonic hall. It will be attended by the full membership of the club and a jolly time is anticipated.

## THE CECILIAN SOCIETY.

Next Meeting Will be an Open One With a Fine Program.

The last meeting of the Cecilian club was held at the residence of the president, Mrs. Stocker. Mme. Augusta Ohlstrom-Kenard was in charge of the program and delightfully entertained the audience with remarks on Scandinavian composers and artists.

At the next meeting there will be a program of Scandinavian music given. The general public is invited. There will be no tickets of admission but a contribution will be taken for the benefit of the Cecilian library. Mrs. Augusta Ohlstrom-Kenard has charge of the program and there will be rendered several compositions never before heard in Duluth. Time and place will soon be announced.

If the Lyceum will book the Thomas orchestra the Cecilians promise to give the undertaking their cordial support.

## A WOODLAND CLUB.

Literary Society Organized For the Benefit of Suburban Residents.

One of the most pleasant social organizations of the city, and one which does much to do away with the inevitable loneliness of suburban life, is the Neighborhood Literary club, which has been organized at Woodland Park this winter. The object is the discussion of literary topics and an hour and a half each evening is given to that end. The remainder of the evening is spent in social enjoyment.

The club meets at the residence of W. C. Sherman every Tuesday evening, and the discussions are interesting, wholesome and helpful. The attendance is large ranging from forty to fifty, and is growing all the time. At the last meeting papers were read by Rev. S. Semple, Mrs. Semple, W. A. Pryor, Miss Jessie Hunter gave two vocal solos, and Will Cleland gave two humorous recitations. Following are some of the members who aid in making the discussions interesting: R. E. Denfeld, Mr. and Mrs. D. E. Holston, Mr. J. L. Washburn, Mr. and Mrs. W. A. Pryor, Dr. and Mrs. Salter, Ronald Hunter, Mr. and Mrs. H. W. Coffin, Mr. and Mrs. A. R. Macfarlane, Mr. and Mrs. W. C. Sherman, Mr. and Mrs. J. D. Stryker, Mr. and Mrs. William Peck, Mr. and Mrs. J. W. Miller, Mr. and Mrs. T. W. Hoopes, Dr. and Mrs. Sherman, Mr. and Mrs. N. C. Harvey, Rev. and Mrs. Semple, Mr. and Mrs. George Thompson, Dr. and Mrs. Richardson, Mr. and Mrs. H. M. Jackson, Misses Edith M. Newton and Eleanor O. Torrey, teachers in the public schools, as well as several of the Hardy school teachers.

## The Thistle Club.

The Thistle club, a social organization composed of twenty-five of the most prominent young Scotchmen of the city, will give the first of a series of dancing parties at Hunter hall on Tuesday evening next. Hoare's full orchestra will furnish the music and the reception committee is composed of William Donaldson, William Harris and Alex. Thomson.

## The Masquerade Ball.

The annual masquerade ball of the Duluth Turn Verein was given on Thursday evening and was largely attended. The number of masqueraders was large and the costumes were of great variety in design and color. Nuthair and Trautvetter's orchestra played and the grand march was led by Emil Applebagen and Mrs. Charles O. Falter. The supper was served at midnight by the ladies.

## The Policemen's Ball.

On Monday the annual ball of the policemen of Duluth will be given at the Spaulding and will draw a large crowd. The committees have made arrangements for a fine party and nothing which can add of the entertainment of guests will be left undone.

## The Chautauque Circle.

The Chautauque circle will meet on Wednesday evening and the following program is to be carried out:

Roll Call—Quoted from Bacon.  
Lecture—"Growth of English Nation" (Chapter 10).  
Mrs. Mary B. Thompson.  
Lecture—"Scott's Ministry."  
Mrs. J. B. Ward.  
Tablet—"The Condition of England at the Time of the American Revolution."  
Led by W. B. Dunlop.

## The Firemen's Ball.

The annual ball of the firemen will be given on the evening of Washington's birthday, Feb. 22, at the new fire hall on West First street. Hoare's orchestra will play and supper will be served. The large hall will make the finest dancing room to be had in the city. The committees are: Arrangements, Capt. Charles Boyington, Thomas O'Connor,

George Maghan and W. A. Smith; reception, Capt. Henry Fevaz, Lieut. Thomas Meekin, John Quinn, Joseph Hicken, Mike Fisher, floor, Assistant Chiefs Randall and Jackson, Capt. Thomas Miller, Superintendent Daniel Narey, Capt. Frank Kilgore, Lieut. James Dunbar, Charles Atkins and Lieut. Dan Cameron, Prompter, E. L. Fisher.

**Musicales Last Evening.**  
Mr. and Mrs. B. F. Myers gave a musicale last evening at their home on London road. Musical selections were given by Miss Shepard, Miss Sloan, Miss Collins, Miss Moak and Messrs. Merrill, Jones and Gearhart. Among those present were Messrs. Upburn, Phillips, Dickinson, Collins, Elliott, Shepard, Moak, Sloan, Todd and Magoffin. Messrs. Fagg, Watrous, Stearns, Gearhart, Jones, Ayers, Tolman and Merrill.

**Social Mention.**  
A basket social was given Thursday evening at Parsons' hall by Duluth Hive No. 1 Ladies of the Maccabees. A musical program was given and dancing followed.

On Tuesday evening the ladies of the lodge of Kaitheon Sisters surprised the Duluth Knights of Pythias lodge at its regular meeting and served a delicious supper in the hall. A pleasant social followed.

Miss Florence Beatrice entertained about thirty of her friends last Friday evening at the residence of her parents. The evening was spent in dancing and games.

The Hebrew Ladies' Aid society contemplate giving a masquerade ball in March.

The Saturday club is meeting today. "Slavery" is the subject and the discussion is under the leadership of Miss Anna Nolte. The papers are by Miss Anna Hicken, Mrs. Ames, Mrs. C. D. Richards, Mrs. Bevier and Miss Ella Roe.

On Monday evening a dance will be given at Parsons' hall by Albion lodge Sons of St. George.

The Euchre club met Saturday evening and Mrs. McKinley, Mrs. Bailey, Dr. McCormick and C. M. Vance won the prizes. Mr. and Mrs. McKinley will entertain the club next week.

The dancing party given by the Misses Shick and Barnard for the benefit of the W. R. C. No. 45 last Wednesday evening was a very pleasant occasion.

Mr. and Mrs. W. B. Silvey gave a dinner party last Tuesday evening in honor of Miss Carr, of St. Louis.

One of the nicest little parties to be recorded in the social call this week was a surprise party given in honor of Miss Ethel Paddock at her home at 322 West Third street, on Wednesday evening, by twelve of her little schoolmates. After playing games, singing songs and having a bountiful repast, the children returned to their homes ever to know Annie and Ethel Paddock as being royal entertainers.

The Unity club will meet on Monday evening at 8 o'clock at the Unitarian church. The subject for discussion is Kild's "Social Evolution." The leaders are W. C. White and Rev. F. C. Southworth.

Yesterday afternoon the ladies of the Whist club were entertained by Mrs. Van Loo, of Chester terrace.

**Personal Mention.**  
Rev. W. H. Medlar, of Wabash, Minn., who preached at Pilgrim Congregational church last Sunday, was the guest of Mr. and Mrs. D. S. Foggy.

Mrs. E. Florida has gone to Beloit, Mo., for the remainder of the winter.

Mr. and Mrs. W. R. Stone are spending the winter at Green Grove Springs, Fla.

Mrs. Granger and Miss Granger, mother and sister of J. E. Granger, who recently arrived from Europe and have been at the Spaulding, have taken the residence of Mr. and Mrs. W. E. Lucas and will soon occupy it.

Mrs. W. E. Lucas and children will leave soon for a European trip which will cover a year or two.

Mrs. Bessie Laythe Scovell and Miss Mamie Jester left Thursday for Atlanta, Ga.

Messrs. Magoffin and Miss Jennie Magoffin will go abroad next fall to Germany where Miss Jennie Magoffin will pursue her musical studies.

Mr. and Mrs. John Cummings left on Wednesday for Chicago.

Mr. and Mrs. F. R. Webber left on Wednesday for the South in the hope of benefiting Mrs. Webber's health.

Mrs. Mary R. Gilbert left on Wednesday for New York, accompanied by her son, A. E. Gilbert.

Mrs. Emil Werner and family left Thursday to spend several months in Los Angeles, Cal.

**West Duluth Social Notes.**  
The Ladies Aid of the Methodist church met on Wednesday of this week with Mrs. G. I. Mallory.

Misses Nellie and Mamie Murphy returned from St. Paul on Monday.

Mrs. Ida Peterson and Mrs. Ada Burnham have gone to Carleton for a short visit.

The choir of the Congregational church is arranging for a concert to be given on Feb. 8.

A concert arranged by Mrs. Olund was given on Tuesday evening at Great Eastern hall for the benefit of the Ladies' Aid society of Ashbury M. E. church. There were solos by Miss Bagley, Miss Wanless, Miss Miller, Miss Lowe, Mrs. Meadham and Mrs. Kingsbury. Several chorus numbers were also given.

Miss Minnie Jacobs was given a surprise party on Tuesday evening by a number of her friends. There was dancing, games and a general good time. Among those present were: Misses Mamie Enwright, Julia Enwright, Mary Thomas, Bridget Murray, Belle McCaffery, Nellie Wall, Lena Varbeck, Angie Glynn, Messrs. Conn Murphy, Charles Glynn, Carl Loerner, Ernest Loerner, Lawrence Glynn, Max McDonald, Bernice Faughnan, Thomas Murphy, Patrick Murray, Hill Day, Michael Maher, John Lowe, Arthur Cagnon, Thomas Greene.

Miss Rosa Newman, of St. Paul, who has been visiting her sister, Mrs. M. Kastner has returned home.

Mrs. Paine, of Virginia, is visiting her sister, Mrs. W. E. Keam.

The I. O. O. F. will give an entertainment at Odd Fellows hall on Monday evening.

A dancing party was given at the Hotel Bennett last evening and was a very enjoyable affair.

**Scoopers.**  
The Northern Pacific advertise one fare for the round trip from Duluth to Winnipeg on account of the Winnipeg bousiel, leaving Duluth Feb. 9. Large party of curlers and their friends will avail themselves of this opportunity.

## IN SPORTING CIRCLES

Duluth Polo Team Still Holds the Lead in the Contest for the Interurban Championship.

The Next Game Will Be Played on Thursday Between the Duluth and Superior Clubs.

Big Contest On Today at Glen Avon Between the President and Vice President's Rinks.

The Duluth polo club has added one more game to the interurban championship series to its list of victories. The side of the ledger reserved for defeats is as yet unmarked by any record. They have played four games, and lost none of them, and during that time but two goals have been lost. This result is not by any means a reflection on the Y. M. C. A. and Superior teams. They have been playing good polo, both of them, but while their individual playing has been excellent, their team work must of necessity be below that of the Duluth club, as this is practically the first season of each team, while the Duluth club is now in its third season as a team. Consequently not only is the Duluth club composed of excellent individual players but its team work is something exceptional. The winner of the present series will probably play the winner of the Twin City interurban championship series. Barring accidents this probably means that the Duluths and Henriettas, of St. Paul, will compete for the championship of the state which is now held by the Duluth club. The Summits, of St. Paul, are playing up pretty well in the Twin City series, and at last accounts were ahead of the Henriettas, so it may possibly be the Duluth and Summits who will play.

The game at Endion rink Monday night between the Duluth and Y. M. C. A. clubs was one of the best of the series in all respects. There was any amount of brilliant individual playing and the team work was excellent, especially that of the Duluth club. The score was 3 to 1 in favor of Duluth. Following is the standing of the clubs to date, including the first game, which is counted under protest by the Y. M. C. A. club:

Club	Played	Won	Lost	Goals	Let
Duluth	4	4	0	8	2
Y. M. C. A.	1	0	1	1	1
Superior	1	0	1	1	1

This afternoon and evening the usual curling match will be had at Glen Avon where the curlers are so numerous that it is anticipated this season. The president, E. P. Towne, and the vice president, W. Lardner, have chosen sides and divided up the club into two sides of five rinks each. These two sides will play against each other, and the losing side will be obliged to pay for the supper which will be served tonight. The contest will be productive of any amount of sport and what with the supper and the games, a roaring time is expected.

The rinks were not chosen early enough to secure their publication, but the skips and the men who will make up their rinks are as follows: President's side: R. J. MacLeod, skip; Ron Smith, skip; C. B. Woodruff, skip; P. Hall, skip; J. C. Hunter, skip; E. P. Towne, D. C. Cutler, C. R. Henegge, Tom Gibson, George Mackenzie, Alexander MacIsaac, J. Quigley, Walter Ayers, A. S. Wilson, James Smith, W. A. Bloch, George Gibson, R. A. Eva, A. R. Macfarlane, Francis Sullivan, Butler, R. E. Denfeld, W. A. Pryor.

Vice president's side: Harry Hudson, skip; S. F. Fullerton, skip; R. R. Macfarlane, skip; E. S. Palmer, skip; W. Lardner, D. MacLeod, W. Collins, C. W. Culver, F. A. Day, Capt. LaSalle, Anderson, L. D. Campbell, Charles McMillan, H. S. Mahon, E. W. Matter, W. B. Dunlop, George Harum, Karmay, B. Morrison, H. A. Ware, Frank Esson, A. F. Rudolph.

The play will continue both afternoon and evening and supper will be served at the rink in the meantime.

The rinks will play as follows: J. C. Hunter against Harry Hudson, 3:30 p. m.; George Mackenzie against E. S. Palmer, 3:30 p. m.; L. P. Hall against John MacLeod, 3:30 p. m.; R. J. MacLeod against S. F. Fullerton, 7 p. m.; Ron Smith against R. R. Macfarlane, 7 p. m.

## MAJOR A. FRANK HUTCHINS.

The Great Band Leader Tells His Wife's Wonderful Cure by Dr. Greene's Nervura Blood and Nerve Remedy. Mrs. Hutchins Adds Her Own Forceful Words About This Grand Medicine.

As Sousa naturally fills the place of Gilmore, so the mantle of the great cornetist, Arbuckle, fell upon his pupil, Major A. Frank Hutchins, the leader and director of the American Screw Co.'s band and orchestra, of Providence, R. I. Mr. Arbuckle said: "I know of no man who can produce a better tone and effect on the cornet than Hutchins." In both orchestra and band, Mr. Hutchins is distinctively a leader, and next to Sousa, undoubtedly occupies today the most prominent position in this country. As a musician and teacher he stands unrivaled.

In a recent interview at his home, 184 Charles street, Providence, R. I., Mr. Hutchins said: "I know of several others who have been cured within a short time by Dr. Greene's Nervura blood and nerve remedy, and the quicker people affected with any nervous difficulty commence to take this great medicine, the quicker will they be cured."

"But let my wife tell her experience, which everyone who knows her, knows is true in every particular," Mrs. Hutchins said: "I consider it my duty to state that I was permanently cured of nervous prostration by using three bottles of Dr. Greene's Nervura blood and nerve remedy. I doctored for two years or more with several eminent physicians without receiving any permanent benefit. My husband insisted that I should stop employing a physician at once, and commence taking the Nervura."

"It improved my health at once. It quieted my nerves; I slept well; began to have an appetite; gradually grew stronger; and after using three bottles declared myself perfectly well. I give my consent to publish this, and I trust it may be the means of inducing others to try this most valuable and reliable remedy."

Prominent and well-known people

Smith against R. R. Macfarlane, 7 p. m. In each of the above the first skip is on the president's side and the second on the vice president's side. The City band is in attendance.

As the time for the Winnipeg bousiel draws near the talk of the part to be taken by the Duluth club grows thicker. Nothing definite has yet been decided upon, but it is very likely that a large crowd will go from Duluth. The Winnipeg club has promised that if Duluth furnishes a good attendance for its bousiel Manitoba will send thirty rinks to the bousiel of the Northwestern Curling association in Duluth next winter. Consequently every effort is being made to insure a good crowd from Duluth. The railroads have made a rate of one fare for the round trip, and will furnish special sleepers for the Duluth curlers. Probably about twenty-five members of the Duluth club will go, and besides that a number of outsiders, friends of the curlers, will assist to swell the attendance. More definite arrangements will probably be made tonight. The bousiel continues all of the week beginning Feb. 11.

The contest for the von Luertzer curling scene is not yet at an end, though it has been extended several times. It is practically settled, however, for Tom Gibson has made a score of more than ordinary merit, and one that is not likely to be reached. He played 35 points out of a possible 72, which, with advantage, makes his score 41. The highest score made at Milwaukee was 32, and the highest record is 48. Following are the scores of those who have played:

Player	Score	Advantage	Total
Tom Gibson	35	6	41
C. B. Woodruff	25	10	35
G. F. MacKenzie	25	6	31

The next game in the interurban polo championship series will take place at Endion rink Monday evening between the Y. M. C. A. and Superior clubs who will line up as follows:

**Y. M. C. A.**  
Ellsworth.....right rush.....G. Lammion  
Culbourn.....left rush.....C. Fraser  
McDonald.....right back.....D. Morrison  
Chapman.....left back.....H. Rogers  
Horton.....point cover.....H. Rogers  
Horton.....goal cover.....J. W. Trumble  
Murphy.....goal.....J. W. Trumble

The game will probably be a good one as the Superior team has a defeat to obtain revenge for. A large crowd is anticipated.

The Zenith Polo club, an evolution from the Zenith City Prison Golf club, was expected to play the Superiors Monday, but their game will have to come off later. Next Thursday at Superior the Duluth and Superior clubs will play.

Sunday afternoon at the West Duluth rink a 5-mile skating race between Peter Morrow, of West Superior, and Anton Lutka, of West Duluth, will come off.

Five Large Veins,  
75,000 Tons, High-grade Ore in Sight.

Favorable reports by Horace V. Winchell, (state geologist); Julius Ropes (president of the "Ropes Gold and Silver Mine"); Wm. Peters, (former superintendent of the "Little American Gold Mine"); men acknowledged to be authority on gold formations, as well as of practical mining experience.

## The Wiegand Mine.

Since the visit of Professor Horace V. Winchell to the property, a shaft has been sunk on No. 5 vein, fourteen feet deep. The vein is a true fissure, six feet wide between walls, with two feet of coarse quartz assaying from \$25.00 to \$210.00 per ton; the balance of the vein matter being mixed, about 75 per cent of which is quartz, all of which carries free gold.

Miners are now at work under contract to sink this shaft to the depth of a hundred feet, and expect to progress at the rate of about thirty-five feet per month. Shafts on Nos. 1 and 2 veins, will be continued in the near future.

Arrangements will be made to have a ten-stamp mill (capacity thirty tons per day) ready to run by May 15th, by which time we propose to have a stock pile of about 1500 tons of good ore. To expedite the work of opening up the mine, power drills will be used if necessary. In order to push this work as rapidly as possible, the "Wiegand Gold Mining Co." has been organized under the laws of the State of Minnesota. Capitalization, \$200,000.00; par value of shares, \$1.00. Fifty thousand shares will be placed in the treasury to provide funds for working capital. Ten thousand shares are now offered for sale at fifty cents a share, and will be sent by mail in not less than 100 share lots, on receipt of certified checks.

We are aware that gold stocks, as a rule, are not desirable property. Nor do we propose to encourage anyone to buy the Wiegand stock on our say-so. To those who care to invest, we advise them to first thoroughly investigate, or have someone on whose judgment they can rely, do so for them. The property can be seen and a man of experience can readily judge as to its value.

One averaging \$7.00 in the mill will pay a large profit. The appearance of the vein matter, together with assays running from \$5.45 to \$210.00 per ton, indicates that the rich quartz will average from \$15.00 to \$25.00 per ton.

Any further information desired can be obtained by calling at our offices, 309 and 310 Burrows Block.

Reports, prospectus and a good write-up of the Rainy Lake and Seine River Gold Fields, sent by mail on application.

ment and Slander.

MINNEAPOLIS, Feb. 4.—Juror Dyer was apparently as well as ever this morning when the time came for the resumption of the trial of Henry Hayward for murder. A little diversion occurred at the opening of court when Mr. Erwin arose and demanded that the handcuffs be removed from his client. He contended that it was not right to bring him into court thus. It developed that the deputies had misplaced the key, and when it was produced and the bracelets removed the trial went on.

Ex-Deputy Coroner Nippert resumed the stand and was cross-examined by Mr. Erwin. The morning was spent in a technical recital of the condition in which Miss Gine's body was found at the autopsy. At its outset, County Attorney Nye asked if the defense seriously claimed that questions as to the condition of the victim's former material part of the defense, Mr. Erwin replied that he did, as showing the cause of death. He added that the questions were not intended in any way for an attack on character, and with this explanation he was sustained by the court.

It developed that the vital organs were in a normal condition, the kidneys slightly fatty, the uterus enlarged and the ovaries abnormal. The cross-examination as to the fracture of the skull and the wounds in it was close and technical, being illustrated by the doctor on the examiner's stand.

Dr. William Russell, the physician who was summoned when the body was found in the road, was the next witness. He told the familiar story again, and was subjected to a long cross-examination, the purpose of which apparently was to show that death had occurred in a manner different from that related by Bixit in his confession.

## SUPREME COURT DECISIONS.

Six Decisions Handed Down Today, One Being a Reversal.

ST. PAUL, Feb. 4.—Judge Collins, of the supreme court, today handed down six decisions. The most important is a decision that when one party has agreed to accept a real estate in payment of a debt, the property to be satisfactory to the attorneys of the latter, the attorneys cannot, arbitrarily, refuse to accept the real estate if the title is all right, after the owner has been to considerable expense in preparing to transfer it and they have, by implication, at least, led him to believe that the property would be accepted.

The case is that of John Boyd et al, partners as Boyd, White &amp; Co., appellants, vs. Morris L. Hallows, Jr., et al, partners as M. L. Hallows, Jr. &amp; Co. and Samuel P. Snider, respondents. Order affirmed.

The other decisions are:  
Hjalmar Anderson, respondent, vs. Nels Nordstrom, appellant. Order affirmed.

Walter A. Wood Harvester company appellant, vs. Andrew Ramberg, respondent. Order reversed.

Frederick Weyerhaeuser et al, appellants, vs. Isaac Foss, respondent. Order affirmed.

Thomas Foley, appellant, vs. Joseph M. Markham, respondent. Judgment confirmed.

Jonas F. Brown, appellant, vs. Joseph M. Markham, respondent. Order affirmed.

## A WIDOW WANTS DAMAGES.

She Has a Claim of \$5000 Against the City of Eau Claire.

EAU CLAIRE, Wis., Feb. 4.—Mrs. Mary Olson, who with her child 3 years of age, was placed in the isolation hospital by the board of health, because the child was pronounced to have small pox, has presented a claim of \$5000 against the city for false imprisonment and libel. One ground of her claim is the allegation that the health authorities caused to be published in a local newspaper the statements that her child was three years old; in the same connection that she was a widow whose husband died four years ago, "thereby intending to convey the false, malicious and defamatory libel that the said child of this claimant was an illegitimate child and this claimant a woman of unchaste character."

The statement that it was four years ago that her husband died was a typographical error in the newspaper.

## Burned to Death.

ST. PAUL, Feb. 4.—Joseph Nadeau, a laborer, was burned to death in a little shanty that stands in the center of the block bounded by Robert, Ninth, Minnesota and Eighth streets, at 3 o'clock yesterday morning.

## CUSTOMS DIVISION BILL.

Maj. Baldwin Will Try to Get a Hearing on the Measure.

ST. PAUL, Feb. 4.—The Dispatch to day has the following from Washington: Maj. Baldwin has again resurrected his customs division bill and has served

notice on the committee of interstate and foreign commerce that he will call it up for a hearing on Wednesday of this week. Maj. Baldwin has forgotten that the bill was referred to the Minnesota delegation to consider. It is very doubtful if the committee will give him a hearing at this late hour.

Killed by a Falling Tree.  
ST. PAUL, Feb. 4.—A special to the Dispatch from Eau Claire, Wis., says: The body of Henry Baetz, son of George Baetz, of the town of Brunswick, was brought to Eau Claire today from Cliff's logging camp. The deceased was killed by a falling tree.Destroyed by Fire.  
ST. PAUL, Feb. 4.—United States Court Commissioner W. A. Spencer's residence at 39 Irvine park, was totally destroyed by fire last night. The damage is estimated at \$10,000, of which \$10,000 is the valuation of the building and \$5000 the furniture. Fully insured.

## LOST CHICORA FOUND.

Report That the Chicora Has Drifted Ashore at South Chicago With Fourteen Men Aboard.

CHICAGO, Feb. 4.—Charles Counselman &amp; Co. report from their South Chicago elevator that the hull of the Chicora drifted ashore there this afternoon, with fourteen men aboard, badly frozen, but alive.

The elevator people report that a number of tugs can be seen out in the lake at work at a wreck, but that it is impossible to say what it is.

The rumor is current in South Chicago that it is the lost Chicora, and that fourteen persons are aboard badly frozen but alive, but this is a pure rumor, say Counselman &amp; Co., "and no one can possibly know it to be a fact. You may rely on it, the tugs are seen at work and we know no more."

## AGAINST THE ALTAMONTE.

Petitions and Protests Presented by Congressmen Kiefer.

WASHINGTON, Feb. 4.—[Special to The Herald.]—Representative Kiefer presented in the house today a number of petitions and protests against the Altamonte company, among them a letter from Professor Winchell, who doubts the feasibility of the scheme, and a statement from General Fitch, of the Duluth &amp; Winnipeg Railway company, that his company would never consent to the removal of their tracks from their present location.

## Fatal Boiler Explosion.

PROVIDENCE, R. I., Feb. 4.—The boiler at Earl, Carpenter &amp; Son's ice house at Mashapaug pond, Elwood, exploded today, killing two men outright, maiming three, and doing within an hour and wounding ten others, some of them seriously. The names of the dead are: Patrick Behr, John Behr and Martin Deery.

## Denied Officially.

TORONTO, Ont., Feb. 4.—Hon. John Haggart, minister of railways, gives absolute denial to the statement that C. N. Armstrong has any guarantee of the Canadian government in placing on the London money market securities of his company to build a railroad from Cape to the Pacific parallel with the Canadian Pacific railroad.

## A Supposed Murder.

NEW HAVEN, Conn., Feb. 4.—A private letter to the Herald from D. A. Blakely, from his brother Clarence, who is at his winter home in Rockledge, Fla., gives the details of the supposed murder of William Norton, of Illinois, who left Providence, R. I., last November for the South.

## BIG LOGGING ROAD.

Akeley Lumber Company Will Build Seventy Miles This Summer.

P. B. Walker, of Minneapolis, was here last week. He confirmed the rumor that the Akeley Lumber company is to build sixty or seventy miles of logging railroad this coming year. It will begin at Deer River, run north through the Bowstring Lake country up to the Big Fork river. It is to be a standard gauge road, 65-pound rail.

## THE HEALTH REPORT.

Death Rate Last Month Considerably Lower Than in January, 1894.

The report of the health department for the month of January was completed this morning and proves to be one most creditable to the city in every respect. During the past month there were 120 births. For the corresponding month one year ago, there were 113. The deaths amounted to 44. For the corresponding month last year they ran up to 59. The death rate this year was 3.1 per cent per thousand. Last year it was 5.0 per cent per thousand.

The principal causes of death were: Typhoid fever, 9; accidents and violence, 5; peritonitis, 4; consumption, 3; scarlet fever, 3; enteritis, 3; capillary bronchitis, 3; pneumonia, 2; diphtheria, 2; inanition, 2. There was one each from the following causes: Abdominal tumor, heart disease, peri-carditis, appendicitis, meningitis, cerebro-spinal meningitis, infantile convulsions and old age.

Of those who died 9 were under 1 year of age; 1 from 1 to 5; 3 from 5 to 10; 4 from 10 to 20; 13 from 20 to 40; 5 from 40 to 60 and 17 from 60 to 80. There were born in Duluth, 13 in other states and 14 in foreign lands. Twenty-three were males and 21 females; 28 single and 16 married.

## DASH TO DEATH.

A Trolley Car With Twelve Passengers  
Plunged Through an Open Bridge  
at Milwaukee Today.Three People Were Carried Down to Death  
in the icy Waters of the  
River.Two of the Dead Are Ladies and They Were  
Evidently Suffocated Almost at  
Once.The Accident Was Due to the Carelessness  
of the Motorman Who Paid the  
Penalty.

MILWAUKEE, Feb. 4.—A trolley car of the Russell avenue and Holton street line ran through the open draw of Kinickinick bridge at 8:30 o'clock this morning. The car struck and was on the ice, through which it plunged into the water. The motorman was drowned and at least two passengers are reported to have lost their lives. The car was bound filled with passengers when the accident occurred, but part of them were rescued without serious injury. The ice broke the windows of the car, which stood on end and only partially filled with water. The first body recovered was that of a woman, who was taken out a few minutes after the accident.

The confusion was such that nobody could tell an hour after the catastrophe how many people had lost their lives, but it is believed that at least six, besides the motorman, are dead.

There were ten or twelve people on the car, the exact number being unknown. Six were taken out alive and the others are all dead. Those rescued were: W. P. Severy, 705 Walnut street, hand cut; A. Oertel, 766 Island avenue; G. W. Chase, 727 North street; H. Kuehn, 307 Reed street; R. Brand, 340 Grove street; Ella Wachholz, 118 Eleventh street, hurt about the shoulder.

The dead are: The school teacher in the Twelfth district primary school and a daughter of professor Ehlman, director of music in the public school; John Kennedy, motorman of Car 145.

The car was in charge of Conductor Peterson. The bridge had been opened to permit the passage of the fireboat. Foley which was breaking the ice in the Kinickinick. The members of the Foley's crew were the only ones who were rescued from the partially submerged car. It was the worst street car accident that ever happened in Milwaukee and the news of the shocking disaster sent a thrill of horror throughout the city.

From all accounts the accident seems to have been caused by the carelessness of the motorman, John Kennedy, but he stuck to his post in a vain endeavor to stop the car which he had permitted to approach the open draw. He drew and paid the penalty of his carelessness with his life. The car struck and was submerged in the river and was submerged for about two-thirds of its length, the fact that it did not go to the bottom of the river which is eighteen feet, being due to the presence of thick ice. This circumstance alone is believed, made it possible to rescue any of the passengers.

The dead are: Miss Antoinette G. Ehlman, a kindergarten teacher of the district primary school and a daughter of professor Ehlman, director of music in the public school; John Kennedy, motorman of Car 145; Miss Schmidt, employed at National Knitting works.

The rescued were: W. P. Severy, A. Oertel, C. W. Chase, H. Kuehn, F. Brand, Ella Wachholz, Edward Hoffman and Miss Annie Alb, 710 Poplar street.

Russell avenue and Holton street Car No. 145, southbound, was speeding along on Kinickinick avenue at about 8:30 o'clock this morning with twelve passengers aboard. The Chicago &amp; Northwestern railroad crossing, situated about two-thirds of a block north of the Kinickinick bridge, was made on schedule time. The usual stops were observed, and at the conductor's signal to come ahead Motorman John Kennedy applied his power and the ill-fated car started onward to be suddenly stopped by an awful casualty.

Rolling along at a fair speed, not more than probably ten or twelve feet from the bridge, the car was stopped, who is said to have been in service only a short time, rang the bell to stop. Instantly the passengers became alive to the fact that there was something out of the ordinary wrong, and they soon perceived cause for alarm when looking out the open bridge was almost at hand and no brakes had as yet been applied.

At the sound of the bell the motorman grasped the brake crank and twisted it with might and main. But the wheels slipped, there was no time to reach for sand, and to the horror of the helpless passengers they realized that no power on earth could prevent them from plunging headlong into the yawning gulf of icy waters.

Wild shrieks from the four women passengers mingling with the breathless gasps of the pale-faced men. There was no time to plan or say a word. The rear door was all the means of escape that offered. The men on the rear end, two or three, including the conductor, had already jumped.

William F. Severy was the first to reach the shore. He had occupied the front seat at the window and had seen the bridge open shortly after the railroad crossing had been passed. He needed not the warning bell of the con-

ductor to notify him of the danger, he had already been calculating. He was the first to bound forward and reach the handle of the rear door. But he never opened it. The forward end went down, and he together with the terror-stricken passengers who were crowding behind him, was thrown to the front.

A heavy crash followed as the ice was struck, and then the car gradually sank midway into the water. The fire was instantly quenched and the passengers entirely submerged. The efforts to get out will probably never be known. Certain it is that the two ladies who met their death must have been at the very bottom and were instantly suffocated, as their bodies bear no signs of bruises.

One woman, probably Ella Wachholz, clung desperately to Edward Hoffman as he continued to raise himself out of the waters. He could lend no assistance, however, as his strength was almost gone. But the strong arm of a rescuer was near at hand, and the helpless woman was safely borne above the waters and soon placed in a place of refuge. Annie Alb was rescued in a similar way. Their preservation is alone due to the fact that they chanced to be farthest away from the rear door in the first attempt to escape.

Miss Schmidt's body was the first recovered. Afterwards the bodies of Miss Ehlman and the motorman were taken from the car. Two attempts were made to lift the car, but the chains broke each time. Police used grappling hooks and the wrecked car without success and it is now thought the list of dead will be limited to the three names given.

## THEY WERE REJECTED.

Japan Refused to Treat With the Chinese Peace Envoys.

WASHINGTON, Feb. 4.—Secretary Gresham has received a cablegram from Minister Dun, at Tokio, confirming the Associated Press report of the rejection of the Chinese peace commissioners by the Japanese on the ground that their credentials were defective in not granting them plenary powers. No word whatever had been received up to 10:30 a. m. regarding the reported capture of a part of the force of the U. S. S. Concord.

An official dispatch has been received at the Japanese legation confirming the report that Chinese peace envoys have been sent back to China by the Japanese because the envoys were not clothed with plenary powers by their government. It appears in fact, that the envoys did not even have a proposition from China to make to the Japanese, but apparently came to find out in a general way what it was that the Japanese wanted as terms of peace.

## HE HAS BLOOD IN HIS EYE.

Senator Keller in Washington to Fight a Baldwin Appointment.

WASHINGTON, Feb. 4.—[Special to The Herald.]—State Senator Keller, of Stearns county, Minn., is in Washington with blood in his eye. He has come to Washington, he says, to defeat the confirmation by the senate of C. C. Tobey, recently appointed postmaster at Sauk Center.

It will be recalled that Representative Baldwin secured Tobey's appointment some time ago, but the senate has acted upon his nomination. Whether Keller will succeed in defeating Tobey cannot be ascertained.

## THREE SHOTS WERE FIRED.

Attempt to Kill the Manager of the Buckeye Glass Company.

MARTIN'S FERRY, Ohio, Feb. 4.—As Alexander Humphrey, manager of the Buckeye Glass company, was starting the works this morning three shots were fired at him by a crowd of four union men who had followed him. None of the shots took effect and the men escaped. There is a strike on at the works.

Manager Humphrey and nine employees were arrested today charged by an officer of the Glass Workers' union with unlawfully assembling with loaded Winchester and preventing citizens from speaking to go to work in the mill. All furnished bonds.

## GREENHUT WAS OUSTED.

Judge Grosscup Changed the Whisky Trust Receivership.

CHICAGO, Feb. 4.—Judge Grosscup today ousted J. B. Greenhut from the receivership of the whisky trust. He allowed Receiver Lawrence to remain in office as a representative of the directors and appointed Gen. John McNull as receiver-in-chief. John J. Mitchell was appointed another receiver to represent the New York stockholders. The decision accompanying the order was long and criticised Greenhut's actions.

## Is it the Chicora's Hull?

CHICAGO, Feb. 4.—The Dunham Towing company today sent a tug to South Chicago with instructions to make every effort to reach the point where the supposed hull of the missing Chicora was seen yesterday. Owing to the heavy ice it was thought that the chances for the tug reaching its destination were slight and the general opinion among marine men was that the object seen in the ice is not the Chicora's hull but a pile of debris.

## No Decision Today.

BROOKLYN, Feb. 4.—Judge Gaynor this morning has given out word to the newspaper men that he will not render any decision today on the application for an order to show cause why a preliminary writ of mandamus should not be issued to compel the Atlantic Avenue Railroad company to operate its lines of cars. This is the writ which was applied for by James O'Connell on Friday.

## Bandits Sentenced.

ALGERS, Feb. 4.—The notorious bandit Areski and nine of his followers have been condemned to death. Five other members of the band have been sentenced to terms of penal servitude.

## SECRETARY'S REPORT

Annual Report of C. F. Johnson Presented to the Chamber of Commerce at Saturday's Meeting.

The Financial Condition is Presented, the Work Reviewed and Some Changes in Administration Advised.

H. H. Phelps Presented His Bill for Reducing Fees of the County Clerk's Office—Other Matters.

The chamber of commerce held a special meeting on Saturday and unfinished business was transacted. H. H. Phelps presented a bill reducing the fees charged by the clerk of the district court which it is proposed to introduce into the state legislature. The bill affects counties having populations of from 10,000 to 100,000. The bill was approved.

Secretary Johnson presented his annual report. He reviewed the work of the chamber and made a number of suggestions, one of which was that the chamber ought to receive aid from the council. Also that the financial affairs of the chamber ought to be differently conducted. There are forty-three members in arrears \$81 for dues. The total receipts for 1894 were \$12,672 and there remains on hand \$10,450. The chamber's resources including unpaid dues amount to \$10,450 and liabilities \$28,000.

Mr. Johnson referred to the chamber's request to Maj. Baldwin for the passage of a bill placing the Minnesota gold lands under the operation of the mineral laws and his withdrawal of the same. No explanation has been received and Secretary Johnson attributes the active settlement in the Canadian provinces to the failure to pass this bill.

A number of matters in which the chamber has acted were enumerated, among them the following: protesting against the placing of iron ore on the free list; protest against the boundary of the Duluth customs district; introducing a bill for the relief of settlers in Rainy Lake lands; effort to have the government building given another story; urging establishment of assay office in Duluth; opposition to the Chickering bill; printing of report on labor arbitration; work in water works question; action in postal reform movement; saving the farmers' interests in the steamer to Owen Sound; enforcement of provisions of interstate commerce law; construction of a deep water canal Duluth to the Atlantic ocean; construction of a new lock at Sault Ste. Marie; appointment of Duluth member on state grain and warehouse commission; holding session of Farmers' institute here; recommending of non-action to help defeat income tax.

The report of the secretary was ordered printed. A. Hirsch read several letters showing that the people in North Dakota and along the line of D. W. Hines' proposed railroad have great faith in the energy and honesty of the promoter. The chamber will take further action in the matter. Senator Spencer has acknowledged the receipt of the arbitration bill and the bill reducing the royalties on iron ore. He favors both and will urge their passage. H. H. Crowley was elected a member and A. C. Batchelor's application was referred.

### VOICES OF THE STREET.

Lumbermen Like This Winter For Logging—

Joke on a Well-Known Winter.

"This has been an ideal winter for lumbermen," said one of them yesterday. "There is just enough snow in the woods to make good trails, and there is not more than would beget a lumberman's feet. A great deal of burned timber fell last fall and if there were three or four feet of snow it would be a great deal of trouble to get it out. It is just what we need and only be gotten out with difficulty if at all. As it is, there is no trouble, whatever. The light snowfall may make the streams a little low next summer, but that is something which cannot be anticipated now. Yes, sir, the conditions are ideal in every respect this winter. Provisions are cheap and everything is favorable."

The boys around the St. Louis lobby have a good joke on Dr. Barrett, J. H. James and D. T. Adams and they are not through laughing yet. They are not laughing alone, however, for the trio can see that it was a joke and are laughing also.

They are members of the Elks. Last Friday evening they decided to go to the regular session and called a backman. They climbed in and gave an order: "Take me to the lodge."

The backman drove for a while, drew up in front of a building, climbed down and announced: "Here you are."

One of the two looked out and did not recognize the place. "No we are not," said he. "What do you call a lodge?"

"Why, this is the A. P. A. lodge. Isn't that where you wanted to go?" said the driver.

The answer convinced him in a manner not open to doubt that it was not and his passengers were finally deposited in the right place.

The Single Standard.

S. F. White argued last night for a "Monometallic Basis for Our Money." It was an argument for a gold standard. He considered the use of silver in small denominations desirable and feasible. The paper was argued after its reading and a number of those present participated.

### RECENT LAND DECISION.

Tribute by Secretary Smith to the Energy of Mrs. Guertin.

The Herald's Washington dispatches announced a few days ago that Secretary Smith had denied the motion of Joseph Anderson for a review of the decision in Mrs. Delina Guertin's favor in her contest against the Anderson entry. The land is in section 35-6-12, near Lily. The decision should be reviewed turned on the question of whether or not Mrs. Guertin was a deserted wife, and the head of a family. The motion alleges that she was not a deserted wife, but the secretary has that the record shows Mrs. Guertin had for several years supported herself and her children by her own efforts; that she was a woman of remarkable energy and overcame obstacles that few women could have successfully combated.

The secretary confirms John Orfield's right to a homestead on section 26-5-10, St. Louis county, as against the claim of Lars O. Nordstrand. The latter claimed prior settlement on the same land, but by proxy. His son-in-law, Seven Thompson, scored one tree and slashed a little brush. The secretary holds that the act of setting a tree is a purely ministerial act and cannot be performed by another in the absence of the claimant.

The appeal of Benjamin Wark from the rejection of his application to enter under the timber and stone act, tracts on sections 13, 10, 17 and 18-6-10, Lake county, is dismissed and the holding made by Commissioner Smith that tracts entered under this act must be continuous is approved.

### A CHURCH BURNED.

Norwegian-Danish Lutheran Church Destroyed by Fire Yesterday.

The First Norwegian-Danish Evangelical Lutheran church, on the corner of First avenue east and Third street, caught fire in the basement, probably from the furnace, about 1 o'clock yesterday afternoon. The fire spread rapidly and the blackened walls. The fire department was early on the scene, but the water pressure was very light, and the fire was not extinguished until it had burned within the walls and floors, it was hard to fight.

The neighboring houses were preserved from harm, although one was within four feet of the church. The church is practically a total loss except for the foundation, and was worth about \$10,000. It will be reconstructed as soon as possible. The building was well covered with insurance.

### THE CURLING MATCH.

Side Chosen by the Vice President Won Last Saturday.

The last match at Glen Avon Saturday afternoon and evening was a decisive of a great deal of sport. The side chosen by the vice president, W. P. Lardner, was victorious by eight points and the president's side has issued a challenge for another match. Following are the skips and scores:

Vice President, W. P. Lardner, 17, against E. S. Palmer, 17. Captain, H. H. Crowley, 15, against J. H. James, 15. Captain, H. H. Crowley, 15, against J. H. James, 15. The first skips are on the president's side and the second on the vice president's side. The scores were: Lardner, 62; vice president, 70. In the evening a Duluth rink under Harry Hurdon and a Superior rink under William Mackenzie played resulting in a victory for the Duluth rink by a score of 10 to 8.

### January Weather.

The mean temperature of January, according to Observer Kenney's report, was 5 degrees. The warmest day was Jan. 21, thermometer 15 degrees below zero and the coldest was 20 degrees below on Jan. 30. The wind rose to thirty-five miles on Jan. 21, the highest velocity being from the west. The prevailing direction was southeast. The total precipitation was .075 inches. There were thirteen cloudy days, eight partly cloudy and ten cloudy.

### Must Bring a Dish.

On Wednesday evening there will be a dish social at the Young Men's Christian association rooms. Each lady who attends is expected to bring a dish to be added to the stock of refreshments. The ladies of the auxiliary will serve a supper. An athletic program will be given in the gymnasium. A game of basketball will be played.

### WHY?

QUESTIONS WOMEN ASK

Here Answered with Good Sound Reason.

(GENERAL TO OUR LADY READERS.)

Why do people say that Lydia E. Pinkham's Vegetable Compound, effects cures beyond the physician's skill?

Because of the fact that a woman best understands a woman's ailments. What man ever suffered from a woman's ailment? A woman's ailments are not a mystery to her. She knows her own body. She knows her own mind. She knows her own soul. She knows her own heart. She knows her own life. She knows her own death. She knows her own resurrection. She knows her own glory. She knows her own kingdom. She knows her own power. She knows her own might. She knows her own strength. She knows her own wisdom. She knows her own knowledge. She knows her own understanding. She knows her own insight. She knows her own perception. She knows her own intuition. She knows her own inspiration. She knows her own revelation. She knows her own manifestation. She knows her own demonstration. She knows her own confirmation. She knows her own approval. She knows her own assent. She knows her own consent. She knows her own agreement. She knows her own accord. She knows her own harmony. She knows her own concord. She knows her own agreement. She knows her own accord. She knows her own harmony. She knows her own concord.

Why do tens of thousands of women who are suffering from various ailments, tell their most secret thoughts?

Because they know that their letters go straight to the hands of a woman, are opened, read and answered by a woman, who has a woman's heart and a woman's life, and who can sympathize with them, and cure cases which the doctor cannot.

The lady who asks that the following letter be published, gives concretely the uniform expression of gratefulness contained in thousands of other letters in Mrs. Pinkham's possession.

"For eight years I suffered with neuralgia of the womb, backache, severe pains all through my body, and kidney trouble. None of the doctors did me any good. I took twelve bottles of your Compound, and cannot thank you enough for the relief I found."

"I am now well cured of all these troubles, and should advise every woman to take Lydia E. Pinkham's Vegetable Compound, who has any female trouble. I had a friend who was so weak and nervous, and who did her first try to the Compound. She said, and is now so much better and stronger, that she would give the Compound to all the women in the world. S. J. Cusson, the lumber inspector, arrived today from Marquette, Mich.  
Horace V. Winchell arrived from Minneapolis this morning.  
Edgar W. Camp, of Jamestown, N. D., is at the St. Louis.  
W. W. Wright, of Swan River, is in the city.  
D. M. Gunn, the Grand Rapids hotel man, was in the city today.

To the Voters of Duluth: I hereby announce myself as an independent candidate for the position of comptroller of Duluth. WILLIAM G. TENDRICK.

WANTS IMPROVEMENTS.  
President Davis Hopes the Council Will Provide for Some.

Said President Davis of the board of public works this morning: "I am rather hopeful that the council tonight will order us to advertise for bids for improving and opening Sixth street. There seems to be no new opposition to that and I think much that has been shown can be convinced away. No one need pay a cent on assessments until next October and then they can make their payments on the five-year plan and avoid any seeming hardships.  
"Then, too, the saving in cost is a great item. The estimate made in 1893, was \$100,000. It may be possible to do it for \$50,000 now. It ought not exceed \$50,000 anyway."

O. C. Hartman received a cablegram today from his brother, A. W. Hartman, at Ponto Delgado, island of St. Miguel in the Azores, where the First-Bismarck touched yesterday.  
A marriage license has been issued to Fred Anderson and Aina Yuntilla.  
The Duluth Orchestra society will have its regular rehearsal this evening. A. W. Frick was showered with congratulations on the board of trade today. He is the proud father of twins born yesterday.  
A son was born on Saturday to Wilhelm and Ellen Elstrand, of 113 West Fifth street.

Will Celebrate Her Birthday.  
The thirty-third birthday of Mrs. Betsy Eaton will be celebrated at the First Methodist church this evening by the members. Mrs. Eaton is the oldest member of the church. Carriages will be furnished by the young people to convey the older people to and from the church.  
Hundreds read Herald want ads daily.

## CLOSE OF THE BATTLE

Final Strokes Being Put in by All the Candidates For the City Offices Today.

Example of the Consistency of Page Morris Who is Now Stumping For Partisan Politics.

Some Friends of Congressman-Elect Towne Do Not Like His Course in This Campaign.

Tomorrow is the day for the municipal election. This is the last day for log rolling and button-holing and all hands are taking due advantage of it. The attorneys are working like heroes for DuBell and Hunt and the hustlers of the best lawyers in the city are strongly supplemented by friends and laymen in general from all parties. Those foremost in the fight say that they are both encouraged and satisfied with the outlook today.

Both Voss and Ten Brook are out today putting finishing touches to their vigorous canvass. Both are hopeful and confident and their workers say that things are looking very rosy and bright indeed.

There is any amount of money offered on both Voss and Ten Brook but, so far, all the spoilsmen feel as dubious as Mr. Getty himself and are afraid to put up any money on the result.  
Said Col. A. J. Barlow this morning: "You know I promised you that I would have that hyacinth planted in that old shoe in the window, in bloom for the convention. Well, I did not do it and Ten Brook failed to get the regular Republican nomination. When I came down this morning that hyacinth had spread apart its green leaves and right in the center was a pale blue blossom. She has bloomed for election and will be going to be re-elected if the count knows herself and she thinks she does pretty well. We killed a chicken this morning and, according to the 'wards' the count is all right. We're going to have the fowl for dinner today, too."

There was a meeting in Turner hall Saturday night in the interests of the independent ticket and Theodore Krumseig, who is opposing his fellow Republican, C. E. Evans, in the Second ward. The hall was filled to the doors and was noticeable for the great amount of enthusiasm. That is in marked contrast to the meetings of the partisan spoilsmen. They have small audiences, windy speeches by men whose hearts, in many cases, are only half in the work and an absence of genuine spontaneous enthusiasm.

Some of the voters are picking flaws in Mr. Chapman's campaign songs. "If he ruined his health in the army and then in the bank, so that he was unable to perform his duties, how does he think he can manage the treasurer's office? We don't want any sick man in that office just yet. If, on the other hand, he has his health again, why don't the bank that showed such an appreciation of his service, so he claims, take him back to work?" These arguments of his don't hang together. I suppose it is what the old News Tribune would call "aud-slinging" to say that, but it is so.

Some Morris Consistency.  
Another critical fellow has this to say: "When Page Morris nominated Ten Brook in the Republican convention he said: 'Any change in the office will present time wasted for a calamity.' Now, in his stump speeches he says, 'There should be a change in the office of comptroller.' Now when did he say really what he means?"  
A legion of Ten Brook-Voss Republicans are much disappointed in the stand C. E. Evans has taken in the campaign. While they do not fear to mind his arguments they do think that as a congressman-elect he would show more sense and better taste by keeping quiet.  
The bosses whom he is trying to please are not the only ones who helped him win in his fight last summer. Many of the supporters of the non-partisan ticket gave him time, influence, support and money and they feel that he may be glad to man-elect they feel that he has lowered himself, shown poor judgment and an unfaithful spirit to many of his strongest supporters.

Policemen's Ball Tonight.  
The annual ball of the policemen will be given this evening at the Spalding hotel and will be an event of no small importance. A large number of tickets have been sold and the attendance will undoubtedly be very large. Hoare's orchestra will play and the committees in charge will see that the guests are all happily entertained.

It is Not Believed.  
The report that eight men had been frozen to death in the Seine River country is not believed. None of the people who came in from Tower today had heard anything of it and the story is evidently without foundation.

Deafness Cannot Be Cured.  
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedial. Deafness caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed, it causes a running, sore or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.  
We will give \$100 reward for any case of deafness caused by catarrh that cannot be cured by Hall's catarrh cure. Send for circulars.

## WINTER MARINE NOTES.

Immense Fleet to be Handled by Pickands, Mather & Co.

The fleet to be managed by Pickands, Mather & Co., the coming season will comprise the American Steel Barge company's twenty-seven whalebacks, eight Minnesota Steamship company steamers, the whalebacks Pathfinder and Sagamore, the steamer Kearsarge and a steel steamer and two steel schooners from the South Chicago yard. According to a conservative estimate this fleet will be able to handle during the season of 1895 at least 1,500,000 gross tons of iron ore. Under the contract with Pickands, Mather & Co. for the management of the whaleback vessels during 1895, the American Steel Barge company retains the right to have Capt. Alex McDougall make all appointments of masters and look after repairs.  
The cost of the two steel schooners built at South Chicago for the Minnesota Steamship company is given out as about \$105,000 each.  
According to the Marine Review the firm of Pickands, Mather & Co. is still fighting with builders for the construction of two steel steamers, each of 1,000 tons, as well as two large steel schooners.

## CHARGED WITH ASSAULT.

J. W. Kelly Pleaded Not Guilty to a Charge Brought by J. J. Musolf.

In police court this morning J. W. Kelly pleaded not guilty to a charge of assault and battery and his trial was set for 3 p. m. today. He also put up \$15 bail. J. J. Musolf alleged that Kelly struck him in the face with his fists and tore his coat in Jake Lewis' saloon.

The case against Charles O'Malley, charged with petit larceny, was dismissed on motion of the city attorney. It has turned out that O'Malley delivered the wood all right but that he did not place it quite where the purchaser wanted it, hence a complaint apparently wholly unwarranted.

John Sunberg, charged with vagrancy, pleaded not guilty and his trial was set for this afternoon.  
His Brother Burned to Death.  
George A. French left Saturday afternoon for Lakeville, having received the terrible news that his brother, C. H. French, had been burned to death at a young man's store caught fire and he went into the building to recover some articles and perished. He was one of Lakeville's prominent citizens and a young man being only twenty years of age. Mr. French was almost overcome by the sad news. It was his only brother.

Entertainment by Miss Sawyer.  
On Thursday evening Miss Adelaide Sawyer will give a dramatic reading and a musical entertainment at the Odd Fellows hall on Lake avenue, under the auspices of the O. O. F. The program will be given entirely by Miss Sawyer, except that Mrs. Emil Olland will sing several selections.

STILL ARGUING TODAY.

J. L. Washburn Made a Long Talk on the Hulet Will Case Motion.

The Hulet case is still on before Judge Moer today. Just at noon J. L. Washburn finished the long argument he has been making ever since Saturday morning and H. S. Mahon began his argument against the motion for a new trial, promising that he would not use more than an hour or two. It was not certain at noon when the trial of the remaining issues in the case could be completed. Mr. Washburn was arguing that he had a right to a ruling on the motion and a retrial before proceeding with the case, and Judge Moer had not made his ruling in the question.  
Mrs. Hulet, the appellant, was present this morning, still dressed in deepest mourning. A. A. Pence, of Chicago, who assisted in the trial of the jury issue, was also present. Mr. Washburn was accompanied by Judge Spencer and L. E. Judson.  
Tomorrow morning the grand jury will be charged and sworn in, after which it will probably adjourn until Wednesday. Judge Lewis will probably charge the jury.  
Wednesday will be devoted to the calling of the calendar and the hearing of motions, and Thursday morning the trial of jury cases will be commenced. Judge Ensign will call the calendar in Room 1, Judge Lewis will sit in Room 2, and Judge Moer in

## TOLD BY BLIXT

The Self-Confessed Murderer of Catherine  
Ging Took the Stand Today Against  
Harry Hayward.

Hayward Never Removed His Eyes From the  
Man, But Blixt Did Not Look at  
Him.

Blixt Described Having Witnessed the Note  
For \$7000 Given by Miss Ging to  
Harry.

The Same Night Harry Said to Him That  
He Was Going to Kill  
Her.

MINNEAPOLIS, Feb. 5.—The mass of  
preliminary evidence in the trial of Harry  
Hayward for the murder of Catherine  
Ging having been cleared away, the  
state this morning sprung a surprise by  
placing Claus A. Blixt, the self-confessed  
tool of Hayward, on the stand. He  
seemed calm enough as he was led into  
the court room between two officers.

Hayward had evidently not expected to  
see his alleged accomplice so soon, but  
he simply looked mildly astonished as  
the junior of the Ozark flats took a seat  
near him. But he betrayed no uneasiness  
or dislike for the man.

Blixt sat with his hat on his knees and  
his hands crossed over it. His wife sat  
near him, looking very pale and apprehensive. The murderer himself appeared to be in good health, and so far as  
external appearances go was not perturbed. The case of the state against  
Blixt had been set for today, and it was  
generally supposed that he had been  
brought into court that it might be reset.

There was a murmur of surprise there-  
fore when County Attorney Nye at the  
opening of court called in a clear voice,  
"Claus Alfred Blixt."

The state's main witness walked firmly  
to the desk and took the oath with hand  
held high above his head. The attitude  
seemed almost one of defiance, and his  
facial expression detracted nothing from  
this impression. He mounted the witness  
stand and sat composedly with his  
hands crossed in front of him, evidently  
a characteristic attitude. Hayward never  
removed his eyes from the man, gazing  
intently at him and seemingly endeavor-  
ing to read his purposes. But Blixt  
looked anywhere and everywhere rather  
than at Hayward. Mr. Nye first drew  
out some information as to his antecedents  
and to his employment as janitor to the  
Haywards.

In answer to questions from Mr. Nye,  
Blixt related how for six or seven weeks  
before the murder Harry Hayward was  
accustomed to come down into the en-  
gine room and have long talks with him.  
Blixt pointed out the rooms on the dia-  
gram of the flats, where they were ac-  
customed to talk, and went on to say  
that along in November Hayward began  
to talk to him about doing some outside  
work in a newspaper case.

This brought an objection from the  
defense and the court ordered the state  
to make a foundation for the introduc-  
tion of such testimony.

Accordingly the examiner took up at  
once the Ging matter. Blixt described  
how he had witnessed the note for \$7000  
given by Miss Ging to Hayward. He  
said he had been instructed by Harry to  
say, when he saw the pile of bills, "Jesus  
Christ, what a lot of money." The note  
was offered in evidence and was found to  
be dated Nov. 24, nine days before the  
murder.

That night in the basement of the  
Ozark, Harry had said to him: "I am  
going to kill her. I didn't let her have  
\$7000. It was only \$2000. I am going  
to take her around to the engine room  
here and gamble as high as \$1000 on  
her. I am going to take her to a restau-  
rant and have her show the money and  
tell her how much she has."

"Afterward," continued Blixt, "he told  
me that he took her around to a restau-  
rant and made her show the money and  
placed it in a tumbler while she ate, and  
some one else told her she'd be killed  
for her money."

"Did he say anything more?"  
"Yes," he said he was going to have her  
life insured and then kill her. He said  
he was going to drive out and find a  
place where there were some rocks and  
throw her on the rocks and then they  
would think it was a runaway. He  
wanted me to go to St. Paul and get an  
overcoat, a slouch hat and a revolver  
like the one he had. I said I wouldn't do  
it. One day Harry came into the boiler  
room with a piece of T rail four feet long  
and wanted me to cut it in two. I said I  
couldn't do it, but a man showed me how  
and I did it. Harry took the shorter  
piece, put it under his coat and went up  
stairs. Afterwards I showed the officers  
where the other piece was."

This piece of rail was offered in evi-  
dence, and identified. Blixt continued:  
"He wanted me to go out somewhere  
and get a hitched horse. He said he  
would drive out somewhere with Miss  
Ging. He would drop some money out  
of the buggy and get her to get out.  
Then he would strike her on the head  
with the T rail and leave her there and  
start the horse to run away. He wanted  
me to make a list of all the things he  
had in his pockets when he went, so that  
he should not lose anything while away  
that would turn up against him."

That was the Saturday night before.  
The next morning he came down and  
asked me if I ever heard of people get-  
ting killed in elevators. I said I had.  
He said he would get in an elevator  
with her and strike her on the head, and  
then put her on the floor, so that when  
the elevator started it would cut off her  
head."

At this there was a low murmur of  
horror that ran through the assembly,  
which was checked by the deputy's  
gavel.

"I said I wouldn't do that," went on  
Blixt. "Hayward said that every time  
Miss Ging came into his room and put

her arms around his neck, he wanted to  
stick a knife into the back of her neck,  
and Blixt, with an expressive gesture,  
showed how Harry wanted to stab the  
woman.

"I said to him, 'Harry, can't you make  
money some other way? This is the  
awfullest thing I ever heard.' He said,  
'You're a coward. Your conscience is  
burning you. If I had her and a dog, I'd  
shoot her and leave the dog.' That even-  
ing he came down with her to the boiler  
room and showed her things. That  
morning, about 11 o'clock, he handed me  
his watch, a box of cartridges and a roll  
of money, and told me to hide them in a  
tin box, so that if he was arrested they  
would not be found. The watch was  
gold, and he said there was \$50 in money  
there."

"I put it in the attic and when I told  
him where I had put it, he called me a  
fool and said that was the first  
place they would look for it. He said to  
put it in a hollow tree in the woods. He  
said the money was not all good, but  
that some of it was green. He said  
there was going to be a funeral  
there before the 10th, no matter how it  
happened. He says: 'Of course she'll  
be brought in here and I'll be so sorry I  
won't have to sit up all night with the  
corpse and after the coroner has had his  
examination then I'll go East with the  
body.' He said he had to have \$15,000  
to carry out his plans in the East. He  
would get \$10,000 out of this and he  
would have to make \$5,000 in some other  
way. He said that evening he came in  
with a pint bottle of whiskey."

"He said 'Blixt, here's some whiskey.'  
I said I did not want any. 'You —  
fool,' he said, 'this ain't common whiskey.'  
Then I took it and drank half of it. Then  
he said 'She's got to die tonight, and  
you've got to help.' I said 'Harry, ain't  
you got no other way to make money  
than to kill that poor little girl?' He  
said: 'It's nothing to kill people. I've  
killed two other people.' He said one  
was a Chinaman, but he didn't say who  
the other was. He said he had wounded  
a third. I said I couldn't help him do it.  
He said 'I'd got to or he would kill me.'  
Then he said 'he'd kill my wife. I  
told him 'whatever you do, don't hurt my  
wife. You can do what you like with me,  
but don't touch my wife.'"

At the recollection of this the witness  
broke down utterly and sobbed like a  
child. At last, resuming his narrative,  
Blixt said:  
"Finally I said to him that I would do  
as he liked, but he must not hurt my  
wife. He wanted me to sign a receipt  
for a revolver, but I would not. He  
gave me six long cartridges and six  
short ones to put in it, and after it was  
all done I was to change the cartridges.  
Then he told me to go out Hennepin  
avenue to Kenwood and wait for him.  
When he came I was to follow him.  
Pretty soon I saw him coming across a  
lot and I followed him."

"Then he stepped the buggy and I  
came up and he told me to get into it  
and drive along. I got in and he said to  
keep our heads inside. Then he said to  
turn right on Hennepin, and then he said  
"Then we drove out Hennepin and  
didn't see him again until afterwards.  
I was buying green goods. I told her  
I didn't know. She asked me what I had  
done there by my side, and I said it was  
a revolver that Harry told me to take."

She kept looking out all the time, and  
I kept thinking. It was a fight in my  
head all the time. I thought I would  
shoot out the mouth of my wife  
and stayed in the buggy. I tried  
times to do it and it was always fighting  
in my head. Finally I fired the shot.  
I was where I should. Then she threw  
her head back like this. I went on  
about thirty or forty yards further and  
then I thought I'd have to get her out  
then she fell. Then she went on her  
so, and struck her head on the wheel  
and then she went over on the ground."

The action accompanying this recital  
was very dramatic, as the witness with  
uplifted hands threw his whole body for-  
ward as though falling. He then told  
how he returned from the scene of the  
murder and went to South  
Minneapolis to establish an alibi and at  
last returned to the Ozark.

THAT HYDROGRAPHIC OFFICE.

Duluth Will Not Get One From the Present  
Congress.

WASHINGTON, Feb. 5.—[Special to  
The Herald.]—The house appropriations  
committee decided they cannot make a  
favorable report on Representative  
Baldwin's bill for the establishment of a  
hydrographic office at Duluth for the  
reason that it carries an appropriation,  
which they desire to make a record for  
economy at this session. In view of the  
strong report of the hydrographic board,  
however, this bill can easily be put  
through at the next session.

Representative Baldwin today pre-  
sented a petition of the business men of  
Duluth urging the passage of some such  
financial legislation as outlined in Presi-  
dent Cleveland's message.

An original pension was today granted  
to John W. Moore, of Osego, and an addi-  
tional pension to Curtis Rowan, of Maple  
Lake, Minn.

A patent was today issued to Lewis E.  
Paddock, of Duluth, for a time recorder  
on ticket stamp.

Tobacco Warehouse Burned.  
CINCINNATI, Feb. 5.—The Bodman  
Leaf tobacco warehouse, a large struc-  
ture on West Front street near the  
northern end of the suspension bridge,  
caught fire in a mysterious way at 6:30  
a. m. and is now in ruins, nothing but the  
walls standing. The place was full of  
valuable leaf tobacco in bogsheads, all  
of which was destroyed. The loss on  
stock is estimated at \$240,000, and on  
the building \$60,000.

## STATE SOLONS

Henry Dillery Wants \$3000 For Injuries  
Received in the Militia Service From  
a Vicious Horse.

Resolutions Adopted For Investigating Grain  
and Coal Rates and the Rates of Ex-  
press Companies.

Bill Introduced By Mr. Cant to Repeal  
Special Law as to Western Land  
Association.

Senate Judiciary Committee to Report the  
Time When the Terms of Surveyor  
Generals Expire.

ST. PAUL, Feb. 5.—The claim of Henry  
Dillery, of Battery A, for \$3000 for in-  
juries sustained in the militia service, was  
read in the house this morning and sent  
to the claims committee. Dillery was  
kicked by a vicious horse. The report  
of Public Examiner M. D. Kenyon of  
the condition of the state savings banks  
was read and referred to the banking  
committee. Henry Johns, from the pub-  
lic accounts committee, favorably re-  
ported the senate bill to transfer \$50,000  
from the state text book to the revenue  
fund. An attempt was made to pass  
under suspension of the rules, but ob-  
jection was made and the bill will follow  
the usual order.

The grain and warehouse committee,  
through Chairman Gibbs, favorably re-  
ported H. F. 178, exempting 100 bushels  
of wheat from attachment, and H. F. 124,  
transferring funds from the seed grain  
fund to the governor's fund and recom-  
mended indefinite postponement of H.  
F. 8, relating to the inspection of grain.  
Mr. Jacobson, from the legislative ex-  
penses committee, reported the resolu-  
tion for an investigation of alleged dis-  
crimination in grain and coal rates with  
the recommendation that the committee  
be required to report within thirty days.  
The resolution for investigation of ex-  
press rates was also favored by the same  
committee. The sizes of both investi-  
gating committees were increased from  
three to five members. Both resolutions  
were adopted.

Clerks were allowed to the committees  
on railroads and appropriations, the  
former being also required to serve on  
the committees on municipal legislation,  
agriculture and grain and warehouses.  
The legislative expenses committee re-  
ported adversely several resolutions for  
additional employees and the reports  
were adopted.

The resolution in favor of the appoint-  
ment of old soldiers was reported with  
out recommendation, the committee  
holding that it was a matter that should  
be left to the house for decision. Mr.  
Gibbs moved that the resolution be  
adopted, but enough members were not  
present to carry it and it was laid over.

The speaker had ruled that the report  
"without recommendation" was an ad-  
verse report and therefore requires a  
three-fourths vote. Although there was  
considerable doubt expressed as to the  
correctness of his position no appeal was  
taken, even though the speaker invited  
it. The wording of the house rules makes  
the decision valid, although under other  
circumstances it would not be so. The  
following bills were introduced:

Mr. Cant, to repeal chapter 140 of the  
special laws of Minnesota for the year  
1871. The law to be repealed was the  
"act to authorize the partition of real  
estate of the Western Land association  
among the stockholders thereof." The  
purpose of the bill is to do away with a  
law that has served its usefulness. It  
went to the judiciary committee.

Mr. Johns, to amend general laws 1880  
relating to the probate code; allowing  
municipal court clerks to index records,  
Judiciary.

Mr. Tallman, amending the state con-  
stitution to allow loaning of the per-  
manent school fund within the state,  
Judiciary.

Mr. Maillette, appropriating \$3000 for  
a bridge across Rum river in Mille Lacs  
county. Roads and bridges.

Mr. Rice, for the relief of Henry Dil-  
lery, whose petition was sent to the  
claims committee this morning. Claims.

Mr. Schurmeier, to provide for issuance  
of certificates of indebtedness by cities  
of over 10,000, in amounts not exceeding  
\$50,000 in any one year. Municipal  
legislation.

Mr. Wright, amending general laws of  
1893 granting powers to cities to issue  
bonds. Judiciary.

## Tuesday, Feb. 5th

A wife gave her husband a sealed letter, begging him not to open it till he got to his office in the T— building. When he did so, he read:

"I am forced to tell you something that I know will trouble you, but it is my duty to do so. I am determined you shall know it, let the result be what it may. I have known for a whole week it was coming, but kept it to myself until today, when it has reached a crisis, and I cannot keep it any longer, for you must reap the results as well as myself. I hope it won't crush you."

Here he turned the page, his hair slowly rising.  
"The coal is all used up. Please call and ask for some to be sent up this afternoon. I thought, by this method, you would not forget it."

LITTLE ROCK, Ark. Feb. 5.—A case  
similar to the famous McGarraban claim  
is called to notice by the death in this  
city of Mrs. Josephine Clark, wife of a  
well known Missouri Confederate, Henry  
E. Clark, deceased. She came to Little  
Rock several weeks ago to prosecute  
before the legislature the claim of her  
husband for \$31,000 against the state of  
Arkansas, dating back to the beginning  
of the late war. Gen. Clark died in Lit-

## THE CAPITAL GOSSIP.

Postal Officials Hope to Have Postal Cars  
On All Trolley Lines in Large  
Cities.

Street Car Companies Do Not Show a Desire  
To Give Progress to the Move-  
ment.

Treasury Department People Speak Highly  
of the New System of Accounting  
That Was Introduced.

WASHINGTON, Feb. 5.—The action taken by a trolley company in Chicago in ordering several postal cars, will be followed in other cities as soon as the street car companies manifest a disposition to co-operate with each car is to be reserved as a smoking compartment and the company is taking the step at its own risk, as no agreement as to compensation has as yet been made by the Chicago postoffice.

Postal officials hope to have the scheme in operation in all the large cities of the country within a few years, but the street car companies as a rule have not shown a disposition to give material progress to the movement. Boston is expected to be one of the first cities where the scheme is to be operated, and in Brooklyn it is already in vogue to some extent. The postoffice department expects to have a general extension of the movement so as to include the principal cities, but material advance in this direction will not be accomplished for a considerable length of time.

The official inspection of the customs houses on the Mexican border and the lines on which the work is being ordered by the civil service commission, has been concluded and Civil Service Commissioner Lyman, who made the tour, has returned to the city. The inspection occupied several weeks. Officials of the treasury department have had much to say about the opportunities for fraud and mismanagement presented by the new system of accounting which was inaugurated as a result of the investigation by the experts of the civil service commission. Their view is not endorsed by the present authorities of the department who have supervision of the work. Assistant Secretary Hamilton has said that it has been a matter of great surprise and satisfaction that such radical changes could be made with so little friction and trouble, that the new system is already working smoothly and that many advantages from it have been made apparent since it went into operation.

Commendable improvement which he points out relates to the accounts of disbursing officers. Formerly advances were made to these officials simply upon their accounts, but the new regulations require that no advances be made until their former accounts have been audited and the auditors have full evidence as to their standing.

"Under the new system," says Mr. Hamilton, "no safeguards of the treasury have been taken down, on the contrary, the careful supervision and close check upon the disbursing officers of the government by the auditors afford the greatest possible check on expenditures that can be devised."

"No system of accounting can be devised that will absolutely protect against possible corruption in the administration of affairs, nor did the system prior to Oct. 1, 1894, prevent irregularities in the

masked men relieved the passengers of their valuables.

PUEBLO, Colo., Feb. 5.—The Western express on the Atchison, Topeka & Santa Fe road, train No. 1, bound for Colorado and California, was held up one mile west of Sylvia, Reno county, Kansas, at 11:25 o'clock last night by four masked men, who signalled danger. Two of the robbers covered the engineer and fireman with guns and ordered them to stop the train. For some reason, however, they failed to effect an entrance and then went to the coaches and made the passengers give up their valuables. The train was held for an hour and ten minutes by the robbers, who then rode south. Conductor McGraw ran the train back to Sylvia, where the alarm, and Sheriff Patton was on the trail with his posse in a few minutes. The men are believed to be members of the Stafford gang. One of the robbers who was with the train is described in height as five feet nine inches, and wore a wide-rimmed grey hat. The other man was tall and wore a macintosh.

THE PUBLIC CAN MAKE A BID.  
Syndicate Found to Take Up the New Bond Issue.

NEW YORK, Feb. 5.—On reliable authority the Press today announces that the new bond issue will be taken up by a syndicate composed of American and foreign bankers. The issue will be at least \$100,000,000 of the United States government bonds and may be more. The men who will underwrite the new issue are the Rothschilds, represented here by August Belmont, J. Pierpont Morgan and several prominent local financiers who are the head of big moneyed institutions in this city.

The Press also learns from trustworthy sources that there will be an open bid on the bonds. Inside advisers are about the local financiers will take about \$50,000,000 of the new loan and the remainder will go to foreign houses.

administrative branches or secure their detection by the accounting officers. For instance, the Burnsides frauds, amounting to \$30,000 in the postoffice department; the Star route frauds; the horse class frauds in the department of the navy; by disbursing clerk Ewing; frauds in the navy department under the law authorizing the treasury to indemnify the survivors of wrecked vessels for the loss of personal property; the Howgate frauds and many others.

"None of these frauds were discovered by the comptroller but the knowledge of the irregularities came through either the auditor's office and some other source."

Under both the old and new systems, Mr. Hamilton continues, an official audit of accounts and claims is made in all the administration departments before they are sent to the treasury for audit. There is as complete an audit in each bureau of the department as would be required by any commercial house, and the new plan requires that after this audit all accounts shall be passed upon by an auditor, making a complete double check.

At the regular encampment of No. 60, Union Veteran Legion, last night, a resolution was introduced by Comrade William Howard Mills and unanimously adopted, as follows:

"That to perpetuate the three great principles of our order, 'fraternity, charity and patriotism,' and promote the interests of humanity, Encampment No. 60, Union Veteran Legion, extends the right hand of fellowship to R. E. Lee Camp No. 1, Confederate Veterans, of Richmond, Va., and to all Confederate veterans everywhere, and its assistance to secure an appropriation from congress for the establishment of a national park at Appomattox which shall be accepted by the veterans of the war of the rebellion in the light of another rainbow of promise for ourselves and our descendants, of the perpetuity of the united States of America, and as measures for the expenditure of the public funds must originate in the house of representatives we very respectfully request General Joseph Wheeler, Charles H. Grosvenor, Daniel E. Sickles and William W. Bowers, of the house of representatives and General John B. Gordon, of the senate, to confer together, to prepare and introduce such a measure as speedily as possible, and with their pleasure and convenience, and we ask the influence of the press of the United States of America to aid in the creation of a sentiment that shall secure the passage of such a measure during the session of the present congress."

That we request the national commander to invite every encampment of our order to pass resolutions in conformity hereto and every organization of the Union Veterans' union, of the Sons of the Revolution, of the Sons of the American Revolution, every command of the military order of the Loyal Legion of the United States, every camp and organization of the Confederate veterans, of the Sons of the Confederate Veterans, of the Sons of the Union and Confederate, and all patriotic organizations and societies of men and women to aid in the fulfillment of the desire expressed in the resolution adopted by R. E. Lee Camp No. 1, Confederate Veterans, of Richmond, Va., on Friday, Feb. 1, for the establishment of a national park at Appomattox, and speedily pass resolutions in advocacy thereof and transmit them to the members of congress for the districts in which they are located and the senators of their several states.

## THE ENGINEER FATALLY HURT.

Explosion of an Oil Tank Filled With Crude Oil.

BRainerd, Minn., Feb. 5.—The oil tank supplying crude oil for the large stationary engine at the Northern Pacific shops exploded about 7 o'clock last night, and as a result John Headman, the night engineer, was fatally injured and the tank and contents destroyed by fire.

The tank had a capacity of 35,000 gallons, but contained 12,000 when the explosion occurred. It was caused by the engineer entering the tank to clean out the tank with a lantern for the purpose of closing a valve. The engineer was so badly burned as to be unrecognizable. He was taken to the sanitarium.

## WILL MAKE AN INQUIRY.

The Corner at Lovell's to Investigate the Elbe Disaster.

LOWESTOWN, Feb. 5.—A mail bag marked "No. 1," belonging to the steamship Elbe, was found off Southwold this morning. An inquest upon the remains of Frederick Ernst, of Madgeburg, Prussia, the drowned passenger of the Elbe, whose body was landed here yesterday by the fishing smack Verona, was opened here this morning.

The coroner swore in a special jury and announced his intention of traversing all the facts in the case. The inquest was then adjourned until Feb. 26. The coroner is communicating with all the parties interested in the disaster.

## THE FRANCHISES RESCINDED.

Brooklyn Aldermen Take Action Against the Trolley Lines.

BROOKLYN, Feb. 5.—The Brooklyn board of aldermen at a meeting yesterday afternoon adopted a resolution presented by the representatives of the striking motormen and conductors rescinding the franchises and privileges of the Brooklyn trolley lines which are connected with the present strike. The vote stood 10 to 8.

One of the aldermen said the action of the board was not yet final, as the aldermen had no right to revoke the privileges granted to the roads.

## Refuse to Resign.

St. JOHN'S, N. F., Feb. 5.—Sir William Whiteway had not yet succeeded in forming a ministry. Messrs. Fox, Jackson, Dunphy and Gushue, who are slated to retire from office to make place for Messrs. Morris, Bond, Emerson and Tiesley, refuse to withdraw without being given an equivalent for resigning. The uncertainty is having a very depressing effect on business and financial circles.

## Business Session Continued.

TOLEDO, Feb. 5.—The village of Lepis, Putnam county, had its business session this morning in Mease & Cripe's grocery, and destroyed the two adjoining blocks, including the Townsend Opera house, not yet quite completed. The loss on this building is \$25,000; other losses \$50,000, with insurance covering one-third.

## A Hard Fought Suit.

HANNAH, Pa., Feb. 5.—Arguments in the celebrated case of Benzenette, Williams and others against the Chicago, Santa Fe & California Railway company, now in progress before Judge Schermer, the suit is for contract work done and involves \$200,000. The case has already consumed eighty days.

## Voided By Suicide.

KANSAS CITY, Feb. 5.—In an insurance case just decided by the circuit court of appeals, Santa Fe was declared to be cause of not paying a Masonic policy. The court reversed the Johnson county circuit court judgment of \$2000 against the Knights' Templar and Masonic Life Indemnity company.

## Shipped With the Stult.

KANSAS CITY, Feb. 5.—Frank Selmer, the common-law husband of Lillie Hobart, is mysteriously missing among the mail bags. Selmer was seen in the city at 11:25 o'clock last night by four masked men, who signalled danger. Two of the robbers covered the engineer and fireman with guns and ordered them to stop the train. For some reason, however, they failed to effect an entrance and then went to the coaches and made the passengers give up their valuables. ## A Fence Discovers.

ST. JOSEPH, Mo., Feb. 5.—For some time past a gang of robbers has been at work in this city and a large amount of goods have been stolen. Yesterday the police raided Sex Wah's laundry and opium joint, on Edmund street, and were astonished at the result. They found his place to be a "fence" and literally packed with stolen goods.

## An Immigration Measure.

WASHINGTON, Feb. 5.—A prominent feature of an immigration and naturalization bill introduced by Representative Linton (Michigan) is that requiring aliens expecting to emigrate to the United States to, at least, three months prior to embarkation, apply to the United States diplomatic or consular representative resident nearest their places of residence for a certificate of immigration. The representative of this government is to require proof that applicants are not excluded by any law of this country from emigrating thereto before a certificate is issued.

## Identically Established.

MARSHALL, Ill., Feb. 5.—The mystery surrounding the identity of the young man drowned here on Jan. 20, has at last been solved. Today his father, Henry Sims, of Hamilton, Ohio, who has been corresponding in regard to him, arrived and had the body exhumed and identified him as his son, who left home nine years ago and had not been heard from since.

## PARLIAMENT IS OPEN.

The British Parliament Was Opened This Afternoon With the Usual Speech from the Throne.

Offenses Against the Law in Ireland Are Said to Have Greatly Decreased Last Year.

The Customary Guy Fawkes Search Made to Guard Against Blowing Up the Parliament Buildings.

LONDON, Feb. 5.—The fourth session of the thirteenth parliament of Queen Victoria opened at 2 o'clock this afternoon. Previous to the opening of the session the lord chamberlain, Lord Carrington, accompanied by ten yeomen of the guard, four marshals, etc., and a number of policemen, made the customary Guy Fawkes search of the vaults of the houses of parliament in order to see that no preparations had been made to blow up the buildings.

In the house of lords, Lord Welby moved the address in reply to the speech from the throne, and Lord Battersby seconded the motion. In the house of commons, Mr. Hobhouse moved the address and Mr. Holland seconded it. The queen's speech was as follows:

"My lords and gentlemen: My relations with the foreign powers remain friendly and upon a satisfactory footing. An agreement has been concluded, after protracted negotiations, between my government and that of the French republic for the settlement of the frontier of my colony of Sierra Leone and the neighboring French possessions."

"I regret to say that the war between China and Japan still continues. I have maintained a close and vigilant interest in those regions and I shall lose no favorable opportunity in promoting a peaceful termination of the contest."

The estimates of the reports which have reached my government, of excesses committed by Turkish troops, regular or irregular, on Armenians in a district of Asia Minor, I thought it right in conjunction with other powers, to make representations to the porte."

The sultan has declared his intention of severely punishing any of his officers or soldiers who have been guilty of such acts and has sent a commission to conduct an investigation of the matter. Delegates from the powers which have consuls at Erzerum will accompany this commission."

"Gentlemen of the house of commons: The estimates will be submitted to you without delay."

"My lords and gentlemen: I am happy to observe the striking fact that the law have sunk, during the past year, to the lowest level hitherto marked in official records. I thought it right in conjunction with other powers, to make representations to the porte."

## What is

**CASTORIA**

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea—the Mother's Friend.

## Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ANGELL, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

CHARLES MARTIN, D. D., New York City.

THE CENTRA COMPANY, 77 MULBURY STREET, NEW YORK CITY.

## A COMPLETE RETREAT

Triumvirate of County Commissioners Concluded That They Made a Bad Mistake in the Patton Matter.

Judge Dickinson Argued Briefly and County Attorney Arbury Had Nothing at all to Say.

G. A. R. Veterans, Led by Col. Graves, Protested Against Discharging Two Old Veterans From Positions.

At yesterday's meeting the county commissioners inconspicuously retreated from the position in which they were placed by the action of three of their number, Commissioners Dinham, Helm and Swenson, in arbitrarily stopping payment on \$500 in county orders signed by County Surveyor Patton because he refused to turn over certain records which the commissioners considered belonged to the county. Judge Dickinson and Mr. Patton were present and laid the matter squarely before the board, while the members who passed that secret-session resolution looked uncomfortable and Commissioners Miller and Morcom, who had nothing to do with it, looked as though they were glad they were out of it.

"Mr. Patton's claims for December were presented," said Judge Dickinson, "and were properly audited and allowed. Consequently Mr. Patton was justified in supposing that he would be paid. At the last meeting this board passed a resolution revoking payment of these claims, based, I am led to believe, on the allegation that Mr. Patton has not turned over all the public records in his hands. Mr. Patton contends that these records are of surveys which were not official, and were his own private property. Has the board acted considerably in stopping these payments? It seems to me that it has made a mistake."

"Support for the sake of argument, that the board was right and Mr. Patton was withholding some public records. What is the remedy? It seems to me that the question is whether or not by a judicial decision. The action of the board was not a proper remedy to enforce the performance of duty. The claim which has been stopped has never been questioned and is a valid obligation. The proper way for the board was to bring mandamus proceedings, which would be cheerfully responded to. In short, Judge Dickinson told the board, only ever so much more politely, and in ever so much more honeyed words, that they had no business to do as they did, that they had overstepped their authority and that the safest course for them was to undo their mistake."

**Mr. Arbury Said Nothing.**  
When Judge Dickinson had concluded Chairman Helm turned to County Attorney Arbury, who was present at the recent session in which the resolution was passed, presumably by his advice and authority, and said: "Have you anything to say, Mr. Arbury?"

"Nothing," replied Mr. Arbury.  
Mr. Patton made a short statement in which he said that he had turned over all records to Mr. Davis, and the only question between them was whether or not he as county had a right to do private business. The claims which had been stopped by the board had been cashed by the Marine bank, and the result of the action of the board made an innocent party suffer.

Action in the matter was deferred at that time, but it is believed it was again taken up and the secret session resolution was rescinded and payment of the orders resumed. As the three members of the board who were present at the last meeting, recognize the fact that they "put their foot in it," they will probably be more considerate of their actions hereafter, even when they are sanctioned by the county attorney. It is but justice to Commissioners Miller and Morcom to state that they had nothing whatever to do with this action, and that both were absent from the meeting at which the orders were stopped.

**G. A. R. Men Protested.**  
The meeting yesterday was so largely attended that it became necessary to adjourn from the auditor's office to court room No. 3 to accommodate the crowd. Here another matter came up, and the blame for which must be laid at the feet of the same three commissioners, who used their offices to enable them to pay political debts, and, having a majority of the board, dictated each county appointment. Committees were present from each of the G. A. R. posts of the city.

## Money.

There is a great deal more trading, buying and selling, going on in Duluth today than the calamity howler would believe—not a day passes, hardly, without some sale of property being made at fair and often liberal figures. A few have faith now that all our tariff and currency and revenue troubles will be adjusted; after a while we will begin to see that we can maintain the same opinion. Property will bring more money than when it can be bought for now.

Fire insurance is again in good, reliable companies.

Money to loan at rates suitable to the security.

Good properties, business and residence, for sale—still cheap, but not at so low a figure as I would have sold a month ago.

headed by Col. C. H. Graves to enter a solemn protest against the action of the board in discharging John Russell and R. S. Cowden, night watchman and engineer of the court house and substituting younger men in their places.

After reading one of the petitions, of which there were three signed, by 250 G. A. R. men, Col. Graves spoke of the obligations of the country to the old soldier in general and the obligations of the county to its own old soldiers in particular. The fact that nineteen out of twenty old soldiers in the county voted the Republican ticket was mentioned as an argument to offset the services supposed to have been performed for the party by those now in the court house positions. He also alluded to a state law by which old soldiers are to be given the preference in all departments. No action was taken by the board and the petitions were placed on file.

**Virginia Residents Protest.**  
A committee consisting of O. D. Kinney, D. H. Moon and W. P. Mars, appointed by a mass meeting of the citizens of Virginia to secure if possible an abatement of real and personal taxes, appeared before the board and entered a decided kick. It was said by them that this year's taxes amounted to practical confiscation. Taxes which were \$160.32 last year were this year raised to \$230.00; lots taxed 6 cents last year were raised to 8 cents this year. Time was asked for a hearing. The matter was referred to the county attorney to determine the board's authority, and the date of hearing will probably be set and the protests entered in the usual manner.

A. F. Rockwell, overseer of the poor farm reported that the poor house was overflowing and recommended that the board build new or make additions. County Surveyor Fred Davis asked \$20 a month for rent. Both communications were referred.

The following standing committees were announced by Chairman Helm:

Highways and bridges: Helm, Miller, Swenson, Morcom and Dinham.

Poor and poor farm: Miller, Morcom and Dinham.

Court house and jail: Dinham, Swenson and Miller.

Claims and accounts: Swenson, Morcom and Dinham.

Taxes and assessments: Miller, Dinham and Swenson.

Supplies and purchasing: Swenson, Dinham and Morcom.

Legislation: Morcom, Miller and Swenson.

**Bids for County Supplies.**  
The bids for county supplies were opened but not passed upon. The Duluth Book and Paper company was the lowest on paper and general supplies. J. L. Thwing's bid for blanks was the lowest, and George D. Barnard & Co., of St. Louis, bid successfully for books.

The board adjourned to meet at 10 o'clock tomorrow morning. A committee appointed at the last meeting to interview the finances of the county will then make a report which will probably be referred to the board.

Yester's and the American Loan and Trust company will be touched upon, and the overdrawn condition of some of the county funds will be mentioned.

**AMUSEMENTS.**  
Lillian Lewis as "Cleopatra."

Miss Lillian Lewis, assisted by a capable company of actors, will present "Cleopatra" on a grand, spectacular scale at the Temple opera house tonight. Miss Lewis has introduced ballets, dances, the Egyptian scene, and time and other lights, living pictures, operatic choruses, solos, tableaux vivants and other pleasing effects into Shakespeare's production with open arms. The following is taken from the program: American: "Lillian Lewis presented Shakespeare's 'Cleopatra' at Alhambra's Lyceum last night to a large and delighted audience. If next we see magnificent scenery, clever actors and actresses, melodious choruses and graceful dancing is a criterion to go by, Miss Lewis will give us a fortune out of her grand production."

**It May Do Much For You.**  
Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe backache, and that he was almost blind. He tried many remedies, but nothing helped. He then tried Dr. Williams' Pink Pills, and found relief at once. He writes: "I am now well and strong, and my eyes are clear. I am a great believer in Dr. Williams' Pink Pills."

Ten days less of time on account of sickness and a doctor bill to pay, in anything but pleasant for a man of family to contemplate, whether he is a laborer, mechanic, merchant or publisher. James O. Jones, publisher of the Leader, Mexico, Tex., was sick in bed for ten days with the grip during its prevalence a year or two ago. Later in the season he had a second attack. He says: "In the latter case I used Chamberlain's Cough Remedy with considerable success. I think, only being in bed a little over two days. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy." It should be borne in mind that the grip is much the same as a very severe cold and requires precisely the same treatment. When you wish to cure a cold quickly and effectually give this remedy a trial. 25 and 50 cent bottles for sale by all druggists.

## IS SUICIDE A SIN?

Robert G. Ingersoll Says It Is Not.

What the Genial Philosopher Really Means.

Other Equally Eminent Men Differ From His Views.

A Question Involved Each of Us Must Decide.

A Letter of Powerful Interest to Our Readers.

The eloquent Robert G. Ingersoll, in a recent communication to the New York World, takes the ground that suicide is not always a sin. New York's most eminent lawyer, statesman and judge, immediately filled the columns of that paper with protestations against the great thinker's theory.

What Mr. Ingersoll really said and meant was, that under certain circumstances suicide was not a sin. For instance, he thought that in case of a person suffering with sickness and hopelessness of a cure, it would not be a sin to end such suffering by self-destruction.

Mr. Ingersoll's idea was the humanitarian one of arresting pain. But he forgot that it is often difficult—nay, impossible to draw the line when a disease is curable or incurable.

More suffering should not be a warrant for self-destruction. Countless cases of terrible, yet, excruciating suffering, have been cured even after all hope was lost, and doctors have pronounced the disease incurable. Many a sufferer from disease has been brought to the verge of suicide and afterwards recovered perfect health.

An estimable lady, Mrs. Lila C. Root, who resides at 36 Elm street, New Bedford, Mass., tells the following facts:

"I was very nervous," she said, "and my kidneys were in a terrible state, and I had awful pains in my back and side and could not sleep at night. My headache was a source of great annoyance, and I suffered much at certain periods. I cannot speak too highly of Dr. Greene's Nervura blood and nerve remedy, for it cured me of my terrible complaints. Why, I felt so miserable that I often thought I would take my own life. I thank God for directing me to this wonderful remedy. I deem it my duty to say that I think Dr. Greene's Nervura blood and nerve remedy the best medicine in the world."

Cased after case like the above might be cited, when all hope of cure had been abandoned, and the persons given up to die, and yet this wonderful medicine has brought back health and joy unto the stricken households.

It is just as much suicide to neglect one's health when slightly ill, or when apparently trivial symptoms arise, as to deliberately take one's life. To feel nervous, to have weak nerves, to feel listless, languid, to have headache, indigestion, constipation and dyspepsia, to pass sleepless nights, to wake tired mornings, to be ever so nervous, to feel weak and strength—these are the sure precursors of serious diseases, to be later followed by prostration and premature death.

Followed by prostration and premature death. Suicide is a sin, and it is suicide to neglect your health. Take this grand medicine, Dr. Greene's Nervura blood and nerve remedy, and you will feel well and strong. Take it because it cures; take it because it is a physician's prescription; the discovery of Dr. Greene, of 35 West Fourteenth street, New York city, the most successful specialist in curing nervous and chronic diseases, and who gives his great medicine free of charge by allowing all to consult him, free of charge, concerning their diseases, either personally or by letter.

**Celebrated Her Birthday.**  
The eighty-third birthday of Mrs. Betsy Eaton was celebrated last evening by the Epworth league at the First M. E. church parlors. There was a large attendance, a great many friends of Mrs. Eaton other than members of the church being present. A program was given, the recitation of a poem entitled "Grandma Eaton's Eighty-third Birthday," written by Mrs. Sylvester Toole. Songs were given by Mark C. Baker and Mr. Stephenson.

## Final Assessment

For Sprinkling Streets in District No. 3.

Office of the Board of Public Works,  
City of Duluth, Minn., Jan. 28, 1895.

Notice is hereby given that a contract has been completed for sprinkling Superior street from Ninth avenue east to Twentieth avenue east and London road from Ninth avenue east to Twentieth avenue east, in the city of Duluth, Minnesota; that the board of public works of said city will meet at their office in the city hall, in said city, on Saturday the 9th day of February, A. D. 1895, at 10 o'clock a. m., to make an assessment of the sum of six hundred and seventy (\$670) dollars and no cents upon the real estate benefited by such improvement, for the purpose of raising money to in full defray the expense thereof.

All persons situated in said city and to which benefits result from said improvement will be assessed in proportion, as near as may be, to the benefits resulting therefrom from said improvement. All persons interested in said property have the right to be present and be heard at said time and place in relation to the making of said assessment.

Dated January 25th, 1895.  
J. M. JONES, Mayor.

**ON THREE COUNTS.**  
"Fire Inspector" Frederick G. Cowie is indicted.  
The grand jury at Chicago made its final report to Judge Ewing on Saturday last and was discharged. In the batch of indictments handed in were three against Frederick G. Cowie "ex-fire inspector."  
Two of these charge Cowie with subornation of perjury, and one accuses him of conspiracy. These indictments are the result of the recent efforts of Cowie and several Chinamen to secure the conviction of Ah Sing and others charged with arson. The conspiracy charge is based on Cowie's oath on the witness stand and before the grand jury when the indictments were found against the Chinamen.  
Cowie is the man who came to Duluth after the fire in Levine Bros. store and tried to bolster up a false story that the fire was incendiary.  
Price's baking powder alone enjoys the distinction of being absolutely pure.

**SUPERIOR VICTORIES.**  
Y. M. C. A. and Zenith Polo Teams Defeated Last Evening.  
At Endon rink last night the Superior Polo club played and defeated both the Y. M. C. A. and the Zenith teams. The first game was with the Y. M. C. A. boys, and Superior put through a goal with one blow in a second, scoring the quickest goal on record. The second goal was made in ten minutes, and the third by the Y. M. C. A. team in sixteen minutes, leaving the score 3 to 1 in favor of Superior.  
Morrison and Fraser for Superior and Ellsworth and McDonald for the Y. M. C. A. team did the best work. A 20-minute game with the Zenith resulted in a score of 2 to 0 for the Superior team. The next game will be between the Y. M. C. A. and Duluth teams at Endon rink soon. There will be no game at Superior Thursday.

**DECIDEDLY COLD NIGHT.**  
This Year's Record Was Almost Broken Last Night.

The impression seemed to be general today that last night was the coldest of the season, but such is not the case. The thermometer fell to 26.3 below zero, while on Feb. 1 it fell to 26.8 below. The average temperature yesterday was 17 degrees below zero and the maximum reached was 20 degrees below. This seems pretty cold, but it is not a marker to what the Winnipeg people had to bear. The maximum reached there yesterday was 21 degrees below.  
A cold snap running over several days is not uncommon. On Feb. 1, 1893, the average temperature was 20 degrees below and to add to this disagreeableness it was snowing. A few days afterward the thermometer jumped to 50 degrees above. Helena is enjoying good weather for it is above there.  
The weather observer, Mr. Kenely, says it will be milder today and tomorrow, but the weather will be pretty snappy nevertheless.

**IS DECIDEDLY LIGHT**

Total Vote Cast Up to Noon Today Was Only a Small Percentage of the Registration.

Few Teams and Workers Are to be Seen on the Streets or at the Polls.

Everything on Garfield Avenue is for Dibell and Hunt, Was Telephoned The Herald at Noon.

This is election day and the fact that the mercury is down in the cellar seems to have a material influence on the voting. There was but little of the early morning voting and all the forenoon, with the thermometer close to 20 degrees below zero, the patriots who exercised their right of franchise were few and exceedingly slow. At 10 o'clock, the prospects were that if 60 per cent of the registration voted, the Hunt would be reached. After 12 o'clock, the ballots began to fall a little faster and late in the day, there may be quite a rush.

One feature of the day, up town anyway, is the almost utter absence of teams and workers from the street. The law enforcement officers are out, looking after the interests of the bar nominees.  
Right after dinner D. P. McMillan, who runs a boarding house near Fifth avenue west and Superior street, while considerably under the influence of liquor, electioneered within 100 feet of the polling place in the Second precinct of the Fifth ward, and conducted himself in a very obnoxious and disorderly manner. The judges had no idea that he was locked up at the Central police station.  
Some of the polling places were decidedly chilly. In the Third precinct of the Fourth ward, one of the booths bore a card printed in big letters, "Vote at the North Pole."

Shortly after 1 o'clock, a Herald reporter called on several polling places in the Third and Fourth wards. In the Second precinct of the Third ward, 467 were registered. Only 126 had voted and the judges had no idea that more than 250 votes would be cast.  
In the Fourth precinct of the Fourth ward, the registration was 252 and only seventy-four votes were cast.  
At 1:30 p. m. only 43 votes had been cast out of a total registration of 321.  
Up to noon in the Fourth precinct of the Sixth ward about ninety votes out of a total registration of 250 had been cast. At 2 o'clock The Herald made inquiry at the West End by telephone and the response was made that the voting was light and that everything on Garfield avenue seem to be going for Dibell and Hunt.

Perfect results in cookery confirm the analysis that Price's baking powder is absolutely pure.  
**REVERSED THE DECISION.**  
Board of Appeals of the Board of Trade Reversed a Decision.  
The board of appeals of the Duluth board of trade has reached a decision in the matter of the proceeding begun by the Listman Milling company against the Belt Line Elevator company.  
The former bought wheat stored in the latter's elevator and when the handling charges were reduced they wanted the benefit of the reduction. The board of appeals of the board of trade decided for the milling company and it was appealed. This decision is reversed by the board of arbitration.

**The Ball Not Responsible.**  
The morning paper stated that forty special policemen were put on last night so that the regulars would not be disturbed by the annual ball. Chief Armstrong and the men take exception to that. The specials were put on for election purposes, as is always the custom, so that the regulars need not be on duty two days and two nights in succession. Some of the regulars took advantage of the fact that the ball but the affair had nothing to do with putting on a single special.

**THE POLICEMEN'S BALL.**

Large Crowd Present and a Happy Time Was Provided for Everyone.

The annual ball of the policemen was given last evening at the Spaulding and was a huge success in every way. There were fully 400 people present and the dancing floor was filled for every number. Hoar's orchestra played and the music was superb.  
The grand march was played at about 9 o'clock and was led by Chief Armstrong and Mrs. Armstrong with Mr. and Mrs. Paul Sharpy immediately following. Mayor Lewis, the head of the whole force, was suilling and shaking hands until a late hour.

**RAINY LAKE GOLD REGION.**

Lots of Machinery Being Put in and Development Pushed.

The busiest place in all the Rainy Lake gold fields at present is at the Lyle mine, on the American side, adjoining this city. The present state of development indicates that it is one of the greatest gold mines ever discovered and gives every indication of being a bonanza.  
In the hands of good men, the Ward brothers and Otto Watke, all hustlers, backed by ample capital, and they will get out all there is in the property.  
The mine and the mill was put in last week. The company now have complete machinery for operating the mine, consisting of one 20-horse power boiler and engine for the mill, one 35-horse power boiler and engine for the steam pump and steam boiler; and one 35-horse power boiler and engine for the stamp mill. It is new and the latest improvements.  
George Randolph, who keeps a stopping place at the foot of Kabetogama lake on the Towan route, has a splendid gold property on the Seine. One of the veins is four feet wide and half a mile long. It assays \$70 to the ton in gold. Another vein on the same property is thirty inches wide and assays \$160 in gold and \$2.70 in silver to the ton. Development work is now being done on the property with splendid results.  
Samuel C. Gilman is reported to have "struck it rich" on his property at Bad Vermilion lake.  
Word has come that the camp of Robinson & Carey at the Corey mine was burned Monday afternoon while the occupants were away. The contents were a total loss. The cause of the fire is unknown.

The Ward brothers got away returns from their island mine on the town lake earlier and it shows \$12 to the ton in gold.  
The Rainy Lake Syndicate Mining company, who own the island known as Bushyhead near the sawmill, have refused \$40,000 for the property. Mr. Gunstein, now here developing the property, says nothing less than \$100,000 will be taken for the same property. It has been struck in this mine the last two days. It promises to be one of the big mines of this new Eldorado.

From every test Dr. Price's baking powder bears the verdict "absolutely pure."  
**The Municipal Court.**  
There was no gist in police court this morning, partly because of election day and partly because of lack of wrongdoers. Yesterday afternoon James E. Williams, convicted of stealing Dan Horgan's sleigh, was sent up for twenty days. The trial of J. W. Kelly, charged with assault and battery, was continued until tomorrow morning at 9:30 o'clock.  
**A Terrible Victim.**  
Pain is always a terrible visitant, and often domiciles itself with one for life. This affliction is preventable, in cases of rheumatism, by a timely resort to Hostetter's Stomach Bitters, which checks the encroachments of the obnoxious and dangerous malarial at the outset. The term "dangerous" is used advisedly, for rheumatism is always liable to attack the vital organs and terminate life. No testimony is more conclusive and concurrent than that of physicians who testify to the excellent effect of Bitters in this disease. Persons incur a wetting in rainy or snowy weather, and who are exposed to draughts, should use the Bitters as a preventive of malarial, dyspepsia, liver and kidney trouble, nervousness and debility are also among the ailments to which this popular medicine is adapted. For the infirmities, soreness and stiffness of the aged it is highly beneficial.

**THE TRIAL PROCEEDS**

Judge Moer Refused to Pass on the Motion for a New Trial in the Hulett Case.

This Practically Amounts to a Denial and Attorney Washburn Announced That He Would Appeal.

Trial of the Remaining Issues in the Case Were Then Taken Up—Grand Jury Charged.

The Hulett case this morning consisted principally of a series of objections, protests, motions, etc., from the attorneys for the respondents, and most of them were overruled by the court. Early in the forenoon Judge Moer refused to pass on the motion for a new trial at that time and ordered the trial of the remaining issues to proceed. According to Mr. Washburn's contention this practically denied the motion for a new trial.

Mr. Washburn took an exception and gave notice of an immediate appeal from the order refusing to entertain the motion for a new trial and ordering the trial to proceed on the ground that the verdict in the jury trial determined the main issue in the case, and that the declaration of such motion might render the introduction of further testimony unnecessary. A stay of proceedings was asked.

Judge Moer denied the request for a stay on the ground that it appeared from the records that the issue submitted to the jury was the determination of but a single fact in the case, and that it did not appear that the determination of such fact should necessarily involve the determination of the main issue. An exception was made and noted and Mrs. Hulett was called to the stand.

It was stipulated that the testimony in the jury trial should be considered in evidence under the overruled objection to and protest against the introduction of any evidence whatever. It was considered that the testimony should be considered in evidence under the above objection and protest, and subject to an objection to the evidence of W. H. Phelps and J. C. Carey concerning conversations with Nehemiah Hulett tending to the admission of his marriage with Mrs. Pomeroy. All objections were overruled and exception taken.

Before noon Mr. Pence commenced to question Mrs. Hulett concerning her knowledge of the land comprising Hulett's homestead, as described in her petition to the probate court to set aside the will and grant her the homestead as Hulett's widow.

**Grand Jury Charged.**  
The grand jury convened at 11 o'clock, twenty-one out of the twenty-three called being present, and was charged by Judge Ensign in the usual manner. Herman L. Mueller was appointed foreman, and the jury retired in charge of A. Snyder. An adjournment was immediately taken until 10 o'clock tomorrow morning.

Tomorrow court will convene and the calendar will be called by Judge Ensign. The petit jury is called for Thursday morning, when the trial of jury cases will be begun.  
There will be several changes in the court room clerks. S. E. Peachey will as usual attend to room 1, but J. B. Baldwin and a new clerk, named Dan, will occupy the positions in the other rooms, as the full force of regular clerks is needed in the clerk's office.

**TWO PERSONS CREMATED.**  
**Fatalities at a Fire in Pittsburg Shortly After Midnight.**  
PITTSBURGH, Pa., Feb. 5.—Two persons were burned to death and another probably fatally injured in a fire on Second avenue shortly after midnight. Their names were: Frederick Danmuller, 40 years, burned to death; his son, aged 6 years, John Patterson, fireman, was hurt internally and may die.  
Danmuller kept a small store at 2268 Second avenue and lived in the rear of the store. About midnight a fire started in the kitchen of Danmuller's house and in a few minutes was burning fiercely. Danmuller, his wife and two children and a hired man ran to the front part of the house to save themselves. On the way Danmuller lost the little boy, and her husband returned to find him.  
Mrs. Danmuller and the children were saved by jumping into blankets held by people in the street. The man ran down the stairway. After the fire was out Danmuller and the boy were found lying on the floor of the bedroom. They were not badly burned but were probably suffocated. The dwelling next door, owned by John Finnegan, was also burned.  
During the progress of the fire, Fireman John Patterson, fell from the building and was injured so badly that he will probably die. The loss will not exceed \$5000.

O. W. O. Hardman, sheriff of Tyler county, Va., appreciates a good thing and does not hesitate to say so. He was almost prostrated with a cold when he procured a bottle of Chamberlain's Cough Remedy. He says: "It gave me prompt relief. I find it to be an invaluable remedy for coughs and colds." For sale by all druggists.
